

Leo Marciel

“I am truly grateful for all of the help the staff and program gave me in making my transition back to the community - thank you all.”

Mr. Marciel was enrolled in the program in January 2016 and started receiving training services through the Northern California Construction Training program (NCCT). He completed a six month program and received several certificates including IBEW, OSHA certification, waste management, CPR, and completion of the Construction Management Technologies Program. Because of his hard work and dedication, he was one of three students who were awarded a vehicle as well as 3 months paid auto insurance upon completion and graduation from the NCCT program.

Kevin Lindergren

“I am loving life! I am so thrilled and overjoyed, I cried this morning.”

Mr. Lindergren was released from State Prison after 16 years incarcerated. While on probation he received job readiness classes and was referred to CHD’s AB 2060 ReBoot/Supervised Population Program for additional employment and guidance services. After overcoming hardships, including living 44 miles from his training and failing his first DMV test, Mr. Lindegren was able to obtain his A Driver License. With his new license and a good reference from the program and the school, Mr. Lindgren was hired and started working as a truck driver on June 13, 2016 earning \$16 per hour with benefits that include a 401k and full insurance coverage.
