## **Introduction**

In Program Year (PY) 2018-19, California continued to implement a comprehensive four-year strategy to invest federal Workforce Innovation and Opportunity Act funding in a manner that aligns, coordinates, and integrates service delivery with six core programs and strategic partners. California's Unified Strategic Plan *"Skills Attainment for Upward Mobility; Aligned Services for Shared Prosperity 2016-2020"* (State Plan) was highlighted as one of the best in the nation. This annual report summarizes the progress made in PY 2018-19, most notably:

- Increasing strategic partnerships for alignment and coordination at the regional and local level through planning guidance.
- Convening State Plan core and strategic partners in an effort to develop strategic co-enrollment guidance.
- Implementing workforce development-related state legislation to enable the workforce system for greater effectiveness and coordination across programs.
- Developing policy briefs, conducting research to inform evidence-based practices, and measuring and assessing programmatic outcomes for continuous improvement.
- Investing in data system improvements for performance reporting and enabling solutions for data collection.
- Providing targeted, effective services for one-stop customers.
- Piloting and scaling innovative and impactful workforce development programs through strategic grant-funded opportunities.
- Aligning policy and program to achieve State Plan goals through regional plan implementation efforts.
- Meeting workforce needs by responding to and preempting economic events.
- Providing broad-based employment and business services to meet employer demand.

## **Progress toward Meeting State Plan Vision and Goals**

Consistent with WIOA, the California Workforce Development Board (CWDB), in coordination with the Labor and Workforce Development Agency (LWDA), Employment Development Department (EDD), California Department of Education (CDE), and California Department of Rehabilitation (DOR) developed a vision for the State Plan with three policy objectives. These objectives affect both state-level policy and administrative practices across programs as well as local policy and service delivery:

- *Fostering "demand-driven skills attainment"*. Workforce and education programs need to align program content with the state's industry sector needs so as to provide California's employers and businesses with the skilled workforce necessary to compete in the global economy.
- *Enabling upward mobility for all Californians*, including populations with barriers to employment. Workforce and education programs need to be accessible for all Californians and ensure that everyone has access to a marketable set of skills, and is able to access the level of education necessary to get a good job that ensures both long-term economic self-sufficiency and economic security.
- *Aligning, coordinating, and integrating programs and services* to economize limited resources to achieve scale and impact, while also providing the right services to clients, based on each client's particular and potentially unique needs, including any needs for skills-development.

Between 2017 and 2027, California set goals to *produce one million "middle-skill" industry-valued and recognized postsecondary credentials* and *double the number of individuals enrolled in apprenticeship programs*. These types of postsecondary credentials include, but are not limited to, industry-recognized certificates or certifications, completion of apprenticeship, and professional licenses recognized by California or the federal government. Also included are industry-

valued associate degrees that facilitate movement into either the labor market or longer term educational programs aligned with the state's workforce needs.

The State aims to achieve the vision and goals of the State Plan through the provision of guidance to the workforce development field. Implementation of WIOA policy objectives, and state workforce development legislation is helping to facilitate core and strategic partner programs to remove administrative and operational barriers. This will better move 'the needle' on helping target populations with numerous barriers to education and employment attain industry recognized credentials and necessary skills for family-sustaining employment along regional sector pathways.

Aligned with this effort is an emphasis on designing and making data-driven decisions to identify effective strategies and share lessons learned with the field. In an effort to make the data sharing process more efficient, core and strategic program partners have started developing data sharing agreements and strategies for integrating management information systems. Efforts to integrate and streamline data reporting have an impact on the state's ability to assess and evaluate performance accountability under WIOA. While these efforts are still in a developmental stage, work will continue to align policy and program outcomes to enable continuous improvement across the workforce development system. For more information on the state's vision and goals see the *Executive Summary Including Statement Pertaining to Vision and Goals* (Appendix A of this report).

### **Brief Overview of State Plan Updates**

California's State Plan was modified for PY 18 and PY 19 to include:

- Three new partnership agreements and program descriptions for (one, two, three).
- Updates to the Competitive Integrated Employment Agreement with the DOR.
- New Title I WIOA Youth Policy and Rapid Response policies.
- Wagner-Peyser.
- Title II and Title IV changes made by EDD, CDE and DOR.
- Additional language on providing services to the foreign born, including refugees.
- An update on data sharing efforts.
- Language on pre-apprenticeship training and the Multi-Craft Core Curriculum (MC3).
- Corrections of dated material, such as the number of Local Workforce Development Boards (Local Boards) and the list of CWDB Members.

Further information can be found here: [https://cwdb.ca.gov/plans\\_policies/state-plan-modifications/](https://cwdb.ca.gov/plans_policies/state-plan-modifications/)

### **Regional and Local Planning Guidance PY 2018-19**

Under WIOA, a biennial update of Regional and Local Plans is required in order to ensure that they remain current and account for changes in labor market and economic conditions, or other factors affecting implementation. Pursuant to the State Plan Modification approved by the Department of Labor in 2018, the CWDB issued [Workforce Services Directive WSD18-01](#), which outlined how to align Local and Regional Plan Modifications with the State Plan Modification. The guidance addressed developing new partnerships for target populations, increasing stakeholder engagement, assessing regional coordination efforts, and utilizing of state apprenticeship curriculum.

The 14 Regional Plan Modifications and 45 Local Plan Modifications were reviewed and evaluated for compliance with guidance provided WSD18-01. Since the Regional and Local Plan Modifications focused on enhanced partnerships, CWDB staff engaged a wide array of state partners and subject matter experts to participate in reviewing and scoring the submissions. A total of 25 volunteer reviewers participated from the following state agencies: CWDB, Department of Social Services, Department of Child Support Services, Department of Rehabilitation, Department of Developmental

Disabilities, California Community Colleges, Department of Education, the Employment Training Panel, and LWDA. The review teams consisted of two to four reviewers per partnership component of each plan. As of current, all Regional Plan and Local Modifications are approved.

### **Operationalizing Strategic Co-enrollment**

In 2017, the California participated in the federal Department of Labor (DOL)/ Department of Education's (Departments) co-enrollment cohort with seven states. As part of the project, California created a state-level partner workgroup to develop a work plan. Following the conclusion of the cohort, the workgroup agreed to operationalize its work plan among all the WIOA state-level partner systems. The CWDB, in coordination with state-level State Plan partners and representatives from Local Workforce Development Areas (Local Areas), developed strategic co-enrollment guidance designed to enhance partnerships, share case management, leverage resources, and improve participant experiences and outcomes. Several workgroups supported the development of the co-enrollment guidance along with necessary technical assistance, data sharing and systems issues, and inclusion of employer engagement and career pathways strategies.

Co-enrollment is a recommended strategy under WIOA to align programs and services through collaboration to help meet the unique needs of those we serve. Although a federal definition of co-enrollment exists for core WIOA programs, California seeks to exceed that standard by facilitating co-enrollment across all state-level WIOA and non-WIOA funded partners, promoting shared responsibility, and promoting the attainment of shared performance goals. Shared responsibility among the partners is key for the successful outcome of each enrollee.

In June of 2019, the CWDB released Workforce Services Draft Directive [WSDD-199](#) to the workforce development community for public comment. California's co-enrollment guidance will be vetted and approved by the CWDB prior to the adoption and implementation by all State Plan partners.

### **Waivers**

California does not have any waivers for PY 2018-19. On May 30, 2019, the State released an Information Notice for the field regarding potential WIOA waivers to apply for. The CWDB solicited public comments from Local Boards and other interested parties regarding the following proposed waiver of a WIOA statutory and/or regulatory requirement:

- "Waiver relating to the collection and reporting of performance-related data on all students participating in training programs listed on the ETPL."

This waiver request was developed in accordance with WIOA Section 189(i)(3)(B) and the Code of Federal Regulations Section 679.620 and may be viewed as an attachment to this Information Notice.

### **State Workforce Legislation**

#### **2019-2020 California State Budget**

In order to build capacity for implementation of California's workforce development priorities, the following items were allocated to the CWDB in the 2019-2020 California State Budget.

- \$62,000 of General Funds in State Fiscal Year (SFY) 2019-20 and SFY 2020-21 to convene a workgroup and develop a policy regarding resource sharing agreements between Local Boards to enable them to effectively respond to disasters as required by Assembly Bill 2915 (Caballero, Chapter 722, Statutes 2018)
- \$914,000 of General Funds in SFY 2019-20 and \$1,191,000 in SFY 2020-21 and SFY 2021-22 to develop, administer, and oversee the education and work readiness grants funded under the Removing Barriers to Employment Act:

State of California  
PY 2018-19 WIOA Title I & III Annual Report

Breaking Barriers to Employment Initiative established by Assembly Bill 1111 (Garcia, Chapter 824, Statutes 2018). These funds were an adjustment to the \$15 million that was appropriated in the 2018-19 state budget to ensure appropriate program implementation levels since technically the program money came out the year before and we are reporting budget actions for this current FY.

- \$35 million of Green House Gas Reduction Funds in SFY 2019-20, and \$32.5 million in SFY 2020-21, SFY 2021-22, SFY 2022-23 and SFY 2023-24 to develop, administer and fund a suite of policy and program investments that increase access to good jobs for disadvantaged populations and help workers, companies, and communities build partnerships, skills training, and, in some cases, restructure work related to reducing greenhouse gas emissions.

### **2019-2020 California Legislative Session**

The 2019-2020 legislative season was a busy one, with over 3,000 new bills being introduced by the legislature. Below are several bills signed by Governor Newsom related to the state's current and future workforce development efforts.

#### *Assembly Bill 485 (Medina, Chapter 803, Statutes of 2019)*

This bill establishes requirements for local governing agencies to provide specified information to the Governor's Office of Business and Economic Development before and during the term of an economic development subsidy exceeding \$100,000 for a warehouse distribution center.

The requirements would link economic development subsidies for warehouse distribution centers to job quality in the warehousing sector and opportunities for disadvantaged workers in a manner aligned with WIOA.

#### *Assembly Bill 593 (Carillo, Chapter 611, Statutes of 2019)*

This bill adds the chief elected official of a Local Area to the list of entities permitted to access any relevant quarterly wage data necessary for the evaluation and reporting of workforce program performance measures as required or permitted by law. Ensuring Local Areas have uninterrupted access to wage data for program evaluation purposes supports California's current efforts to assess the quality and effectiveness of the workforce system.

#### *Assembly Bill 1340 (Chiu, Chapter 519, Statutes of 2019)*

This bill requires the private postsecondary institutions regulated by the California Bureau for Private Postsecondary Education (BPPE) to report specified information that would allow the BPPE to post relevant program-level and institution-level statistics regarding the earnings levels of graduates and applicable student loan debt information on its website. The bill would also require BPPE to provide the information reported by institutions to EDD to assist California in fulfilling the WIOA Eligible Training Provider reporting requirements and reduce administrative burden on WIOA training providers.

#### *Senate Bill 586 (Roth, Chapter 529, Statutes of 2019)*

This bill requires the governing board of a school and community college district, as part of a career technical education College and Career Access Pathways partnership, to consult with the appropriate Local Board to determine the extent to which the pathway is aligned with regional and statewide employment needs. Encouraging coordination of career technical education pathways with Local Boards and local labor market demand can help to increase the likelihood of positive career outcomes for dual-enrolled students.

#### *Senate Bill 94 (Budget and Fiscal Review, Chapter 25, Statutes of 2019)*

Among other provisions, the bill authorized data sharing between the California Department of Corrections and Rehabilitation (CDCR), EDD, and CWDB to better track program outcomes of those leaving prison. This will assist the

state workforce system in determining which rehabilitative, workforce, and education programs lead to improved labor market outcomes for the formerly incarcerated.

### **Policy Briefs**

Policy briefs are intended to provide Local Boards and their local and regional planning partners with useful information on best practices and model partnerships they should consider as they work to realize the policy objectives of the State Plan. These policy briefs may be useful for local and regional plan development and will address a number of policy matters, including suggested ways to serve populations with barriers to employment and to implement policies emphasized in the State Plan. Below are a list of published and forthcoming policy briefs:

*Competitive Integrated Employment (CIE) Policy Brief* (September 2017)

<https://cwdb.ca.gov/wp-content/uploads/sites/43/2016/11/CWDB-CIE-Policy-Brief-FINAL-9-25-17.pdf>

*Out-Of-School Youth Policy* (March 2017)

<https://cwdb.ca.gov/wp-content/uploads/sites/43/2016/11/OSY-Policy-Brief-3-14-17.pdf>

*English Language Learners Policy Brief* (January 2017)

<https://cwdb.ca.gov/wp-content/uploads/sites/43/2016/08/LEP-Policy-Brief-Final-Draft-01.26.17.pdf>

*Department of Child Support Services Workforce System Partnership* (2020)

### **Ongoing and Planned Research Projects**

#### **System Evaluations**

##### Cross-Systems Analytics and Assessment for Learning and Skills Attainment

With support from the Governor's Office and the LWDA, the CWDB has continued to work on the Cross-Systems Analytics and Assessment for Learning and Skills Attainment (CAAL-Skills) Program. CAAL-Skills seeks to unite workforce system partners in a program that enables a holistic, yet statistically rigorous assessment of California's workforce system. The California Policy Lab, comprised of research and data science experts from UCLA and UC Berkeley, was engaged by CWDB to evaluate the data provided by CAAL-Skills partners in fulfillment of the federal requirements outlined in WIOA Section 116(e).

Current data sharing partners include:

- Department of Industrial Relations-Division of Apprenticeship Standards.
- Community Colleges Chancellor's Office.
- Employment Training Panel.
- Department of Social Services.
- Employment Development Department.
- Department of Education.
- Department of Corrections and Rehabilitation.
- Department of Rehabilitation.
- Three Pilot counties.

Influence partners, those that do not provide data but whose leadership and influence are provided through the executive operating committee, include:

- Labor and Workforce Development Agency.

- California Workforce Development Board.
- State Board of Education.
- County Welfare Director's Association.

This interagency and multi-departmental data-sharing and program-evaluation initiative uses common performance measures to evaluate the outcomes of California's investment in workforce development, training, related education and supportive service programs. CAAL-Skills utilizes common performance measures to examine:

- A. The efficacy of participating programs based on participant outcomes (e.g. wages earned, credentials attained)
- B. The population served based on the participant characteristics, such as:
  - i. Demographics (e.g. age, gender, race, ethnicity)
  - ii. Barriers to Employment (e.g. disabilities, cultural or language barriers, literacy or income level, ex-offender status)
  - iii. Other characteristics (e.g. veteran status)

Other workforce system factors (e.g. program services provided, geographic location of service providers, industry of employment)

#### AB 2148 Workforce Metrics Dashboard Report

Using the CAAL-Skills program, a report is prepared by CWDB pursuant to AB 2148 (K. Mullin, Chapter 385, Statutes of 2014), requires the creation of a workforce metrics "dashboard" to present information on participant outcomes for the state's workforce education and training programs. The report requires the establishment of new interagency partnerships and data sharing processes which allow for improved data quality and a greater degree of analysis than was feasible within the initial versions of this report.

The following program data in the report include:

- WIOA Title I Adult, Dislocated Worker, and Youth.
- WIOA Act Title II.
- WIOA Title III.
- WIOA Title IV.
- Career Technical Education.
- State Certified Apprenticeship.
- Incumbent Worker Training.
- Trade Adjustment Assistance.

This report is intended to provide a greater understanding of each program's outcomes.. It is not intended to provide a direct comparison of programs, and it does not attribute participant outcomes solely to programs. This report presents outcome data for exiting participants of the ten programs listed above for two separate program years, PY 2015-16 and 2016-17. For more information, the 2018 Workforce Metrics Dashboard Report can be found at the following link: <https://cwdb.ca.gov/wp-content/uploads/sites/43/2018/05/2148-Report-FINAL.pdf>. A new report will be issues in 2020 covering two years of fiscal outcomes.

#### Regional Plan Implementation Evaluation

CWDB engaged Corporation for a Skilled Workforce and the Council for Adult and Experiential Learning to evaluate regional plan implementation (RPI) efforts within the 14 Regional Planning Units (RPU). This evaluation helps California

to California assess and evaluate the RPI efforts and the lessons learned from that process by answering the following questions:

- How do Local Boards and their partners in a region work together to define problems, set goals, identify and implement solutions, and assess outcomes? What are those outcomes?
- How do regionalism and local operational authority co-exist? How has regional work impacted the service delivery systems at the local level?
- How have the regions evolved over time, and how can the CWDB support regions in achieving and sustaining their goals in the future?

The RPI evaluation is designed to take a formative approach to the implementation of regional planning across the 14 RPIUs. The goal is to understand the ways each part of the state is approaching regional work and how their efforts to date align with California's overall vision. By understanding the implementation process of each region, California hopes to identify promising practices being used in various regions as well as gaps or challenges in implementing regional strategies and structures.

To standardize findings across the regions, the CWDB developed Regional Coordination and Alignment Indicators to assess and evaluate regional implementation progress in alignment with the State Plan's three objectives.

#### America's Job Centers of California Evaluation

The America's Job Centers of California (AJCC) system delivers public workforce and training services through a collaboration of local, state, private, and public entities to individuals seeking to build their skills and obtain jobs as well as for employers looking for skilled workers to fill their job openings. To better understand how local operational decisions may affect service delivery and participant outcomes, California will be conducting an evaluation of the AJCC system.

The AJCC Evaluation will have three overarching objectives:

- To understand how different models of service delivery affect overall access to services and the mix of services provided to the client population served.
- To understand how investment decisions pertaining to AJCC infrastructure, staffing levels, and number of locations affect overall access to services and the mix of services provided to the client population served.
- To understand whether there is any relationship between participant outcomes and the mix of services provided to the client population served.

#### **Grant Evaluations**

##### Assembly Bill 2060 Supervised Population Workforce Training Grant Evaluation

Passage of AB 2060 (Chapter 383, Statutes of 2014, V.M. Pérez) established the Supervised Population Workforce Training Grant program to be administered by the CWDB. Aimed at supporting the Governor's public safety realignment efforts, the grant program was funded with Recidivism Reduction Fund monies appropriated in the SFY 2014-15 and 2015-16 Budget Acts. In addition to outlining the framework for the grant program, the statute required the CWDB to submit a report to the Legislature evaluating the effectiveness of the program by January 1, 2018. The report and analysis of findings can be found at the following link: <https://cwdb.ca.gov/wp-content/uploads/sites/43/2018/04/AB-2060-Report-032018-FINAL-SAR-signed.pdf>.

The Supervised Population Workforce Training Grant 3.0 program began in June 2018 and funded four of the original projects to strengthen their existing program and develop new partnerships in order to serve individuals who are on parole rather than only those who are on probation. The latest iteration of the program also provided funding for technical assistance and an evaluation of each project as well as the overall initiative. An updated legislative report that reflects overall Supervised Population Workforce Training Grant findings and outcomes will be available April 2020.

#### Workforce Accelerator Fund and Sling Shot Innovation Evaluation

The CWDB engaged in several evaluations to learn about the SlingShot and Workforce Accelerator Fund (Accelerator) initiatives and what those initiatives accomplished to date. For Accelerator, it is not an evaluation of the performance of individual grantees, but rather a chance to learn about the initiative's implementation and its ability to create a new business as usual. The framework is similar for SlingShot, which began with an acknowledgement that not every strategy would be successful, and that it was "ok to fail." In this spirit, the evaluation is not of each individual region, but of the strengths and limitations of the initiative overall.

As the lead evaluation team for SlingShot, the BW Research Partnership (BW) produced a final report that shares themes around challenges, successes and opportunities, with considerations for how regional efforts can be more successful in the future and how the state can support those efforts using a methodology of regional profiles, executive interviews, and case studies. This evaluation helps the CWDB answer these questions:

- What have regions learned from the experience that can be applied to future opportunities?
- How might regions replicate or scale for greater impact and individual successes?
- How has the initiative evolved over time, regionally and at the state level?
- How might regional engagement efforts be built upon?

As the lead evaluation team for Accelerator, Social Policy Research Associates (SPR) produced a series of briefs on "Implementation" and "Sustainability, Scaling and Systems Change" that help frame both the challenges and processes for how Accelerator grantees experienced the opportunity to take risks and learn to "pivot." SPR is also provided a brief that surveys the Landscape of Accelerator 1.0 – 5.0 grantees and their projects. This evaluation helps the CWDB answer these questions:

- How have grantees implemented their programs? What do programs look like?
- What have grantees and the CWDB learned in the process of implementing programs?
- How have grantees institutionalized and scaled their programs? How have grantees adapted these program over time?
- What have grantees and the CWDB learned about building the capacity to innovate?
- What are the broader enablers of success for an initiative like this one?

As the evaluation coordinators, a Corporation for A Skilled Workforce (CSW) was heavily involved in the process of helping to find opportunities to share findings and explore the ways in which the two discretionary-funded initiatives are similar and divergent.

For more information on the methodology and evaluation process for the Accelerator Evaluation:  
[https://calworkforce.org/wp-content/uploads/2018/05/Accelerator-Innovation-Evaluation\\_PSI.pdf](https://calworkforce.org/wp-content/uploads/2018/05/Accelerator-Innovation-Evaluation_PSI.pdf)

For more information on the methodology and evaluation process for the SlingShot Evaluation:  
[https://calworkforce.org/wp-content/uploads/2018/05/Slingshot-Evaluation-Update\\_PSI.pdf](https://calworkforce.org/wp-content/uploads/2018/05/Slingshot-Evaluation-Update_PSI.pdf)

The final reports and briefs are being made ADA accessible and will be published through the CWDB website.

## Future Evaluations

In order to better inform policy development and the investment of federal and state resources there are two additional priority areas that California intends to evaluate in the future.

1. **Industry Recognized Credentials**  
The State Plan set a goal of producing a million industry recognized credentials over the course of a decade. California seeks to evaluate the system's performance in aligning investments with regional labor market needs and producing industry recognized credentials while also measuring progress towards the State Plan goal.
2. **Local Board Training Investments and Training Related Job Placement**  
According to the California Senate Office of Research, workers with better education and training have better labor market outcomes than do their counterparts. California seeks to evaluate the system's performance in aligning mandated training investments with regional labor market needs and determining whether Local Boards are providing equitable access to relevant training opportunities.

## **California's WIOA Title I & III Performance Accountability System**

### **Mandated Use of One Integrated Data System – Direct Data Key Entry into CalJOBS<sup>SM</sup>**

With the implementation of WIOA and the mandates of both DOL and the Office of Management and Budget's Uniform Guidance, the LWDA and the State Board have determined that use of a single, integrated data system will best serve the needs of California. This will ensure consistently defined and applied data elements and facilitate compliance with performance reporting and evaluation requirements. In addition, it reduces AJCCs operational costs by alleviating the need for third party systems, which are paid for at the expense of services provided to the job seekers and employers of California.

To ensure the CalJOBS system meets the needs of all stakeholders, the EDD Workforce Services Branch (WSB), in collaboration with LWDA and the CWDB, is conducting an evaluation of the CalJOBS system by a third party vendor. Due to extenuating circumstances, three Local Boards have been granted an extension until the completion of the CalJOBS Evaluation.

In order to address the concerns and interests of all subrecipients, the EDD created a CalJOBS Governance Council to oversee changes and future enhancements to the system. The Governance Council started in July 2018, and consists of representatives from the CWDB, EDD's Workforce Services Branch, and one representative from each of the 14 RPUs. For more information about the CalJOBS Governance Council, please see Workforce Services Information Notice [18-18](#).

### **Enhancements to the CalJOBS<sup>SM</sup> Case Management System**

In PY 2018-19, the EDD made the following enhancements to the CalJOBS case management system:

- **Eligible Training Provider List (ETPL) Module ([WSIN19-01](#))**  
The ETPL module was updated in CalJOBS to add functionality necessary to produce the federally required ETP Report file (ETA 9171), which was used to meeting the reporting requirement for PY 2018-19.
- **CalJOBS System Upgrade to Version 18.1 ([WSIN18-01](#))**  
The CalJOBS system was upgraded to Version 18.1, which included various enhancements for individual, employers, and staff.

- **CalJOBS Local Grant Codes** ([WSIN18-05](#))

Information was provided to Local Areas explaining the use of Local Grants codes in the CalJOBS system. Local Grant codes enable Local Areas to track city, county, and other non-state or federal funding.

- **CalJOBS System Enhancement Requests** (WSIN18-21)

To ensure the CalJOBS system continues to meet the needs of stakeholders, information was provided to Local Area and EDD staff on how to submit a CalJOBS System Enhancement Request. These requests are submitted and reviewed by the CalJOBS Governance Council prior to being recommended for implementation by the EDD WSB.

- **CalJOBS System Upgrade to Version 19.0** (WSIN18-24)

On March 3, 2019 the CalJOBS system was updated to version 19.0, which included various enhancements for individual, employers, and staff.

### **Data Validation and Ensuring Data Integrity**

Title 20 Code of Federal Regulations (CFR) Section 677.240 indicates that States must establish data validation requirements consistent with the guidelines issues by the DOL. Additionally, the Departments state that joint guidance for conducting data validation across the core programs is necessary in order to provide the level of detail and specificity requested to implement the provisions outlined in Title 20 CFR Section 677.240. This guidance is to include the expectations of data validation requirements, and technical assistance is to be provided by the Departments to ensure there is consistency in the understanding and implementation of the guidance. California is developing program and policy in support of the joint efforts under TEGL 7-18 Guidance for Validating Jointly Required Performance Data Submitted under WIOA.

### **Common Exit Policy**

The state currently has a common exit policy that includes the following DOL Employment and Training Administration (ETA) funded programs: Title I Adult, Title I Dislocated Worker, Title I Youth, Title III Wagner-Peyser, National Dislocated Worker Grants, and Trade Adjustment Assistance. The state's case management system, CalJOBS, considers all of these programs, and applies a common program exit when the participant has not received a service for 90 calendar days and there are no future services planned. CalJOBS does not include self-service, information-only activities, or follow-up services when determining the common exit date.

### **WIOA Title IB Results - Progress toward Meeting Negotiated Goals**

California has 45 Local Areas, each with its own Local Board. These 45 Local Boards are spread across 14 RPU's and work in concert with their local chief elected official to oversee the delivery of workforce services to jobseekers and employers. Critical to their charge is their oversight of the local AJCC's offices, which are the center of the system's statewide service delivery for workforce, education, training, and employer services. The AJCCs provide access to jobs, skill development, and business services vital to the social and economic well-being of their communities through partnerships with other local, state, and federal agencies, education, and economic development organizations. The CWDB officially approved [WIOA 2017-2020 Plans](#) for the 45 Local Areas.

### **Adult Program**

For PY 2018-19 the WIOA Title IB Adult program served a total of 50,251 participants. 50,116 participants received career services and 16,124 participants received training services. 37,754 participants exited the program and 68.3 percent (26,164) were employed in the 2<sup>nd</sup> quarter following exit just above the negotiated goal of 64.0 percent. Of the

exited participants, 66.9 percent (25,325) were employed in the 4<sup>th</sup> quarter exceeding the negotiated goal of 60.5 percent. Median earnings for the program were \$6,149 which exceeded the negotiated goal of \$5,200. Of those participants who exited and are in a postsecondary or training program, or in a secondary education program without a diploma or equivalent, 5,945 received a credential, with a rate of 65.7 percent exceeding the negotiated goal of 53 percent. The Measurable Skill Gains is considered a baseline indicator, but preliminary results show 6,784 participants who, during a program year, are in education or training programs that lead to a recognized postsecondary credential or employment and who are achieving measurable skill gains, defined as documented academic, technical, occupational, or other forms of progress, towards such a credential or employment.

### **Dislocated Worker Program**

For PY 2018-19 the WIOA Title IB Dislocated Worker program served a total of 24,117 participants. Approximately 23,833 participants received career services and 9,772 participants received training services. Approximately 16,201 participants exited the program and 73.5 percent (12,877) were employed in the 2<sup>nd</sup> quarter following exit exceeding the negotiated goal of 68.0 percent. Of the exited participants, 73.4 percent (13,327) were employed in the 4<sup>th</sup> quarter exceeding the negotiated goal of 63.5 percent. Median earnings for the program were \$8,340 which exceeded the negotiated goal of \$7,450. Of those participants who exited and are in a postsecondary or training program, or in a secondary education program without a diploma or equivalent, 4,039 received a credential, with a rate of 67.8 percent exceeding the negotiated goal of 57.0 percent. The Measurable Skill Gains is considered a baseline indicator, but preliminary results show 3,563 participants who, during a program year, are in education or training programs that lead to a recognized postsecondary credential or employment and who are achieving measurable skill gains, defined as documented academic, technical, occupational, or other forms of progress, towards such a credential or employment.

### **Youth Program**

For PY 2018-19 the WIOA Title IB Youth program served a total of 17,543 participants. Approximately 13,625 participants received career services and 3,918 participants received training services. Approximately 12,102 participants exited the program and 72.5 percent (8,309) were employed or entered education in the 2<sup>nd</sup> quarter following exit exceeding the negotiated goal of 65.4 percent. Of the exited participants, 71.8 percent (8,409) were employed or entered education in the 4<sup>th</sup> quarter exceeding the negotiated goal of 62.0 percent. In addition, median earnings for the Youth program is considered a baseline indicator because data for this indicator is still being collected and assessed. Median earnings for the program were \$3,573. Of those participants who exited and are in a postsecondary or training program, or in a secondary education program without a diploma or equivalent, 3,846 received a credential, with a rate of 67.8 percent exceeding the negotiated goal of 53.0 percent. The Measurable Skill Gains is considered a baseline indicator, but preliminary results shows 5,023 participants who, during a program year, are in education or training programs that lead to a recognized postsecondary credential or employment and who are achieving measurable skill gains, defined as documented academic, technical, occupational, or other forms of progress, towards such a credential or employment.

See Appendix C for a comprehensive overview of the State's achieved outcomes for PY 2018-19.

### **WIOA Title IB PY 2018-19 Negotiated Performance Levels For Local Areas**

Local Areas negotiated and reached agreement with the Governor on local performance levels. The objective of the negotiations process is to define local performance targets that are aligned with current economic indicators, reflect local area service strategies and local achievements, while at the same time building on the overall system goal of continuous improvement for clients and customers, providing the greatest return on workforce investments, and

enabling the regional planning implementation of WIOA by providing industry-relevant skills attainment framework for individuals with barriers to employment.

As the primary contact for performance negotiations, the CWDB negotiated performance goals for all 45 Local Areas through their designated RPUs using the state level goals as a baseline for negotiations, as well as other analytical tools and resources that helped establish representative performance levels, such as the statistical adjustment model (SAM) provided by DOLETA.

Local Areas came to agreement within their RPUs on a method for negotiating collectively. If an RPU is a single Local Area, then that Local Area is solely responsible for regional negotiations. Local Areas within an RPU may develop their own collective method and provide proposed adjusted levels of performance. [See Appendix D for PY 2018-19 local area negotiated goals]

### **Effectiveness in Serving Employers Pilot Measures**

California selected to report on two of the three of the Departments' proposed measures: Repeat Business Customers, and Retention with the Same Employer. California did not have a state-established measure in PY 2018-19.

- *Repeat business customers rate* is 34.1 percent (30,816 establishments).
- *Retention with the same employer* is 62.6 percent (127,871 participants).

### **Performance Deficiencies and Factors Effecting Performance**

Overall, the Jobs for Veterans State Grant (JVSG), Wagner-Peyser, and Title I Adult, Dislocated Worker and Youth programs employment rates for participants 60 years of age or older is significantly lower than the rates of other age groups. This is due to the conscious and/or unconscious biases of employers against hiring workers within that age group, which makes this population hard to serve. Additionally, the data for the Migrant and Seasonal Farmworkers (MSFW) is missing due to the report specifications requiring only the inclusion of individuals that are eligible under WIOA Section 167. Since these programs do not conduct eligibility for the WIOA Section 167 program, the data is not represented on the annual report.

The Measurable Skill Gains indicator appears low for the Title I Adult and Dislocated Worker programs. This is a new measure Local Areas are continuing to learn, and since the measure is new there is no historical data to determine the appropriate level for this indicator. California saw an increase in the measure for these programs from PY 2016-17 to PY 2018-19 and expects to continue to see this rate increase as Local Areas adjust to the new requirements.

For the Effectiveness in Serving Employers indicator, the Employer Penetration Rate was 4.2% for PY 2018-19. While this figure appears to be low, California reported 1,548,306 establishment throughout the state. The large denominator skews the fact that we have served almost 65,000 employers in one year.

The employment rates for participants younger than 16 is extremely low for the Wagner-Peyser program. This population is hard to serve, especially through Wagner-Peyser since the program focuses on employment services, and the performance data does not consider placement in education or training. Additionally, there is no data for Wagner-Peyser participants exhausting TANF as California does not have system integration between the Wagner-Peyser case management system and the TANF system. This data element relies on participants to self-identify as exhausting TANF within two years, which is information the participant may not be aware of.

Looking at the WIOA Title IB Adult program, less than a quarter of Adult program participants, 55.9 percent, were enrolled in more than one core program. For Youth program participants, only 28.6 percent were enrolled in more than one core program. Development of a strategic co-enrollment policy and issuing guidance is meant to support efforts to

increase the rate of participants enrolled in one or more core program. The CWDB is looking to increase this percentage with the development of more effective data collection and program reporting.

Improvements to align State Plan vision and goals with training-related employment outcomes data will be a research project focus in the upcoming program year. Currently, 13.8 percent of the participants in the Adult program, 11.9 percent in the Dislocated Worker program, and 9.4 percent in the Youth program who received training entered employment in a training-related occupation. The CWDB is looking to increase this percentage with developing more effective data collection and program reporting.

### **Coordination and Information Access with DOLETA**

California has and will continue to provide data, survey responses, and accommodations for timely site visits for Federal evaluations. The DOLETA did a comprehensive WIOA review on September 10th, 2018 through September 21st, 2018. The review consisted of reviewing WIOA Title I and Title III implementation with a focus on program and financial WIOA compliance. During the review, the DOL met with EDD and CWDB staff to discuss the implementation of WIOA along with policies and procedures provided to Local Areas carrying out Title I services. The DOL also visited two RPUs along with the six Local Areas in those RPUs. WIOA Title I and Title III staff were present at each of the sites visited. In addition to providing policies and procedures prior to the actual DOL review, the EDD also provided PY 2018-19 participant data for the various Local Areas visited to DOL prior to the WIOA review. DOLETA Region 6 staff were extremely appreciative of California's ability to be flexible and accommodating.

In addition, the EDD participated in a WIOA and WP Fiscal Review conducted by the DOL from May 13-17, 2019. The EDD is waiting for the draft report from DOL prior to making any change(s) to policy and/or procedures.

Along with the comprehensive review, the DOLETA and DOL Office of the Inspector General (OIG) both conducted reviews of disaster National Dislocated Worker Grants (NDWGs) during PY 2018-19. The OIG conducted a comprehensive review of the 2017 Wildfires disaster NDWG, and DOLETA reviewed the 2017 Storms disaster NDWG. Both reviews were performed similarly. The reviews were led by the DOL and EDD Project Management Group (PMG). DOL staff met with EDD personnel from the PMG, the Financial Management Unit, and the Admin Branch's Fiscal Programs Division. Fiscal and programmatic records were provided to the DOL for their review, and the PMG facilitated site visits with two project operators for each grant. The OIG review was part of an audit of the DOLETA, and the EDD has not been provided with a copy of that audit report. The DOLETA review included one finding, now closed, and two noted practices.

### **Customer Satisfaction Measures**

The WSB Enterprise Customer Satisfaction Survey (ECSS) is an annual survey of CalJOBS<sup>SM</sup> jobseekers to inform the WSB's ongoing efforts to improve services to its customers.

More broadly, the ECSS is an EDD enterprise-wide project that aims to annually obtain opinions from representative samples of Unemployment Insurance, Disability Insurance, Tax, and Workforce Services customers to measure satisfaction, examine a customer's experiences interacting with the program areas, and inform or evaluate specific program initiatives. Results from these surveys will be included in the EDD's Balanced Scorecard to annually track how the EDD is meeting its customers' needs and to identify areas for improvement. The ECSS was conducted at the conclusion of the 2018-19 PY.

The ECSS conducted two surveys during PY 2018-19:

#### **1. ECSS 2018 Results:**

Survey conducted from July 11, 2018 through August 15, 2018.

- Most respondents reported high levels of overall satisfaction with the EDD's employment services.
- Respondents reported somewhat higher satisfaction with using CalJOBS<sup>SM</sup> to build a resume or to find labor market information than to receive job alerts or to search for jobs.
- Respondents who used services at an America's Job Center of California<sup>SM</sup> reported high levels of satisfaction.
- Most respondents (88%) prefer to access the EDD's employment and training services at least partially through CalJOBS rather than through an America's Job Center of California<sup>SM</sup> only.

## 2. ECSS 2019 Results:

Survey conducted from July 19, 2019 through August 23, 2019 for survey population of jobseekers who attended a RESEA appointment during the period from April 8, 2019 through July 7, 2019.

- As in 2017, most RESEA jobseekers expressed high satisfaction with EDD services.
- A majority of those who have previously received similar employment services from the EDD say the recent service is about the same.
- Most RESEA jobseekers either indicated no preference for the scheduling of their second appointment, or the scheduling aligned with their preferences.
- A majority are mostly or extremely likely to return to an AJCC after their mandatory appointments.

## **Progress toward Implementing Sector Strategies and Career Pathways**

The overarching goal of the State Plan is the reorientation and realignment of California's workforce programs and institutions to support a dynamic and globally successful state economy that offers all residents – including the most vulnerable – an opportunity for a higher quality of life.

The grants and initiatives highlighted below demonstrate the implementation of this vision by communities and regions throughout California working to enable sector strategies and career pathways.

## **Governor's Discretionary Funded Initiatives**

### **Workforce Accelerator Fund 7.0**

The Workforce Accelerator Fund supports projects that create and prototype innovative strategies to accelerate skill development, employment, and reemployment for one or more of the target populations. Innovations that emerge from these prototypes will then be scaled and replicated across the state, infusing new ideas into the bloodstream of workforce development.

For 2018-19, the CWDB and EDD awarded \$6,100,000 to the Workforce Accelerator Fund (Accelerator) from the WIOA 15 percent Governor's Discretionary funds. The Accelerator 7.0 funds innovative solutions to accelerate system-wide changes to better address the challenges and barriers that keep Californians from achieving success in their professional lives. Through a combination of seed funding and an initiative-wide support network, Accelerator provides an opportunity for the workforce system to create services in unique ways, tailored to the needs of customers. As Accelerator has evolved, it has become crucial to bring successful strategies to scale and embed them into the workforce system, ultimately influencing system change to better serve target population(s) regionally and statewide. Of the \$6.1 million, \$2 million was pulled aside to pilot regional co-enrollment strategies through the English Language Learner (ELL) Navigator projects. An additional \$25,000 was used to fund the evaluation of the ELL Navigator Projects.

The purpose of 7.0 is to build upon previous Accelerator project successes and to solicit new strategies for Californians with barriers to employment. Our goal is to fund "ground up" solutions to some of the most vexing challenges that are

keeping Californians with barriers to employment from achieving success in their jobs and careers. We anticipate that the solutions achieved through Accelerator can be used by regions grappling with similar challenges. These solutions will be shared with the Regional Planning Units and other stakeholders to create lasting change and improvements in the workforce system.

Accelerator 7.0 funding was utilized to expand and enhance workforce opportunities for the following individuals:

- Long-Term Unemployed – A significant number of California workers have been out of work for more than six months and are struggling to find new jobs.
- Returning Veterans – Too many veterans, after performing essential services with great skill, are challenged in finding civilian jobs that capitalize on the skills they've developed.
- Individuals with Disabilities – The labor force participation rate for Californians with disabilities is only 19.5% - lower than it was before passage of the Americans with Disabilities Act.
- Low-Income Workers – Thousands of Californians are trapped in poverty, often cycling through low wage, dead-end jobs and lacking the education, skills, and financial support needed to move into sustained, higher wage jobs.
- CalWORKS Participants – The WIOA and California State budget prioritize services to skill-up and place public assistance recipients in jobs that support their families.
- Disconnected Youth – Many young people who are 16-24 years of age, and are neither in-school nor working and in danger of being left behind.
- Ex-Offenders – Realignment has increased the visibility of the need for robust job services for the parole and ex-offender population in California.
- Immigrant Job Seekers and their Families – Matching the skills of immigrant workers to the changing economy and capitalizing on training and education received prior to coming to California can help increase economic mobility for immigrant workers and their families.

## **Regional Implementation Grants**

In October 2019, the CWDB announced the award of the SlingShot 2.0 Regional Plan Implementation (RPI) grants for the 14 California RPUs. The CWDB and EDD awarded \$5,000,000 in WIOA 15 percent Governor's Discretionary funds to California's 14 RPUs to support efforts to implement the priority goals of the regional plans and build off the lessons learned from the SlingShot initiative. These awards will ensure more people have access to training, good jobs and economic security, and achieve greater intergenerational income mobility. Regional plans will address the objectives of the State Plan: demand-driven skill attainment, achieving income mobility for individuals with barriers to employment, and system alignment among regionally organized Local Boards and their partners.

Outcomes that will be achieved by the Regional Plan Implementation grants include:

- Demand Driven Skills Attainment:
  - Region has developed a team that jointly convenes industry and is led by Industry Champions.
  - Region has shared industry sector focus and pools/shares resources to meet demand in the region.
  - Region has a process to communicate industry workforce needs to supply-side partners.
  - Region has policies supporting equity and strives to improve job quality.
- Upward Mobility and Equity for Individuals with Barriers to Employment Outcomes:
  - Region has shared target populations of emphasis.

- Region deploys shared/pooled resources to provide services, training, and education to meet target population needs.
- Region utilizes shared/common case management and capacity building strategies such as co-enrollment and professional development to develop shared responsibility for providing services and ensure quality outcomes.
- System Alignment Outcomes:
  - Region has shared/pooled administrative systems or processes to achieve administrative efficiencies and program outcomes.
  - Region has created formalized structures for decision-making.
  - Region has developed a process for evaluating performance that includes:
    - Qualitatively evaluating progress towards meeting regional industry and occupational demand;
    - Tracking the number of industry-recognized credentials and apprenticeships;
    - Aligning negotiated performance measures to regional indices

### **Workforce Navigator Pilot Program Targeting Limited English Language Learners and Immigrant Workforce**

The CWDB, in conjunction with the EDD and the LWDA, has made available up to \$1.5 million of WIOA Title I Governor’s Discretionary funds to develop and implement a Workforce Navigator Pilot Program targeting English Language Learners (ELLs) and Immigrant workers. The goal of this initiative is to promote increased access, create/enhance program structure and availability, and provide supportive services within the workforce system for California’s English Language Learner Population. Entities selected are expected to work in collaboration with CBOs and other workforce partners, including adult education entities. Specific goals of the pilots include: implementing a workforce navigator model; enhance/establish collaboration with CBOs and other partners to provide supportive wraparound services; support dual enrollment in WIOA Title I and Title II programs; and create “no wrong door” access to services.

### **High Road Training Partnerships Initiative**

The CWDB invested over \$8.8 million of WIOA discretionary funds to design, develop, implement and/or advance model high-road training partnerships. The High Road Training Partnership Initiative (HRTPI) supports eight demonstration projects — ranging from transportation to health care to hospitality — that model a sector approach that addresses critical issues of equity, job quality, and environmental sustainability. HRTPIs are industry-based, worker-focused training partnerships that build skills for California’s high road employers—firms that compete based on quality of product and service achieved through innovation and investment in human capital and can thus generate family-supporting jobs where workers have agency and voice.

Along with these program investments, the CWDB works with California Labor Federation, UC Berkeley Labor Center, and UCLA Labor Center to support, advance, and institutionalize these model partnerships. Through these partnerships, the CWDB is producing a body of policy, principles, and practice, defining the high road strategy for the State of California. UCLA has crafted eight project overviews describing each partnership model and highlighting impact and transformation within each industry. They are currently developing a formal HRTPI evaluation, assessing partnership successes and challenges along with identifying opportunities to transform California’s workforce development system. UC Berkeley is responsible for developing essential elements and best practices for sector partnerships that start with the jobs along with guidelines for workforce stakeholders to more directly attend to supply and demand in the labor market.

The CWDB has started to integrate this high road approach across other CWDB initiatives and will invest in further partnerships starting in 2020. The CWDB is committed to delivering on the initial purpose of this initiative: to advance and document a field of practice that simultaneously addresses urgent questions of income mobility, economic competitiveness, and climate change through regional skills strategies designed to support economically and environmentally resilient communities across the state.

For more information and future materials, please visit the H RTP Webpage: <https://cwdb.ca.gov/initiatives/high-road-training-partnerships/>

### **Construction Pre-Apprenticeship Pipeline for Ex-Offenders 2.0**

In 2018 the CWDB and EDD invested \$1 million in four regions of the state to develop partnerships and pipelines that directly connect California Department of Corrections & Rehabilitation pre-release and post-release programs to state-approved apprenticeships. These demonstration projects were the first step in integrating the CWDB's High Road Construction Careers infrastructure into the 14 Regional Planning Units – focusing on building partnerships among the State prisons, post-release transition centers, parole, and existing CWDB funded pre-apprenticeship partnerships (labor, CBOs, and WDBs). Projects are currently in Sacramento, Los Angeles, Alameda, and Fresno and end December 2019.

### **State Funded Workforce Initiatives**

#### **High Road Construction Careers: SB 1 (HRCC: SB 1)**

The Road Repair and Accountability Act of 2017 (Senate Bill 1, Chapter 5, Statutes of 2017, Senator Beall) invests billions of dollars annually to fix and maintain California's transportation infrastructure. The CWDB received \$25 million (\$5 million annually for five years starting 17/18) to establish a pre-apprenticeship training program, beginning in 2019.

Over the past six years, the CWDB has established twelve effective pre-apprenticeship training partnerships under the California Clean Energy Jobs Act (Proposition 39). These partnerships link local Building and Construction Trades Councils (BTCs) to workforce boards, schools, and community-based organizations (CBOs), creating structured pathways—with a standard Multi-Craft Core Curriculum (MC3) and critical supportive services—to state-approved apprenticeships in a variety of crafts. The HRCC: SB 1 program will expand HRCC into a comprehensive statewide industry sector strategy through the expansion, development and support of a single HRCC pre-apprenticeship partnership in each region of California.

The CWDB released up to \$14 million in SB 1 program funding in the fall of 2019, investing in a single pre-apprenticeship partnership in each region of California. These regions are based on groupings of BTC jurisdictions and comports closely with the State Plan Regional Planning Units. The goal of HRCC: SB 1 is to establish sustainable, regionally based pre-apprenticeship partnerships that systematically connect disadvantaged workers and communities to long-term middle-class careers through state-approved apprenticeship.

For more information see the HRCC: SB 1 Guidelines: [HRCC: SB 1 Guidelines](#)

Also available is the HRCC: Best Practices Report: [Building a Statewide System of High Road Pre-Apprenticeship in California](#)

### **Prison to Employment Initiative**

The Governor's 2018 Budget proposal included \$37 million over three budget years to fund the integration of workforce and reentry services in the state's 14 regions, known as the "Prison to Employment Initiative."

Funding for the Prison to Employment Initiative was approved by the Legislature and signed by the Governor and supports regional planning efforts, funds regional plan implementation, and provides resources for direct services to the formerly incarcerated and other justice-involved individuals. It also sets aside specific resources for both supportive services and earn and learn activities which were identified as a major gap by current grantees and local service providers.

The goal of the Prison to Employment Initiative Grant Program is to improve labor market outcomes for California's formerly-incarcerated and justice-involved population by developing strategies that connect individuals to the direct and supportive services they need in order to obtain gainful employment.

#### **AB 1111 - Breaking Barriers to Employment Grant Program**

Signed in 2017, AB 1111 intends to address the issue of poverty and limited income mobility among low income families and individuals facing barriers to quality employment. The purpose of the initiative is to create a grant program to provide individuals with barriers to employment the services they need to enter, participate in, and complete broader workforce preparation, training, and education programs aligned with regional labor market needs. It also specifies that people completing these programs should have the skills and competencies to successfully enter the labor market, retain employment, and earn wages that lead to self-sufficiency and economic security. The bill outlines the criteria for the selection of grant recipients, as well as the criteria by which grants are required to be evaluated, the populations that are eligible to be served by grants, and the activities eligible for grant funding.

\$15M was appropriated to this bill in FY 18/19.

At least one lead local workforce development board and one lead mission-driven, community based organization with experience providing services consistent with the initiative and population to be served, are required for each application.

Populations eligible to be served by grants include:

- Youths who are disconnected from the education system or employment.
- Women seeking training or education to move into nontraditional fields of employment.
- Displaced workers and long-term unemployed.
- Unskilled or underskilled, low-wage workers.
- Persons for whom English is not their primary language.
- Economically disadvantaged persons.
- CalWORKs participants.
- Persons who are incarcerated and soon to be released or formerly incarcerated.
- Armed services veterans.
- Native Americans.
- Migrants or seasonal farmworkers.

#### **ForwardFocus**

#### **AB2060 Supervised Population Workforce Training Grant**

AB 2060 (Chapter 383, Statutes of 2014, V.M. Pérez) established the Supervised Population Workforce Training Grant program to be administered by the California Workforce Development Board (CWDB). Aimed at supporting the Governor's public safety realignment efforts, the grant program was funded with Recidivism Reduction Fund monies appropriated in the 2014-15, 2015-16, and 2017/18 Budget Acts.

Starting in 2015, the CWDB invested in thirteen projects throughout the State of California to develop partnerships between correction entities, local workforce boards, and CBOs in order to create career pathways in industry careers. Together these partnerships work together to align education, training, case management, employer engagement, job placement, and job retention support services to ultimately improve the labor market outcomes of their formerly incarcerated participants.

For additional information, program evaluation, and outcomes see the Interim Report to the California Legislature on the ForwardFocus webpage: <https://cwdb.ca.gov/initiatives/ab-2060/>

An updated report will be available in March 2020.

### **Proposition 39**

Since 2014, the California Workforce Development Board has invested \$13.3M of Proposition 39 Clean Energy Job Creation funds to build twelve construction pre-apprenticeship partnerships across the state. Prop 39 partnerships build regional pipelines to middle class careers for at-risk youth, women, justice-involved, and other disadvantaged or under-represented job seekers. Partnering with local Building Trades Councils (BTCs) and the state certified apprenticeship community, Prop 39 programs bring together community, education and workforce organizations to create the critical link between pre-apprenticeship and apprenticeship programs. Graduates earn an industry-valued credential and are connected to joint-labor management State Registered Apprenticeship Programs. These twelve partnerships to-date have placed 803 individuals in state-approved apprenticeship programs. 11 of the 12 partnerships ended in 2019 and the last partnership ends March 2020.

### **Construction Pre-Apprenticeship Pipeline for Ex-Offenders Grant**

Since 2017, the California Workforce Development Board has invested \$2.85M to build the capacity of four construction pre-apprenticeship programs to serve and train formerly incarcerated job seekers. These projects are building an evidence-base for working with the re-entry community to meet industry demand and advance employment outcomes for one of California's most disadvantaged populations. In California, 46% of individuals released from state prisons are re-convicted of a crime within three years. Locked out of opportunities, formerly incarcerated individuals face a revolving door of recidivism. These Pipeline projects break this cycle by preparing formerly incarcerated individuals for sustainable union construction careers. Utilizing the National Building Trades MC3 curriculum in conjunction with supportive services, graduates earn industry-valued credentials and are connected to state-certified apprenticeships that offer a livable wage, comprehensive benefits, and don't discriminate based on an individual's background. While past State funding created partnerships between pre-apprenticeship and apprenticeship programs, this funding allowed programs to add the critical connection to correctional agencies, paving the pathway for a prison to employment pipeline. The grant ended in March 2019 and resulted in 120 individuals being placed in state-approved apprenticeship programs.

## **AB 398 Report**

Signed into law in 2017, Assembly Bill 398 (E. Garcia, Chapter 135) extends the Global Warming Solutions Act, also known as California's cap-and-trade program, through 2030. Included in the law was a requirement that the California Workforce Development Board present a report to the legislature on strategies "to help industry, workers, and communities transition to economic and labor-market changes related to statewide greenhouse gas emissions reduction goals." To fulfill this mandate, the CWDB contracted with the Center for Labor Research and Education at the University of California to review the existing research from leading experts in order to address the following:

- Creating and retaining jobs and stimulating economic activity in the state;
- Embedding workforce training and employment services in infrastructure investments so that services more directly connect to the jobs created;
- The use of community benefits agreements, community workforce agreements, and project labor agreements that connect workforce services and job training directly to jobs impacted or created;
- Preparing the state's students with relevant career technical education that responds to business and industry demands;
- Developing worker retraining programs to assist the existing workforce with the necessary tools to upgrade their skills;
- Responding to the job creation and workforce needs of the state's new and emerging industries, including emerging technologies that will result in greater greenhouse gas emission reductions;
- Developing job training programs to assist specific populations, such as at-risk youth, displaced workers, veterans, the formerly incarcerated, and others facing barriers to employment;
- Opportunities for community-based organizations to partner with local workforce agencies to improve the labor-market outcomes of targeted disadvantaged populations;
- Targeting workforce development programs and activities in disadvantaged communities, as identified pursuant to Section 39711, and communities that are located near entities regulated by the state board pursuant to this division;
- Identifying and leveraging state and federal funding resources to implement the recommendations made in the report consistent with the regulatory purposes of this division.

Final report will be published in early 2020.

## **Rapid Response and Layoff Aversion**

California uses a litany of strategies to link rapid response with AJCCs, Trade Adjustment Assistance (TAA), and dislocated workers. In 2019, California has been working to modify the additional assistance applications to be more responsive. The modification process is still in progress, but involves increased coordination and cooperation amongst Local Areas, EDD, and the CWDB. For TAA, all additional assistance applications require coordination with the local TAA officials, and if TAA is applicable, the state requires co-enrollment. Furthermore, the CWDB and EDD have been working on strategies to incorporate additional programs. To increase efforts for coordination and alignment, five quarterly rapid response roundtables are held regionally all across the state. These roundtable meetings provide an opportunity to educate and update partners on business engagement strategies and partnership development. Additionally, the State has a rapid response communication strategy that keeps all rapid response coordinators informed of activities

throughout the state. A robust communication strategy allows for more nuanced coordination and timely response when massive layoffs occur.

To ensure the effective delivery of Rapid Response services, the EDD Statewide Services Unit maintains an effective statewide Rapid Response system to ensure the regular exchange of information related to federal *Worker Adjustment and Retraining Notification* (WARN) Act and TAA events and other potential dislocations. In partnership, the State Rapid Response Program Lead and the Local Rapid Response Teams engage in an ongoing information-gathering process and establish contacts that can provide information to dislocated workers.

The state contracts with Dun and Bradstreet to utilize products and services to target businesses for engagement strategy to increase interventions in layoff aversion.

### **National Dislocated Worker Grants**

The National Dislocated Worker Grants (NDWGs) are awarded by the DOL to address large, unexpected layoff events and areas where employment is negatively impacted by disasters or emergencies. The NDWGs were formerly known as National Emergency Grants (NEGs) under the Workforce Investment Act. There are five types of NDWGs, two of which the State of California regularly applies for: disaster and unique.

A disaster NDWG emergency application may be submitted when public assistance eligibility for disaster recovery is declared from a federal agency, such as the Federal Emergency Management Agency (FEMA). Disaster NDWGs are used to fund temporary jobs to clean up and repair disaster damage in FEMA-designated counties. Disaster NDWG participants typically are workers dislocated by this or other disasters, long-term unemployed individuals, or small business owners whose operations were significantly disrupted by the disaster. These temporary jobs pay for labor to clean up and repair disaster damage, helping to put the economic potential back to its pre-disaster condition, and provides immediate income for affected workers, reducing the burden on public assistance funds and preserving participants' sense of pride and dignity.

Unique NDWGs are special grants periodically offered by the DOL to test new concepts for workforce services delivery or to meet widespread extraordinary needs in particular sectors, often as a result of political decisions made by the federal government. Many rapid response orientation attendees are provided information and referrals to these NDWGs for training and career services to enhance the dislocated worker's employability for increased wages. All unique NDWG participants are dislocated workers and usually are co-enrolled in adult, dislocated worker, or youth formula funds as appropriate to maximize benefits to the participants.

### **2017 Storm Disaster National Dislocated Worker Grant**

After several consecutive years of drought, California was unprepared for the onslaught of the severe winter storms in 2017. The storms caused extensive damage to the Oroville Dam, roads, power lines, and downed trees and resulted in erosion, mudslides, and floods. FEMA issued four declarations that included 34 counties: Alameda; Amador; Butte; Calaveras; Contra Costa; El Dorado; Humboldt; Inyo; Lake; Lassen; Marin; Mendocino; Merced; Mono; Monterey; Napa; Nevada; Placer; Plumas; Sacramento; San Benito; San Luis Obispo; Santa Clara; Santa Cruz; Shasta; Sierra; Siskiyou; Solano; Sonoma; Sutter; Trinity; Tuolumne; Yolo; and Yuba. A total of \$36 million was awarded to EDD from DOL to provide temporary jobs to the storm damaged areas. The EDD allocated funds to 11 project operators that include nine local workforce development boards and two community-based organizations. The project operators linked the 2017 Storm NDWG participant to worksites for storm clean-up and repair activities on public and Native American lands. The

period of performance of the project is from March 1, 2017 through September 30, 2019. Through June 30, 2019 a total of 1,847 participants were served.

#### **2017 Southern Storm Disaster National Dislocated Worker Grant**

On April 2, 2017, FEMA issued a fifth declaration for the 2017 storms in California. The declaration included ten additional counties: Alpine; Colusa; Del Norte; Glenn; Kings; Mariposa; Modoc; San Joaquin; Stanislaus; and Tehama. As a result, DOL awarded EDD \$7 million to manage the 2017 Southern Storm NDWG. The period of performance is from April 1, 2017 to March 31, 2019. Through the end of the grant, 410 participants were served.

#### **2017 California Wildfires Disaster National Dislocated Worker Grant**

In October 2017, numerous wildfires erupted that resulted in hundreds of thousands of burned acres, fatalities, the displacement of thousands of residents, the destruction of structures, businesses, homes, and communities. As a result the DOL awarded the EDD approximately \$28 million to help the communities recover from the vast devastation. Seven project operators were allocated funds to provide temporary jobs to help clean-up the disaster areas. The period of performance is from October 18, 2017 to December 31, 2019. Through June 30, 2019 there is a total of 716 enrolled participants.

#### **2018 Carr Fire Disaster National Dislocated Worker Grant**

In June through August 2018, a series of fires raged across northern California. These fires included the Carr, Delta, Hat, and Hirz Fires burning throughout Shasta County and causing minor damage in Siskiyou and Trinity Counties; the Carr Fire was notable because of its near-total destruction of the Whiskeytown Lake National Recreation Area and more than 1,000 homes in Redding and the surrounding communities. The DOL awarded \$6 million to the EDD to help clean up and repair Shasta County. The period of performance is from August 20, 2018 through June 30, 2020. Through June 30, 2019, 42 participants were served.

#### **2018 Trade and Economic Transition National Dislocated Worker Grant**

In August 2018, the DOL announced a grant to help workers impacted by the ongoing trade war with China transition into new in-demand fields. The EDD applied for and received nearly \$8 million to assist workers. This is the only unique NDWG the EDD is administering at this time. The period of performance for this grant is October 1, 2018, through September 30, 2020. Through June 30, 2019, 512 participants were served.

#### **2018 National Health Emergency Related to the Opioid Crisis Disaster National Dislocated Worker Grant (“2018 Opioid NDWG”)**

In September 2018, the US Department of Health and Human Services issued a declaration for every county in the United States for the damage caused by the ongoing opioid epidemic. The EDD applied for and received nearly \$4 million in funding to help remediate the damage caused by the crisis through a combination of temporary jobs and workforce development funds. The temporary jobs are to alleviate suffering related to the crisis. The workforce development is to either assist people directly impacted by opioid abuse to retrain into new skills, or to develop workers with skills to help alleviate the crisis. The period of performance for this grant is October 1, 2018 through September 30, 2020. As of June 30, 2019, 28 participants were served.

## **2018 Megafires Disaster National Dislocated Worker Grant**

On November 8, 2018, three fires erupted in northern and southern California. In Butte County, the Camp Fire destroyed the town of Paradise and communities of Centerville, Concow, and Pulga, and damaged the communities of Helltown and Magalia; more than 14,000 homes and 10,000 other structures were destroyed and more than 27,000 residents displaced. In Ventura and Los Angeles Counties, the Hill and Woolsey Fires started as well; the Hill Fire destroyed four homes, and the Woolsey Fire destroyed more than 1,500 homes and other structures. As a result of these fires, the DOL awarded the EDD \$44 million to provide temporary jobs and workforce development to impacted residents. The period of performance for this grant is December 6, 2018 through December 31, 2020. As of June 30, 2019, 861 participants were served.

## **2019 Severe Winter Storms Disaster National Dislocated Worker Grant**

Throughout February 2019, a series of severe storms and two atmospheric rivers struck California, causing widespread flooding, mudslides, and other destruction to the land and infrastructure. As a result, the DOL awarded the EDD \$8.8 million for temporary jobs to provide clean-up and repair storm damage. The period of performance is from May 1, 2019 through June 30, 2021. As of June 30, 2019, no participants were served because the grant had not yet formally launched, but will begin enrolling participants soon.

## **Wagner-Peyser 10 Percent Funds Allocated in Program Year 2018-19**

Under the Wagner-Peyser Act, 10% of the funds are reserved for activities other than labor exchange services. Allowable uses include providing services for groups with special needs and hard-to-serve populations such as at-risk youth, veterans, parolees, migrant and seasonal farmworkers and people with disabilities.

## **The Youth Employment Opportunity Program (YEOP)**

Provides special services to at-risk youth and youth with disabilities between the ages of 15 and 25 to assist them in achieving their educational and vocational goals. Youth aides and student assistants are hired as specialists who can relate with the at-risk barriers and common goals of the youth clients they serve. The YEOP specialists are trained to provide in-depth assessment, peer advising, workshops, job development, selection and referral to education and suitable jobs for youth. YEOP mentors are EDD staff and provide counsel to YEOP specialists in areas of intensive on-the-job training in the basic functions of Workforce Services.

## **Deaf and Hard of Hearing Services**

Contracts are awarded competitively each program year. The program is designed to assist job-ready deaf and hard of hearing persons in searching for, obtaining, and retaining unsubsidized employment and career advancement opportunities.

## **Campesino de California Outreach**

Contract is also awarded competitively each year to secure a California statewide outreach program for Migrant and Seasonal Farm Workers (MSFW), including the H-2A Agricultural workers. The goal of this initiative is to provide measurable outreach projects designed to deliver MSFWs and their families with relevant timely and accurate information on the various programs and services offered through the workforce system.

## **Funding for Veterans Employment Services and EDD Parolee Services**

Supports EDD staff who serve these populations in AJCC locations throughout the state.

There are two external contracts with state agencies that provide services to hard-to-serve populations with barriers to employment. The CalWORKS contract with the Department of Social Services and the contract with the DOR that supports the California Committee on Employment of People with Disabilities.

Program administration funds support staff that manage the programs and contracts funded with the Wagner-Peyser 10 Percent funds. See Appendix J for funding tables.

## **Executive Summary Including Statement Pertaining to Vision and Goals (Corresponding to Strategic Planning Elements Required Under WIOA Sec. 102(b)(1)(D))**

### **Policy Objectives**

Consistent with WIOA, the State Board has developed its State Plan with three policy objectives in mind. These objectives affect both state-level policy and administrative practices across programs as well as local policy and service delivery:

- Fostering “demand-driven skills attainment”. Workforce and education programs need to align program content with the state’s industry sector needs so as to provide California’s employers and businesses with the skilled workforce necessary to compete in the global economy.
- Enabling upward mobility for all Californians, including populations with barriers to employment. Workforce and education programs need to be accessible for all Californians and ensure that everyone has access to a marketable set of skills, and is able to access the level of education necessary to get a good job that ensures both long-term economic self-sufficiency and economic security.
- Aligning, coordinating, and integrating programs and services to economize limited resources to achieve scale and impact, while also providing the right services to clients, based on each client’s particular and potentially unique needs, including any needs for skills-development.

### Industry Engagement

This State Plan adopts a dual-customer focus and is intended to provide policy direction for a system that serves both employers and job seekers. The State Plan attempts to do this by laying out a policy framework for aligning education, training, and employment services with regional labor market needs through a process of regional industry sector engagement. By organizing currently fragmented employment and training programs to meet the skill demands of employers in industry sectors that are driving regional employment, the system helps create opportunities to move workers up a career ladder using targeted incumbent worker training while also moving new hires into jobs using strong employer engagement practices, relevant training investments, supportive services, and basic skills remediation where necessary.

## Serving Individuals with Barriers to Employment

Both federal and state law mandate that services be provided to individuals with barriers to employment.<sup>1</sup> As noted above, the State Board believes the best way to serve both employers and job seekers, including those with barriers to employment, is to align training, education, and employment services with industry needs, including the skills and training needs of California's employers. This will mean, in many instances, providing access to training and education programs that align with regional labor market trends. For some individuals, this will also require the provision of remedial education services, including services designed to improve literacy and numeracy, English language literacy, as well as programming that facilitates high school dropout recovery, to better position these individuals to participate in training and education programs that are calibrated to employers' needs.

## Job Placement in Quality Jobs

The ultimate goal of the workforce system is to help people get a good job, and for those who don't have the requisite skills to immediately get a good job, the goal is to ensure access to the employment services, supportive services, training, and education programming that will help these individuals eventually get a good job.

State law directs the State Board to develop strategies that help people enter and retain employment and emphasizes the development of policies that lead to "placement in a job providing economic security or job placement in an entry-level job that has a well-articulated career pathway or career ladder to a job providing economic security."<sup>2</sup> State law defines these jobs as those that provide, "a wage sufficient to support a family adequately, and, over time, to save for emergency expenses and adequate retirement income, based on factors such as household size,

---

<sup>1</sup> WIOA section 134 requires that priority of service be given to recipients of public assistance, other low-income individuals, and individuals that are basic skills deficient for any expenditure of WIOA Adult program funds spent on individualized career services and training. Similarly, California Unemployment Insurance Code section 14000 (b) (6) requires that programs and services be accessible to "individuals with employment barriers, such as persons with economic, physical, or other barriers to employment." California Unemployment Insurance Code section 14013(d)(2) further directs the State Board to develop "strategies to support the use of career pathways for the purpose of providing individuals, including low-skilled adults, youth, and individuals with barriers to employment, and including individuals with disabilities, with workforce investment activities, education, and supportive services to enter or retain employment."

<sup>2</sup> UIC 14013.

the cost of living in the worker's community, and other factors that may vary by region."<sup>3</sup>

The State Board recognizes that not all jobs are good jobs and that education and training alone will not solve the problem of poverty. There is a hidden cost to low wage work that is ultimately borne by communities, particularly communities of color and immigrant populations. The State Board is committed to developing a workforce system that enables economic growth and shared prosperity on the basis of innovation, quality, and skills attainment rather than low wages, contingent employment, and low or no benefits. As such, state plan partners and providers covered by the plan should make it a priority to work with employers who offer jobs with good wages and benefits, support for ongoing skill training and employee advancement, good working conditions (including paid sick days, paid family leave, and paid medical or short-term disability leave), and adequate hours with predictable schedules that enable employees to meet their family caregiving commitments.

### Customer-Centered Services

The State Board recognizes that services provided will vary on the basis of customer need. For some, these services will necessarily involve enrollment in remedial basic skills programming prior to, or concurrently with, enrollment in career technical education or job training. For other individuals, participation in job readiness training may be necessary prior to labor market entry. It is important to recognize that individuals with significant barriers to employment may need multiple interventions and access to a menu of services provided over an extended period of time before they will be able to find and enter a good job. However, for other individuals served by the workforce system, especially dislocated workers with an in-demand skillset, finding a good job may require only access to information about which employers are hiring in their local area or region.

## **State Plan Goals**

Between 2017 and 2027, the state will produce a million "middle-skill" industry-valued and recognized postsecondary credentials broadly defined here as sub-baccalaureate credentials with demonstrable labor market value, including industry-recognized certificates, or certifications, or certificates of completion of apprenticeship, or professional licenses, recognized by California or the federal government, as well as industry-valued associate degrees that facilitate movement into either the labor market or longer term educational programs aligned with the state's workforce needs.

---

<sup>3</sup> UIC 14005

During this time the state will also double the number of people enrolled in apprenticeship programs.

These goals are aspirational in nature and are based on the need for workforce and education programs to calibrate the production of credentials to labor market trends. The actual number and type of credentials awarded will be determined regionally on the basis of systematic industry engagement. This requires that employers and other industry sector leaders be engaged to help lead the assessment and, where necessary, work with training and education providers to redesign relevant training and education programs. In this regard, regional partnerships between industry and labor, training and education providers, and Local Boards will be vitally important to the success of the State Plan.

Additionally, any and all efforts to align training and education programs with regional labor market trends should be validated by the labor market. This will be done by examining the employment and wage rates of those who participate in and complete relevant programs. The real test of whether programs are serving the needs of both employers and workers is whether those who are receiving services are getting good jobs that put them on a path to upward mobility.

### **Framework for Program Assessment**

The state will measure performance of the core programs using WIOA performance metrics and will *further* assess the overall effectiveness of the workforce system and those educational programs that support and work with it on the basis of these programs' collective ability to produce industry-valued, recognized postsecondary credentials and the apprenticeship enrollments discussed above. As such, State Plan credential and apprenticeship goals should be understood to be supplemental performance measures, and are not intended to supplant the measurement of WIOA performance outcomes for the core programs. The State Board will also work with non-core programs to align performance measurement for state-funded workforce and education programs for which the California Legislature has mandated performance reporting.

Specifically, the state will emphasize “demand-driven skills-attainment” in the policies it sets pertaining to local and regional workforce planning goals and program performance goals will be consistent with this policy direction. For example, in setting performance standards for Local Boards, the state will give great weight to WIOA performance measures related to skills attainment, program completion, and credential attainment (including, when relevant, high school diplomas), and will validate the labor market value of relevant programs by examining the employment

and wage outcomes of the individuals served using relevant WIOA performance metrics.

The purpose of this overall approach to program assessment is to facilitate the attainment of marketable skills that ultimately will improve the labor market outcomes (employment rates and wages) of the individuals being served. The focus on labor market relevant skills attainment (as measured by the production and receipt of industry-valued credentials) is intended to work in tandem with and reinforce the performance assessment system required by WIOA, so as to increase the performance outcomes of local service providers by requiring investments that actually develop the workforce skills of the individuals they serve. If local providers make training-related investments calibrated to the needs of their local and regional labor markets, their performance numbers should benefit.

The State Board will also work with regionally organized Local Boards and other State Plan partners to determine the extent to which persons receiving training and education services aligned with regional industry needs are actually obtaining employment in occupations and sectors directly related to their programs of study. Developing this capacity will require creativity and the development of an operational plan for collecting relevant information. The State Board will work with EDD, Local Boards, and state plan partners to build this capacity and will consider alternative approaches to measuring how well local providers are calibrating training and education offerings to regional labor market trends. Given the current limits of occupation and industry sector information contained in relevant wage records, developing this capacity could prove challenging, though ultimately, worth the effort.

Finally, the State Board will work with state plan partners and relevant stakeholders to conduct program evaluation and research that examines program impacts on wages and employment, using rigorous statistical methodology to compare the labor market outcomes of individuals who participate and complete relevant programs with similar individuals who do not participate and complete these programs.

## **General Policy Framework for Program Alignment**

### State Plan Policies

The state will employ and will require state plan partners to adopt or participate in (to the extent appropriate for each program), seven policy strategies that frame, align, and guide program coordination at the state, local, and regional levels. These policies (discussed in further detail in chapter 3) will include the following:

- Sector strategies: aligning workforce and education programs with leading and emergent industry sectors' skills needs. The success of these efforts will depend on the depth of industry engagement.
- Career pathways: enabling of progressive skills development through education and training programs, using multiple entry and exit points, so that each level of skills development corresponds with labor market gains for those being trained or educated. These pathways should be flexibly designed and include, where necessary, remedial programming, and English as a Second Language training, so as to allow those with basic skills deficiencies the ability to participate.
- Regional partnerships: building partnerships between industry leaders, including organized labor, workforce professionals, education and training providers, and economic development leaders to develop workforce and education policies that support regional economic growth. The success of these efforts will depend on the depth of industry engagement.
- "Earn and learn"—using training and education best practices that combine applied learning opportunities with material compensation while facilitating skills development in the context of actual labor market participation. The success of earn and learn programs depends on sustained employer engagement, and where appropriate, the involvement of organized labor, especially as this pertains to the development of partnerships with labor-management apprenticeship, pre-apprenticeship, and non-traditional apprenticeship programs.
- Supportive services: providing ancillary services like childcare, transportation, and counseling to facilitate program completion by those enrolled in training and education courses.
- Creating cross-system data capacity: using diagnostic labor market data to assess where to invest, and also, the use performance data to assess the value of those investments.
- Integrated service delivery: braiding resources and coordinating services at the local level to meet client needs.

This State Plan provides the policy framework and direction for day-to-day operations of WIOA-funded programs, while also laying out a vision for collaboration with non-WIOA programs that provide relevant programs and services. Across California, regional partnerships have developed to address the state's workforce challenges. The role of state agency and state department plan partners under this plan is to help develop regional leadership and local and regional program alignment and scale by means of coordinated policy direction, program oversight, program support, and

technical assistance for and to local and regional service providers covered by the plan. State Plan, state agency and departmental partners include the following:

- Labor and Workforce Development Agency (LWDA)
- California Workforce Development Board (CWDB)
- California Community Colleges' Chancellor's Office (CCCCO)
- California Department of Education (CDE)
- California Board of Education
- Employment Development Department (EDD)
- Employment Training Panel (ETP)
- Department of Rehabilitation (DOR)
- California Department of Social Services (CDSS)
- Health and Human Services Agency (HHS)
- Governor's Office of Business and Economic Development (GO-Biz)

While the foregoing state plan partners have the responsibility for providing relevant policy direction to the operators of relevant programs, a primary focus of this policy is to facilitate coordinated and seamless service delivery at the local and regional level to improve employment outcomes for students, workers, and job seekers. As such, state plan partners will work to identify and remove policies, administrative practices and implementation practices that result in the fragmentation of services delivered locally or regionally. The success of the State Plan depends on the administrative and operational efforts of Local Boards and other local providers of training, education, and employment services, including local educational agencies (such as county offices of education, K-12 schools, and adult schools), local community colleges, county welfare departments, and any relevant community-based organizations, non-profits, or labor unions who participate in the local and regional partnerships developed under this plan. The state recognizes the critical importance of partnership with and between these entities and values their efforts to bring local and regional perspectives to any and all WIOA implementation efforts.

#### Regional Plans and "Regional Sector Pathways"

California's State Workforce Innovation and Opportunity Act requirements pertaining to coordination between the K-12, community college, and WIOA systems, as well as state mandated efforts to implement sector strategies as the operational framework for the state's workforce system are met under this State Plan by making federally required WIOA regional plans the primary mechanism for achieving the state's

mandated alignment of educational and training programs with regional industry sector needs

Alignment at the regional level will be accomplished through the regional implementation of three of the seven policy strategies discussed in the preceding section: sector strategies, career pathways, and organized regional partnerships. All three of these policies will be required under the regional planning guidance issued by the State Board to Local Boards organized into the regional planning units required under WIOA Section 106.

A primary objective and requirement of regional plans will be to work with community colleges and other training and education providers, including the state's Adult Education Block Grant regional consortia and other providers on the state's eligible training provider list to build "regional sector pathway" programs, by which we mean, career pathway programs that result in the attainment of industry-valued and recognized postsecondary credentials aligned to regional industry workforce needs. "Regional Sector Pathway" programs should be flexibly designed and include, as appropriate, remedial programming, so as to allow those with limited basic skills, including limited language skills, an ability to work their way along these pathways.

The State Board, working alongside other state agencies such as CCCCCO, CDE, EDD, and Go-Biz will provide technical assistance to regional partnerships, comprised of industry leaders, workforce professionals, and regional training and education providers to help align programs and services delivered with industry sector workforce needs.

Under the State Plan, the key regional partners involved with the development and implementation of regional plans will include the following:

- Industry sector leaders, associations, business organizations, and organized labor (required under this State Plan)
- Regionally organized local workforce development boards (required under WIOA)
- Local economic development agencies (required under WIOA)
- Regional consortia of community colleges (required under this State Plan and pending state legislation)
- Regional consortia of adult basic education providers, including both WIOA Title II and other state-funded basic education programs (required under this State Plan)

- Representatives of K-12 CTE programs funded by either federal Perkins funds or various state-specific CTE funding streams, when relevant county offices of education and other local educational agencies determine that participation will benefit the students participating in their CTE programs (required under this State Plan)

Additional regional partners may also include ETP (California's state-funded incumbent worker training program); DOR; and County Welfare Agencies. These entities may wish to participate in regional plans and the regional planning process to leverage the employer engagement efforts required and made central to regional planning efforts.

The State Board will encourage and recommend broad partnerships that include community-based organizations (CBOs) and non-profits, but the State Board will grant considerable flexibility for Local Boards and their partners to determine the nature, scope, and depth of these partnerships based on local and regional needs and priorities as long as regional plans and partnerships are consistent with the policy direction and goals of this State Plan.

Regional efforts under WIOA are expected to build upon the State Board's regional SlingShot initiative discussed later in the State Plan.

#### Local Plans and America's Job Center of California<sup>SM</sup>

Under the State Plan, the purpose of local workforce plans and partnerships is to facilitate access to workforce services at the local level.

Local workforce development plans will ensure a baseline level of WIOA core program alignment compliant with federal regulations at the local level, in and through the **America's Job Center of California<sup>SM</sup>**, the state's One-Stop system, so that program services are coordinated, and when appropriate, integrated to make accessible a menu of customizable services available to clients on the basis of client needs.

Under this State Plan and all relevant policies issued by the state concerning One-Stop design, operations, and partnerships, Local Boards will be directed to operate One-Stops as an access point for programs that provide for "demand-driven skills attainment." From this perspective, One-Stops will be operated as an "on ramp" or "gateway" to the "Regional Sector Pathways" programs either built-out or identified through the regional planning process described above.

One-Stops will continue to provide the full menu of One-Stop services, now known under WIOA as “career services”, they have historically provided and One-Stops will continue to function as labor exchanges, especially for those dislocated workers who do not need further training to reenter the labor market; however, there will be much greater emphasis on treating AJCCs as an access point for education and training services for those who want and need it.

Further detail on One-Stop design and the operation of the AJCC is provided in the body of the State Plan.

## Regional Coordination and Alignment Indicators

### Demand Driven Skills Attainment Indicators

**Indicator A:** Region has a team that jointly convenes industry

Example Considerations: region has a dedicated team (recognized as such by regional workforce and education partners), multiple committed companies (industry champions) in each prioritized industry sector, unions from prioritized industry sectors where workers are represented, frequency of meetings, diversity and reach of representation on the team, depth and representation of priority industry sectors (decision makers, number of employers, size of workforce represented) and a method of ensuring core program partners are connected.

Assessment Questions:	
What industries/sectors meet in the region?	
Who are the industry champions including unions where applicable for each industry sector?	
How were the lead organization(s) and sector experts responsible for convening employers identified?	
What activities take place during a convening/meeting?	
How frequently do convenings/meetings occur? Who attends each convening?	
What new Industry Recognized Credentials and/or Apprenticeship programs will result from the Industry Sector convenings/meetings? Have the partners identified existing credentials offered in the region that meet Industry needs?	
Assessment Levels:	
<b>Learning/ Experimenting</b>	Some of the relevant partners meet episodically with a handful of employers to comply with planning requirements and share labor market information and employer's workforce needs.
<b>Operationalizing/ Doing</b>	All of the relevant partners meet at least a few times a year to discuss industry sector needs, with industry champions and sector experts and are engaged in a planning process that will result in a regional approach to meeting industry's workforce needs.
<b>Growing/ Expanding/ Scaling</b>	A dedicated and specialized team of relevant partners meet regularly with decision-making leaders/industry champions in a specified industry to develop and execute a meaningful plan to meet industry workforce needs and includes measurable goals to develop education and training programs that meet the needs of industry sectors.

**Indicator B:** Region has shared sector/occupational focus and shares/pools resources to meet demand in the region

Example Considerations: regional plan partners have identified industry sectors with large numbers of good quality jobs with openings; region has a shared written assessment of regional needs; region has a concrete plan to meet written identifiable needs; region demonstrates

ongoing meaningful activity to meet needs and achieve workforce goals; region has achieved relative scale and diversity of dedicated resources and shared/pooled funds, and/or has identified common tools for determining job quality that help assess what industries, companies, and jobs to target.

<b>Assessment Questions:</b>	
How does the region identify demand occupations and sectors, and who are the partners engaged in this process?	
How are resources pooled to meet the identified demand?	
Provide 1-3 examples in how demand was identified and resources pooled to meet this demand.	
<b>Assessment Levels:</b>	
<b>Learning/ Experimenting</b>	Regional partners separately identified priority sectors, or some of the relevant partners have identified and agreed upon the targeted sectors in the region and identified employer champions for each sector.
<b>Operationalizing/ Doing</b>	Regional partners identified same priority sectors, occupations with most openings. Employer champions from one or more of the targeted sectors, including labor where workers are represented, are leading the effort to create industry advisory committees, and relevant regional partners have agreed to use advice in planning/implementing sector strategies and developing curriculum to teach skills necessary for employment in target sectors.
<b>Growing/ Expanding/ Scaling</b>	Regional sector committees are business led and functioning in all targeted sectors. Colleges and training providers are training for the skills needed by regional employers. Regional partners identified industry sectors with large numbers of good quality jobs with openings and developed a common tool for determining job quality that helps assess what industries, companies, and jobs to target.

**Indicator C:** Region has a process to communicate industry workforce needs to supply-side partners

Example Considerations: region has developed communication protocols and professional development opportunities to ensure understanding of the targeted industry sectors and job quality framework by all supply-side partners (America's Job Center of California<sup>SM</sup> (AJCC) staff and partners, Workforce Innovation and Opportunity Act (WIOA) core program partners, Adult Education Block Grant (AEBG), Community Colleges and other State Plan Partners); has a concrete plan for preparing job candidates to meet the needs of industry; demonstrates ongoing meaningful activity to meet needs and achieve workforce goals; has achieved relative scale and diversity of dedicated resources and shared/pooled funds.

<b>Assessment Questions:</b>	
Who are the supply-side partners engaged at the regional level, and how does the region ensure understanding by staff and partners of targeted industry sectors and job quality framework?	
What training/professional development opportunities are available to front-line staff on targeted sectors and job quality?	
How do the services provided by the AJCC and regional partners prepare job candidates to meet the needs of targeted industry?	
How do One-Stop Operators, AJCC service providers, and other supply-side partners ensure that services are aligned to reduce duplication and redundancy? Give examples.	
<b>Assessment Levels:</b>	
<b>Learning/ Experimenting</b>	One-Stop Operators/AJCC Service providers in a region are connected to Industry Sector Committees, and training is provided to staff and partners on industry workforce needs.
<b>Operationalizing/ Doing</b>	Regional partners have a process to communicate industry workforce needs and train staff on targeted industry sectors and job quality and are developing a method of ensuring that AJCC and other supply-side partners provide work-readiness services to prepare job candidates for targeted industry sector jobs.
<b>Growing/ Expanding/ Scaling</b>	Region has developed communication protocols and professional development opportunities to ensure understanding of the targeted industry sectors and job quality framework by all supply-side partners (AJCC staff and partners, WIOA core program partners, AEBG, Community Colleges and other State Plan Partners); has a concrete plan for preparing job candidates to meet the needs of industry; demonstrates ongoing meaningful activity to meet needs and achieve workforce goals; has achieved relative scale and diversity of dedicated resources and shares/pools funds.

**Indicator D:** Region has policies supporting equity and strives to improve job quality

Example Considerations: region has developed policies and business engagement protocols that focus on job quality, productivity and value added, using a well-paid workforce for greater production, value employee retention and training, provides employer paid benefits, supports good scheduling and sick time practices, and focuses on long term prospects of the firm and the planet, employers engage workers and community residents.

<b>Assessment Questions:</b>	
Does the region have a job quality policy and make a distinction between better jobs and worse jobs?	
Are business engagement resources targeted to employers who value job quality?	
Does the region assist business customers with internal/incumbent worker skills and retention?	

Does the region reward employers who are treating their workers with care and provide disincentives for employers with high turnover and pay low wage/no benefits?	
Assessment Levels:	
<b>Learning/ Experimenting</b>	Region is working to understand job quality and high road employment practices and is committed to creating and implementing a job quality policy.
<b>Operationalizing/ Doing</b>	Region has a job quality policy in place which requires business engagement staff to assess employers prior to providing services and targeting services to employers who support job quality in their workforce.
<b>Growing/ Expanding/ Scaling</b>	Region is engaged with employers that focus on internal/incumbent worker skills and retention and focuses services on employers with good scheduling and sick time practices, provides training and career pathways with income mobility.

## Upward Mobility and Equity Indicators

**Indicator E:** Region has shared target populations of emphasis

Example Considerations: WIOA core partners, Local Workforce Development Boards (Local Boards), Community College, Adult Education Block Grant programs and community-based organizations identify specific documented target populations to be served at the regional level in a shared regional plan which includes meaningful action steps to provide services to target populations.

Assessment Questions:	
What are the target populations identified in the regional plan?	
Is there agreement by all regional supply-side partners to target these populations?	
Have regional supply-side partners developed any process to evaluate participation by target populations?	
What are the baseline (current) service levels to target populations?	
Have regional partners established service goals for target populations? If yes, what are they?	
Assessment Levels:	
<b>Learning/ Experimenting</b>	Analysis of population in need is conducted by all partners in separate plans and each partner separately implements programs to meet the needs.
<b>Operationalizing/ Doing</b>	Relevant partners agree on targeted populations, begin using Statistical Adjustment Model to measure performance, and develop specific programs and strategies to meet their employment needs.
<b>Growing/ Expanding/ Scaling</b>	Relevant partners meet regularly to ensure programs and strategies meet the needs of targeted populations, professional development opportunities are available to staff for serving this population, and regional partners communicate successes and challenges of serving individuals from target populations so as to better serve relevant individuals.

**Indicator F:** Region deploys shared/pooled resources to provide services, training, and education, to meet target population needs

Example Considerations: Local Boards, WIOA core partners, Community Colleges, and other relevant regional plan partners pool/share resources, identify areas of strength/ leadership, create regional career pathway programs, identify scale and diversity of dedicated resources and funds pooled to fund relevant activities, implement a shared decision-making process on deployment of pooled resources, and plan alignment of services and programming across funding streams and partner programs.

Assessment Questions:	
Have relevant regional partners entered into a Memorandum of Understanding (MOU) to share customers, services and costs?	
List funding streams that are shared/pooled to provide services, training, and education to meet target population needs.	
If funding is not directly administered by Local Boards, please indicate levels of shared/pooled funding resources administered by regional partners.	
Assessment Levels:	
<b>Learning/ Experimenting</b>	Local Boards in a region have executed an MOU that includes referral agreements, infrastructure cost sharing and commitment to target population of emphasis described in local/regional plans.
<b>Operationalizing/ Doing</b>	Regional Plan partners are in the process of developing a plan to pool/share resources to provide services to meet target population needs, have identified industry sectors to create regional career pathway programs for targeted populations.
<b>Growing/ Expanding/ Scaling</b>	Relevant regional plan partners pool/share resources, identify areas of strength/ leadership, create regional career pathway programs, share decision-making on deployment of pooled resources, and align services and programming across funding streams and partner programs.

**Indicator G:** Region utilizes shared, common case management strategies such as co-enrollment, navigators, and/or multi-disciplinary teams to developed shared responsibility for providing services and ensuring quality outcomes

Example Considerations: WIOA core partners and other State Plan/Regional Plan partners have developed policies and are implementing common case management and capacity building practices, including data sharing, co-enrollment, co-location, common assessment tools (including both job skills/work readiness assessment for job seekers and job quality assessment for employers), navigators, professional development opportunities for staff, and/or multi-disciplinary teams, to provide services to common clients who receive services from multiple programs and funding streams.

<b>Assessment Questions:</b>	
What shared/common case management strategies or goals does the region use to remove barriers to employment and develop shared responsibility of services and outcomes?	
Has the region used evidence based practices and/or customer centered design to develop their strategies? If yes, describe.	
List the partners who share strategy by type of strategy and the number of customers currently participating in shared/common case management strategies.	
Provide examples of services and outcomes that exemplify shared responsibility for removing barriers to employment, providing services and ensuring quality outcomes.	
Has the region provided training to frontline staff on common case management strategies? If yes, list trainings and numbers in attendance/partners participating.	
<b>Assessment Levels:</b>	
<b>Learning/ Experimenting</b>	Regional partners are participating in goal-setting discussion regarding shared/common case management strategies and shared responsibility for services and outcomes?
<b>Operationalizing/ Doing</b>	Relevant partners utilize evidence based practices and customer centered design to develop and implement programs to serve population of emphasis, have provided training to staff and partners.
<b>Growing/ Expanding/ Scaling</b>	Relevant partners utilize shared, common case management strategies such as co-enrollment, navigators, and multi-disciplinary teams to develop shared responsibility for providing services and ensuring quality outcomes. Regions have trained staff and partners in these strategies and are increasing the numbers of partners and customers participating in shared/common case management strategies.

### System Alignment Indicators

**Indicator H:** Region has shared/pooled admin systems and/or processes for achieving administrative efficiencies and program outcomes

Example Considerations: Local Boards, WIOA Core program partners and other State Plan/Regional Plan partners have specific documented goals for achieving administrative efficiencies and reducing duplication, including using dedicated staff and/or pooled/shared resources for regional business engagement, regional training coordination and Training Provider Directories, regional contracting, regional performance negotiations and regional data aggregation measuring progress.

<b>Assessment Questions:</b>	
Does your region have shared/pooled administrative systems or processes? If yes, what are the systems/process?	
Describe the administrative efficiencies that your region has identified that will reduce duplication, streamline processes, save money, and/or improve program outcomes.	

Does your region have MOUs or agreements in place to share resources, streamline administrative processes, and/or improve program outcomes?	
Does your region have a plan to unify the regional partners approach to engaging employers?	
<b>Assessment Levels:</b>	
<b>Learning/ Experimenting</b>	Relevant partners have executed a One-Stop MOU that includes commitment to sharing customers, providing shared services, referral agreements, infrastructure cost sharing for the AJCC system.
<b>Operationalizing/ Doing</b>	Region has shared/pooled admin costs for achieving administrative efficiencies and program outcomes, relevant partners meet on a regular basis to identify additional administrative efficiencies that will improve program outcomes and have a plan to implement one or more regional policies/strategies.
<b>Growing/ Expanding/ Scaling</b>	Region has a formal structure or intermediary in place, common policies, coordinated deployment of resources and shares staffing of services and/or regional systems.

#### **Indicator I:** Regional decision-making in formalized structures

Example Considerations: Local Boards, WIOA Core program partners and other State Plan/Regional Plan partners, with input by industry champions, labor and workforce leaders develop formal decision making structures, including MOUs, partnership agreements, intermediaries to ensure regional cooperation and communication and the development of shared, specific, documented quantifiable goals, regional data aggregation, evaluating progress towards those goals by dedicated staff using pooled/shared resources to evaluate outcomes for the region.

<b>Assessment Questions:</b>	
Is there a formal structured regional leadership council/structure operating in the region? If yes, what is it called, how often does it meet and who participates in it?	
Does the leadership council have dedicated staff? Is it funded using shared/pooled resources?	
Has the leadership council agreed to regional goals, and does it evaluate and report progress towards these goals?	
<b>Assessment Levels:</b>	
<b>Learning/ Experimenting</b>	Informal regional meetings are conducted to share information and identify shared projects and goals.
<b>Operationalizing/ Doing</b>	Relevant regional partners meet regularly, have developed and evaluated shared goals, have written agreements to share decision making and streamline processes, and are working towards more formal arrangements.

<b>Growing/ Expanding/ Scaling</b>	Formal decision making council/structure is operating within the region with participation by industry champions, labor and workforce leaders, written agreements have been developed to ensure regional cooperation and communication and the development of shared, quantifiable goals, regional data aggregation, and evaluating progress towards those goals.
--	---

**Indicator J:** Regional organization and evaluation of performance

Example Considerations: Local Boards, WIOA Core program partners and other State Plan/Regional Plan partners utilize specific documented quantifiable goals, regional data aggregation evaluating progress towards those goals by dedicated staff using pooled/shared resources to evaluating outcomes for the region.

<b>Assessment Questions:</b>	
How will the region qualitatively assess/evaluate progress towards meeting regional industry and occupational demand?	
Have the regional partners determined regional goals for increasing the number of industry-recognized credentials and apprenticeships available in the region? How will, or how might, these outcomes be tracked numerically and categorically?	
Does the region have a numeric goal of placing participants in sector-based occupations? If so, list the sectors and occupations, numeric goal(s), and the number to-date in attaining that goal (baseline).	
Is the region piloting employer engagement performance measures? If yes, what are they?	
Have the Local Boards met to discuss WIOA performance negotiations and how negotiations might align with other regional goals/measures?	
<b>Assessment Levels:</b>	
<b>Learning/ Experimenting</b>	Relevant regional partners meet at least once per year to discuss negotiating regional performance measures with the California Workforce Development Board (State Board), and they use standard performance measures as the basis for evaluating local and regional performance.
<b>Operationalizing/ Doing</b>	Relevant regional partners use the indicators of regional coordination (the nine indicators detailed here) to continuously improve regional plan goals and objectives, develop ways to count, assess and evaluate credential and apprenticeships in the region
<b>Growing/ Expanding/ Scaling</b>	Relevant regional partners work together to evaluate progress on meeting regional industry and occupational demands, share standard performance measures across systems, and develop regional measures to continuously improve regional performance.

## Statewide Performance Report

ADDITIONAL COMMENTS:												

<sup>1</sup>Applies to Title I only.

<sup>2</sup>This indicator also includes those who entered into a training or education program for the Youth program.

<sup>3</sup>Credential Rate and Measurable Skill Gains do not apply to the Wagner-Peyser program.

<sup>4</sup>Barriers to Employment are determined at the point of entry into the program.

**Public Burden Statement (1205-ONEW)**

Persons are not required to respond to this collection of information unless it displays a currently valid OMB control number. Respondent's reply to these reporting requirements is mandatory (Workforce Innovation and Opportunity Act, Section 116). Public reporting burden for this collection of information is estimated to average 30 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate to the Office of Policy Development and Research • U.S. Department of Labor • Room N-5641 • 200 Constitution Ave., NW, • Washington, DC • 20210. Do NOT send the completed application to this address.

#### Public Burden Statement (1205-0NEW)

Persons are not required to respond to this collection of information unless it displays a currently valid OMB control number. Respondent's reply to these reporting requirements is mandatory (Workforce Innovation and Opportunity Act, Section 116). Public reporting burden for this collection of information is estimated to average 30 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate to the Office of Policy Development and Research • U.S. Department of Labor • Room N-5641 • 200 Constitution Ave., NW, • Washington, DC • 20210. Do NOT send the completed application to this address.

#### Public Burden Statement (1205-0NEW)

Persons are not required to respond to this collection of information unless it displays a currently valid OMB control number. Respondent's reply to these reporting requirements is mandatory (Workforce Innovation and Opportunity Act, Section 116). Public reporting burden for this collection of information is estimated to average 30 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate to the Office of Policy Development and Research • U.S. Department of Labor • Room N-5641 • 200 Constitution Ave., NW, • Washington, DC • 20210. Do NOT send the completed application to this address.

#### Public Burden Statement (1205-0NEW)

Persons are not required to respond to this collection of information unless it displays a currently valid OMB control number. Respondent's reply to these reporting requirements is mandatory (Workforce Innovation and Opportunity Act, Section 116). Public reporting burden for this collection of information is estimated to average 30 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate to the Office of Policy Development and Research • U.S. Department of Labor • Room N-5641 • 200 Constitution Ave., NW, • Washington, DC • 20210. Do NOT send the completed application to this address.

#### Public Burden Statement (1205-0NEW)

Persons are not required to respond to this collection of information unless it displays a currently valid OMB control number. Respondent's reply to these reporting requirements is mandatory (Workforce Innovation and Opportunity Act, Section 116). Public reporting burden for this collection of information is estimated to average 30 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate to the Office of Policy Development and Research • U.S. Department of Labor • Room N-5641 • 200 Constitution Ave., NW, • Washington, DC • 20210. Do NOT send the completed application to this address.

#### Public Burden Statement (1205-0NEW)

Persons are not required to respond to this collection of information unless it displays a currently valid OMB control number. Respondent's reply to these reporting requirements is mandatory (Workforce Innovation and Opportunity Act, Section 116). Public reporting burden for this collection of information is estimated to average 30 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate to the Office of Policy Development and Research • U.S. Department of Labor • Room N-5641 • 200 Constitution Ave., NW, • Washington, DC • 20210. Do NOT send the completed application to this address.

#### Public Burden Statement (1205-ONEW)

Persons are not required to respond to this collection of information unless it displays a currently valid OMB control number. Respondent's reply to these reporting requirements is mandatory (Workforce Innovation and Opportunity Act, Section 116). Public reporting burden for this collection of information is estimated to average 30 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate to the Office of Policy Development and Research • U.S. Department of Labor • Room N-5641 • 200 Constitution Ave., NW, • Washington, DC • 20210. Do NOT send the completed application to this address.

#### Public Burden Statement (1205-ONEW)

Persons are not required to respond to this collection of information unless it displays a currently valid OMB control number. Respondent's reply to these reporting requirements is mandatory (Workforce Innovation and Opportunity Act, Section 116). Public reporting burden for this collection of information is estimated to average 30 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate to the Office of Policy Development and Research • U.S. Department of Labor • Room N-5641 • 200 Constitution Ave., NW, • Washington, DC • 20210. Do NOT send the completed application to this address.

#### Public Burden Statement (1205-0NEW)

Persons are not required to respond to this collection of information unless it displays a currently valid OMB control number. Respondent's reply to these reporting requirements is mandatory (Workforce Innovation and Opportunity Act, Section 116). Public reporting burden for this collection of information is estimated to average 30 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate to the Office of Policy Development and Research • U.S. Department of Labor • Room N-5641 • 200 Constitution Ave., NW, • Washington, DC • 20210. Do NOT send the completed application to this address.

#### Public Burden Statement (1205-ONEW)

Persons are not required to respond to this collection of information unless it displays a currently valid OMB control number. Respondent's reply to these reporting requirements is mandatory (Workforce Innovation and Opportunity Act, Section 116). Public reporting burden for this collection of information is estimated to average 30 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate to the Office of Policy Development and Research • U.S. Department of Labor • Room N-5641 • 200 Constitution Ave., NW, • Washington, DC • 20210. Do NOT send the completed application to this address.

#### Public Burden Statement (1205-0NEW)

Persons are not required to respond to this collection of information unless it displays a currently valid OMB control number. Respondent's reply to these reporting requirements is mandatory (Workforce Innovation and Opportunity Act, Section 116). Public reporting burden for this collection of information is estimated to average 30 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate to the Office of Policy Development and Research • U.S. Department of Labor • Room N-5641 • 200 Constitution Ave., NW, • Washington, DC • 20210. Do NOT send the completed application to this address.

#### Public Burden Statement (1205-0NEW)

Persons are not required to respond to this collection of information unless it displays a currently valid OMB control number. Respondent's reply to these reporting requirements is mandatory (Workforce Innovation and Opportunity Act, Section 116). Public reporting burden for this collection of information is estimated to average 30 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate to the Office of Policy Development and Research • U.S. Department of Labor • Room N-5641 • 200 Constitution Ave., NW, • Washington, DC • 20210. Do NOT send the completed application to this address.

#### Public Burden Statement (1205-0NEW)

Persons are not required to respond to this collection of information unless it displays a currently valid OMB control number. Respondent's reply to these reporting requirements is mandatory (Workforce Innovation and Opportunity Act, Section 116). Public reporting burden for this collection of information is estimated to average 30 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate to the Office of Policy Development and Research • U.S. Department of Labor • Room N-5641 • 200 Constitution Ave., NW, • Washington, DC • 20210. Do NOT send the completed application to this address.

#### Public Burden Statement (1205-0NEW)

Persons are not required to respond to this collection of information unless it displays a currently valid OMB control number. Respondent's reply to these reporting requirements is mandatory (Workforce Innovation and Opportunity Act, Section 116). Public reporting burden for this collection of information is estimated to average 30 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate to the Office of Policy Development and Research • U.S. Department of Labor • Room N-5641 • 200 Constitution Ave., NW, • Washington, DC • 20210. Do NOT send the completed application to this address.

#### Public Burden Statement (1205-0NEW)

Persons are not required to respond to this collection of information unless it displays a currently valid OMB control number. Respondent's reply to these reporting requirements is mandatory (Workforce Innovation and Opportunity Act, Section 116). Public reporting burden for this collection of information is estimated to average 30 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate to the Office of Policy Development and Research • U.S. Department of Labor • Room N-5641 • 200 Constitution Ave., NW, • Washington, DC • 20210. Do NOT send the completed application to this address.

#### Public Burden Statement (1205-0NEW)

Persons are not required to respond to this collection of information unless it displays a currently valid OMB control number. Respondent's reply to these reporting requirements is mandatory (Workforce Innovation and Opportunity Act, Section 116). Public reporting burden for this collection of information is estimated to average 30 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate to the Office of Policy Development and Research • U.S. Department of Labor • Room N-5641 • 200 Constitution Ave., NW, • Washington, DC • 20210. Do NOT send the completed application to this address.

#### Public Burden Statement (1205-0NEW)

Persons are not required to respond to this collection of information unless it displays a currently valid OMB control number. Respondent's reply to these reporting requirements is mandatory (Workforce Innovation and Opportunity Act, Section 116). Public reporting burden for this collection of information is estimated to average 30 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate to the Office of Policy Development and Research • U.S. Department of Labor • Room N-5641 • 200 Constitution Ave., NW, • Washington, DC • 20210. Do NOT send the completed application to this address.

#### Public Burden Statement (1205-ONEW)

Persons are not required to respond to this collection of information unless it displays a currently valid OMB control number. Respondent's reply to these reporting requirements is mandatory (Workforce Innovation and Opportunity Act, Section 116). Public reporting burden for this collection of information is estimated to average 30 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate to the Office of Policy Development and Research • U.S. Department of Labor • Room N-5641 • 200 Constitution Ave., NW, • Washington, DC • 20210. Do NOT send the completed application to this address.

#### Public Burden Statement (1205-ONEW)

Persons are not required to respond to this collection of information unless it displays a currently valid OMB control number. Respondent's reply to these reporting requirements is mandatory (Workforce Innovation and Opportunity Act, Section 116). Public reporting burden for this collection of information is estimated to average 30 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate to the Office of Policy Development and Research • U.S. Department of Labor • Room N-5641 • 200 Constitution Ave., NW, • Washington, DC • 20210. Do NOT send the completed application to this address.

#### Public Burden Statement (1205-ONEW)

Persons are not required to respond to this collection of information unless it displays a currently valid OMB control number. Respondent's reply to these reporting requirements is mandatory (Workforce Innovation and Opportunity Act, Section 116). Public reporting burden for this collection of information is estimated to average 30 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate to the Office of Policy Development and Research • U.S. Department of Labor • Room N-5641 • 200 Constitution Ave., NW, • Washington, DC • 20210. Do NOT send the completed application to this address.

#### Public Burden Statement (1205-ONEW)

Persons are not required to respond to this collection of information unless it displays a currently valid OMB control number. Respondent's reply to these reporting requirements is mandatory (Workforce Innovation and Opportunity Act, Section 116). Public reporting burden for this collection of information is estimated to average 30 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate to the Office of Policy Development and Research • U.S. Department of Labor • Room N-5641 • 200 Constitution Ave., NW, • Washington, DC • 20210. Do NOT send the completed application to this address.

#### Public Burden Statement (1205-0NEW)

Persons are not required to respond to this collection of information unless it displays a currently valid OMB control number. Respondent's reply to these reporting requirements is mandatory (Workforce Innovation and Opportunity Act, Section 116). Public reporting burden for this collection of information is estimated to average 30 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate to the Office of Policy Development and Research • U.S. Department of Labor • Room N-5641 • 200 Constitution Ave., NW, • Washington, DC • 20210. Do NOT send the completed application to this address.

<sup>2</sup>This indicator also includes those who entered into a training or education program for the Youth program.

<sup>3</sup>Credential Rate and Measurable Skill Gains do not apply to the Wagner-Peyser program.

<sup>4</sup>Barriers to Employment are determined at the point of entry into the program.

**Public Burden Statement (1205-ONEW)**

Persons are not required to respond to this collection of information unless it displays a currently valid OMB control number. Respondent's reply to these reporting requirements is mandatory (Workforce Innovation and Opportunity Act, Section 116). Public reporting burden for this collection of information is estimated to average 30 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate to the Office of Policy Development and Research • U.S. Department of Labor • Room N-5641 • 200 Constitution Ave., NW, • Washington, DC • 20210. Do NOT send the completed application to this address.

<sup>1</sup>Applies to Title I only.

<sup>2</sup>This indicator also includes those who entered into a training or education program for the Youth program.

<sup>3</sup>Credential Rate and Measurable Skill Gains do not apply to the Wagner-Peyser program.

<sup>4</sup>Barriers to Employment are determined at the point of entry into the program.

**Public Burden Statement (1205-ONEW)**

Persons are not required to respond to this collection of information unless it displays a currently valid OMB control number. Respondent's reply to these reporting requirements is mandatory (Workforce Innovation and Opportunity Act, Section 116). Public reporting burden for this collection of information is estimated to average 30 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate to the Office of Policy Development and Research • U.S. Department of Labor • Room N-5641 • 200 Constitution Ave., NW, • Washington, DC • 20210. Do NOT send the completed application to this address.

<sup>1</sup>Applies to Title I only.

<sup>2</sup>This indicator also includes those who entered into a training or education program for the Youth program.

<sup>3</sup>Credential Rate and Measurable Skill Gains do not apply to the Wagner-Peyser program.

<sup>4</sup>Barriers to Employment are determined at the point of entry into the program.

**Public Burden Statement (1205-ONEW)**

Persons are not required to respond to this collection of information unless it displays a currently valid OMB control number. Respondent's reply to these reporting requirements is mandatory (Workforce Innovation and Opportunity Act, Section 116). Public reporting burden for this collection of information is estimated to average 30 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate to the Office of Policy Development and Research • U.S. Department of Labor • Room N-5641 • 200 Constitution Ave., NW, • Washington, DC • 20210. Do NOT send the completed application to this address.

<sup>2</sup>This indicator also includes those who entered into a training or education program for the Youth program.

<sup>3</sup>Credential Rate and Measurable Skill Gains do not apply to the Wagner-Peyser program.

<sup>4</sup>Barriers to Employment are determined at the point of entry into the program.

**Public Burden Statement (1205-ONEW)**

Persons are not required to respond to this collection of information unless it displays a currently valid OMB control number. Respondent's reply to these reporting requirements is mandatory (Workforce Innovation and Opportunity Act, Section 116). Public reporting burden for this collection of information is estimated to average 30 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate to the Office of Policy Development and Research • U.S. Department of Labor • Room N-5641 • 200 Constitution Ave., NW, • Washington, DC • 20210. Do NOT send the completed application to this address.

<sup>1</sup>Applies to Title I only.

<sup>2</sup>This indicator also includes those who entered into a training or education program for the Youth program.

<sup>3</sup>Credential Rate and Measurable Skill Gains do not apply to the Wagner-Peyser program.

<sup>4</sup>Barriers to Employment are determined at the point of entry into the program.

**Public Burden Statement (1205-ONEW)**

Persons are not required to respond to this collection of information unless it displays a currently valid OMB control number. Respondent's reply to these reporting requirements is mandatory (Workforce Innovation and Opportunity Act, Section 116). Public reporting burden for this collection of information is estimated to average 30 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate to the Office of Policy Development and Research • U.S. Department of Labor • Room N-5641 • 200 Constitution Ave., NW, • Washington, DC • 20210. Do NOT send the completed application to this address.

## California's WIOA Title IB & Wagner-Peyser Negotiated Performance Goals Program Years 2016-17 and 2017-18

PY 2016-17 Performance Goals					
	Adults	Dislocated Workers	Wagner-Peyser *	Youth	
Employment Rate 2nd Quarter After Exit	65.0%	68.0%	53.7%	62.4%	Employment or Placement Rate 2nd Quarter After Exit
Employment Rate 4th Quarter After Exit	62.5%	66.5%	53.7%	64.2%	Employment or Placement Rate 4th Quarter After Exit
Median Earnings 2nd Quarter After Exit	\$4,957	\$7,308	\$4,862	BASELINE	Median Earnings
Credential Attainment within 4 Quarters After Exit	52.9%	60.0%	N / A	54.7%	Credential Attainment within 4 Quarters After Exit

PY 2017-18 Performance Goals					
	Adults	Dislocated Workers	Wagner-Peyser *	Youth	
Employment Rate 2nd Quarter After Exit	68.0%	71.0%	56.7%	65.4%	Employment or Placement Rate 2nd Quarter After Exit
Employment Rate 4th Quarter After Exit	65.5%	69.5%	56.7%	67.2%	Employment or Placement Rate 4th Quarter After Exit
Median Earnings 2nd Quarter After Exit	\$5,157	\$7,523	\$5,162	BASELINE	Median Earnings
Credential Attainment within 4 Quarters After Exit	55.9%	63.0%	N / A	57.7%	Credential Attainment within 4 Quarters After Exit

## WORKFORCE ACCELERATOR FUND 6.0 AWARDS   \*\*\*UPDATE\*\*\*

The California Workforce Investment Board and the Labor and Workforce Development Agency are pleased to announce that the following grants have been awarded from the Workforce Accelerator Fund (Accelerator) 6.0.

### New Project Awardees:

<u>Applicant</u>	<u>Project</u>	<u>Amount</u>
Ascend	<i>Ex-Offender Success Through Innovation in Employers Recruitment</i>	\$150,000
City of Oakland	<i>Earn &amp; Learn East Bay</i>	\$150,000
Hack the Hood	<i>Seeing Yourself Succeed in Tech</i>	\$150,000
Hospitality Training Academy	<i>Hospitality Rapid Reemployment Project</i>	\$150,000
Madera WDB	<i>Accelerating Reintegration and Improving Access for Ex-Offenders</i>	\$150,000
Managed Care Solutions EDC	<i>Project RECHARGE</i>	\$150,000
Opportunity Junction	<i>Using EDD Data to Evaluate Long Term Outcomes</i>	\$47,800

### Innovation Impact Awardees:

<u>Applicant</u>	<u>Project</u>	<u>Amount</u>
Center for Employment Opportunities	<i>Employment &amp; Skills training for Formerly Incarcerated Individuals</i>	\$200,000
CSU Fresno Foundation	<i>Comprehensive Literacy Activities Supporting Success</i>	\$129,428
Oakland PIC	<i>East Bay ACES</i>	\$200,000
SEIU	<i>FCC Apprenticeship – Urban</i>	\$199,983
Tulare WDB	<i>RESET2Y</i>	\$200,000

### Accelerator<sup>2</sup> Project Awardees:

<u>Applicant</u>	<u>Project</u>	<u>Amount</u>
Bay Area Community Resources	<i>Youth Engagement Design Labs</i>	\$250,000
Creative Visions	<i>TransCanWork</i>	\$250,000
Fresno WDB	<i>Virtual Internet Placement and Employment Retention</i>	\$250,000
Institute for Local Government	<i>Pipeline to Public Service 2</i>	\$250,000
LA Chamber	<i>Fostering Careers LA</i>	\$249,880
Mother Lode WDB	<i>Natural Resources Training</i>	\$250,000
NoRTEC WDB	<i>Second Chance</i>	\$250,000
Ventura WDB	<i>STEPS Connections</i>	\$250,000

**New Business as Usual Project Awardees:**

<u>Applicant</u>	<u>Project</u>	<u>Amount</u>
Bay Area Council	<i>Workforce Data Aggregator Heat Map Tool</i>	\$149,843
Center for Employment Opportunities	<i>Engaging WDBs &amp; CBOs in Providing Transitional Jobs</i>	\$150,000
LA Valley College	<i>Strengthening Working Families</i>	\$150,000
Meristem	<i>Increase Employment Opportunities for Individuals with Disabilities</i>	\$150,000
Richmond WDB	<i>Project ACES 2.0</i>	\$150,000

**Innovation Impact Network Awardees:**

<u>Applicant</u>	<u>Project</u>	<u>Amount</u>
East Bay Asian LDC	<i>Sparkpoint Oakland</i>	\$400,000
Foundation for California Community Colleges	<i>Work-based Learning Systems Project</i>	\$400,000

**Technical Assistance Awardee:**

<u>Applicant</u>	<u>Amount</u>
Bay Area Community Resources	\$300,000

Initiative	SFY	# of Awards	Total Funds Available
<b>WORKFORCE ACCELERATOR FUND 6.0</b>	<b>17/18</b>	<b>29</b>	<b>\$ 5,900,000</b>
