NATIONAL SKILLS COALITION
Every worker. Every industry. **A strong economy.**

Side-by-Side Comparison of Occupational Training and Adult Education & Family Literacy Provisions in the Workforce Investment Act (WIA) and the Workforce Innovation and Opportunity Act (WIOA)¹

In July 2014, the Workforce Innovation and Opportunity Act (WIOA), legislation reauthorizing the Workforce Investment Act (WIA), was signed into law. The legislation, authored by Senators Murray (D-WA), Harkin (D-IA), Alexander (R-TN), and Isakson (R-GA), along with Representatives Kline (R-MN), Foxx (R-NC), Miller (D-CA), and Hinojosa (D-TX) was passed by both the House and the Senate on an overwhelmingly bipartisan basis.

WIOA is the product of lengthy “pre-conference” negotiations between the House Committee on Education & the Workforce and the Senate Health, Education, Labor and Pensions (HELP) committee. The new law maintains the basic structure of WIA (i.e., an occupational training title; an adult basic education [ABE], literacy and English language acquisition [ESL] title; Wagner-Peyser; and Vocational Rehabilitation), and does not create a single block grant or otherwise consolidate current funding streams.

The bill amends current law in a number of ways. Key changes include:

- **WORKFORCE INVESTMENT BOARDS (WIBS).** WIOA generally maintains the current structure of state and local workforce boards, continuing to require a business majority and chair. However, the number of required members is reduced.
- **STATE AND LOCAL PLANS.** WIOA requires a single, unified State plan covering all core programs authorized under the bill. The plan must describe the State’s overall strategy for workforce development and how the strategy will meet identified skill needs for workers, job seekers and employers. Local plans must be aligned to the strategy described in the State plan, and must describe how services provided at the local level will be aligned to regional labor market needs.
- **PERFORMANCE MEASURES.** WIOA creates a single set of common measures for adults across all core programs authorized under the bill, including both occupational training and adult education programs, and a similar set of common measures across all youth serving programs authorized under the bill. Adult measures include: unsubsidized employment; median earnings; receipt of a secondary diploma or recognized postsecondary credential; measurable skills gains toward a credential or employment; and employer engagement.
- **AMERICAN JOB CENTERS (ONE-STOP CENTERS).** WIOA requires State boards to establish criteria for use by local boards to assess the “effectiveness, physical and programmatic accessibility, and continuous improvement” of American Job Centers at least every three years. The bill maintains current requirements for mandatory one-stop partners to reach a voluntary agreement to fund infrastructure costs; however, if local areas fail to come to an agreement, a State mandated funding mechanism may be imposed upon those local areas.
- **EMPLOYMENT AND TRAINING ACTIVITIES.** WIOA codifies the elimination of the original “sequence of services,” and combines core and intensive services into a new “career services” category. The bill signals to states and local areas an interest in seeing a number of existing best practices adopted or expanded, including: career pathways (including integrated or contextualized ABE, ESL, and occupational training); industry or sector partnership (local WIBs are required to “convene, use, or implement” sector partnerships); and an increased focus on the attainment of industry-recognized certificates and credentials linked to in-demand occupations.
- **STATE-WIDE SET ASIDE (I.E. GOVERNOR’S SET ASIDE).** WIOA restores the state-wide set-aside to 15 percent.
- **FUNDING LEVELS.** Unlike current law, which simply specifies “such sums as necessary,” WIOA includes specific funding levels for each fiscal year (FY) 2015 through 2020 for the WIA Youth, Adult, and Dislocated Worker programs. Funding levels in FY 2015 are consistent with levels established under the Bipartisan Budget Act, which means that the programs would be funded at post-sequester levels. Funding levels are increased each year, and generally reach FY 2010 levels by FY 2017. However, it is important to understand that these are just authorization levels and actual funding levels will continue to be determined through the annual appropriations process. Unless Congress takes steps to undo the existing budget caps and mandatory cuts under sequestration, it is extremely unlikely that programs will be fully funded at these authorized levels.
- **DATA AND ACCOUNTABILITY ISSUES.** WIOA includes a revised performance system, making all programs accountable for the same core metrics. The bill also adds requirements for performance reporting, expands use of UI wage records across all programs; requires coordination of state and federal evaluation efforts; and establishes a new Workforce Information Advisory Council.

¹ The analysis addresses a number of key provisions within the laws but is not exhaustive.

THE WORKFORCE INVESTMENT ACT OF 1998 (WIA)**THE WORKFORCE INNOVATION AND OPPORTUNITY ACT (WIOA)****Local Performance Accountability Measures**

Local performance measures consist of the same core indicators and customer satisfaction indicators required for states.

Core indicators are the same as state indicators; local areas negotiate local levels of performance with governor, chief elected official.

Evaluation, Sanctions and Performance Reports

SANCTIONS FOR STATE FAILURE TO MEET PERFORMANCE MEASURES—If a state fails to meet state adjusted levels of performance relating to core and customer satisfaction indicators for a program for any program year, the secretary shall upon request provide technical assistance. If such failure continues for a second consecutive year, the secretary may reduce the following year’s grant award by up to 5 percent. Such penalty will be based on the degree of failure to meet state adjusted levels of performance.

SANCTIONS FOR LOCAL FAILURE TO MEET PERFORMANCE MEASURES—If a local area fails to meet levels of performance in relation to core and customer satisfaction indicators, the governor, or upon request of the governor, the secretary, shall provide technical assistance. If such failure continues for a second year, the governor shall take corrective actions, which may require appointment of a new local board, prohibit use of eligible providers and one-stop partners identified as achieving a poor level of performance, or take other such actions as the governor determines are appropriate.

Essentially maintains language in WIA relating to evaluation of state programs, fiscal and management accountability systems, and state and local failure to meet performance measures.

PERFORMANCE REPORTS—

- Requires DOL and DoEd to develop performance report templates for use by states, local areas, and eligible providers
- State and Local Performance Reports: includes level of performance under accountability measures (including with respect to individuals with barriers to employment disaggregated by subpopulation); total number of participants served by each program (disaggregated); number of participants receiving career and training services and the funds spent on each type of service; number of participants who exited from career and training services; average cost per participant; the percentage of participants who received training services and obtained unsubsidized employment in field related to that training; percentage of state’s allotment spent on administrative costs; and number of participants enrolled in more than one program. For local areas implementing pay-for-performance contract strategies: the performance of service providers entering into contracts for such strategies, measured against performance specified in their contracts; and an evaluation of the design of the programs and performance of the strategies, and (where possible) the level of satisfaction with the strategies
- Eligible Training Provider Performance Reports: includes levels of performance under accountability measures; total number of individuals exiting in the program of study; the total number of participants served by each adult and dislocated worker program (including number of individuals w/ barriers to employment served, disaggregated); the total number of participants who exited from training services, disaggregated; and the average cost per participant receiving training services
