Q & A

March 24, 2017

Q: In completing the application narrative Section III-Project Budget do applicants also complete both form F and Form B?

A: In the RFA page six Section 4 Application Requirements, Award and Contracting Process states "Applicants are required to submit a 5-10 page application narrative, workplan and budget. Form F and Form B are part of the application package and must be completed."

Q: The Q & A's dated March 8, 2017, indicates that eligibility is through local boards and that applications must be in collaboration with a local board. Does this mean that only a Local Board can submit an application or does it mean that a non-profit or adult education partner can submit an application although that application needs to include a letter of support by a local board?

A: A non-profit or adult education partner can submit an application. The application needs show support from a local board.

Q: Are funds awarded directly to the non-profit or adult education partner?

A: Funds are awarded directly to the local board. The Local Board will then contract with the non-profit or education partner.
