

Tim Rainey,
Executive Director

**CALIFORNIA WORKFORCE DEVELOPMENT BOARD
EXECUTIVE COMMITTEE MEETING NOTICE**

Gavin Newsom,
Governor

Angelo Farooq,
Chair

**Wednesday, February 2, 2022
10:00 a.m. to 12:00 p.m.**

Meetings of the California Workforce Development Board (CWDB) are open to the public except when specifically noticed otherwise in accordance with the Bagley-Keene Open Meeting Act. The board may take action regarding any item listed on the agenda, unless listed as information only. Times are approximate and subject to change. Agenda items may be taken out of order to accommodate speakers and to maintain a quorum. This meeting may be cancelled without notice.

A full packet with additional details regarding the scheduled agenda items will be available at least 24 hours prior to the meeting at: <https://cwdb.ca.gov/meetings/>.

Public Viewing and Comments

The meeting will be livestreamed for public viewing on the CWDB YouTube channel at: <https://www.youtube.com/channel/UC8j2IMLyol-6ifdLHGTXLiQ>.

The public is welcome to comment on any agenda item. Therefore, consistent with [Executive Order N-29-20](#), public comments may be made by:

- Sending an email to BoardPublicComment@cwdb.ca.gov. Emailed comments should be submitted by 8:00 a.m. on the meeting date. In the subject line, please identify the agenda item being addressed.
- Posting on YouTube during the meeting. Posted comments should identify the agenda item being addressed and be submitted prior to or during the discussion of the agenda item.
- If unable to submit comments electronically, please mail written comments to the address listed below. All mailed comments should be received by close of business the day before the scheduled meeting.

California Workforce Development Board
800 Capitol Mall, Suite 1022
Sacramento CA 95814

Public comments timely received will be read aloud during the public comment period for the agenda item specified. Failure to submit a timely comment or identify the agenda item being addressed may prevent your comment from being read at the meeting.

Any and all written comments provided to CWDB, including all contents of emails, will be available to the public in compliance with the Bagley-Keene Open Meeting Act, Government Code section 11125.1.

Accommodations

Individuals who require accommodations for their disabilities (including interpreters, sign language translation, alternate document formats, or other auxiliary aids) are requested to contact the California Workforce Development Board staff at (916) 657-1440 at least five business days prior to the meeting in order to ensure the availability of the requested accommodation. Please visit the California Workforce Development Board website at <http://www.cwdb.ca.gov> for additional information.

Contact Person

If you have any questions concerning the agenda, you may contact:

California Workforce Development Board
800 Capitol Mall, Suite 1022
Sacramento CA 95814
T: 916-657-1440
BoardPublicComment@cwdb.ca.gov

**CALIFORNIA WORKFORCE DEVELOPMENT BOARD
EXECUTIVE COMMITTEE MEETING AGENDA**

**Wednesday, February 2, 2022
10:00 a.m. to 12:00 p.m.**

1. Welcome and Opening Remarks

2. Action Items

- a. Approve November 3, 2021 meeting summary
- b. Recommend to the CWDB Board that the LA County/Foothill Local Area Modification be approved.

PUBLIC COMMENT

3. Updates and Discussion

- a. Labor Agency Update
- b. CWDB Staffing Update
- c. Youth Policy Update

PUBLIC COMMENT

4. Initiative Updates

- a. High Road Field Team – overview of work
- b. Program Implementation Team
- c. Policy, Legislation & Research Team

PUBLIC COMMENT

5. Other Business

6. General Public Comments

Adjourn

Item 2a**Actions:**

Approve the Executive Committee meeting summary from November 3, 2021.

**CALIFORNIA WORKFORCE DEVELOPMENT BOARD
EXECUTIVE COMMITTEE MEETING SUMMARY**

**Wednesday, November 3, 2021
10:00 a.m. to 12:00 p.m.**

Members Present

Angelo Farooq, Chair	Sec. Natalie Palugyai (Stewart Knox)
John Brauer	Robert Redlo
Jamil Dada	Rita Saenz (Javier Romero)
Diane Factor	Bruce Stenslie
Eloy Ortiz Oakley (Shenuuei Weber)	Carol Zabin

1. Welcome and Opening Remarks

Chairman Angelo Farooq opened the meeting at 10:03 a.m. and requested Tim Rainey take attendance. A quorum was established.

Chairman Farooq gave instructions on how the Zoom meeting works and how to provide public comment. Public comment was opened and accepted via email at BoardPublicComment@cwddb.ca.gov. He advised the Executive Team that anything typed in the chat would be included in the meeting summary as a public record.

Public Comments: There was no public comment.

2. Action Items

Approve August 11, 2021 meeting summary.
Bob Redlo motioned to approve, Bruce Stenslie seconded.
All in favor. The meeting summary was approved unanimously.

3. Updates and Discussion**a. Labor and Workforce Development Agency (LWDA) Update**

Abby Snay reported that the new Secretary Natalie Palugyai started in October. LWDA priorities include creating an evaluation and research/evidence unit (Chief Evaluation Officer) to enhance the Agency's capacity to have a deeper understanding of impacts and build evidence-

based decision making. The other priority is getting a much deeper understanding of current labor market dynamics – understand the great resignation, high unemployment, and worker shortages. Ms. Snay also shared that under the Community Economic Resilience Fund (CERF), \$600 million from the federally-funded ARPA program will be available to facilitate the development of regional economic development plans to address COVID recovery and the transition to a carbon-neutral economy in 13 proposed regions. The first round of funding will go out at the first of the year and be for the designated regions to develop economic development plans. The remainder of the fund will support specific projects. Some of those will likely include workforce projects. There is an intent and expectation that these projects will be generators and creators of jobs then work in partnership and leverage funding to train workers for those jobs.

Carol Zabin asked about the CERF funding – are there criteria yet? How much is long-term job creation? How much might be infrastructure? How much might be safety net for regions, particularly the oil transition regions?

Abby Snay replied, “not yet,” but the leadership team is working on a set of high-level funding guidelines. They should be going out for public comment in November.

b. CWDB Staffing Update

Curtis Notsinneh reported that the CWDB is expanding to keep pace with the resources provided in the 2021-22 state budget. They are currently working on adding 20 new positions, which are spread out across all four branches. Mr. Notsinneh noted that they would continue to work with management and the agency to identify gaps, add additional staff and develop plans and budgets.

Carol Zabin asked what is happening with the inter-agency team around labor standards, particularly around the climate investments. Shrayas Jaktar has been working on this, and it is understaffed.

Curtis Notsinneh responded that they had hired a new manager over our Statewide Partnerships team, and there is one additional position still to hire. Pradeep Kotamraju added that we are collaborating with Aida’s field team to help create alignment with the Statewide Partnerships.

c. Youth Policy Update

Marissa Clark provided the update. The staff is deep in the data-gathering phase. They are now working on three main areas: a survey to Local Boards, an analysis of WIOA local plans, and an analysis of WIOA regional plans. About half of the Local Boards participated in the survey (23 of 45). There was a good representation of the state of those who responded – urban, rural, inland, coastal, northern, and southern. Boards were evenly split as to whether they had a standing youth committee – 48% did, 52% did not. They use a variety of approaches to coordinate youth services and recruit new participants. Most Boards stated they incorporate youth work experience and career pathways as a part of their broader adult work experience. The Boards were evenly split as to whether they provided services in-house (26%), contracted them out to other providers (39%), or used a mixture of both (35%). Boards shared that the greatest challenge to meeting the 75% out-of-school-youth requirement is recruiting new participants and the burden of completing required paperwork and documentation.

After staff completes their reviews of the local and regional plans, the next step will be to look at all the state-level work focused on youth within the Labor Agency.

PUBLIC COMMENT

None.

Bob Redlo asked if we were going to have a report on equity at the full board meeting? Tim Rainey responded that the California Policy Lab report is almost done, and they hope to have it done by the full board meeting in December. There is a lot of data, so it may be more productive to have a separate meeting to discuss, sift through the data and ask questions. Mr. Redlo agreed that was a good idea but would like to summarize that discussion to provide it to the full board for transparency. Pradeep Kotamraju added that they are currently in talks with UCLA regarding data and equity. Carol Zabin encouraged the Board to reach out to the Berkeley research team, given all their work. Chairman Farooq suggested that the Board determine the interest of members in making this an ongoing working group.

4. Initiative Updates

a. High Road Field Team

Aida Cardenas provided the update on the High Road Field Team. The field team continues to staff up – they have one specialist in the hybrid construction careers and three field specialists in the High Road Training

Partnerships. Currently, the field team is focusing on putting out the \$10.5 million in WIOA discretionary funds for HRTP's. Many will be using these funds to continue existing projects. They are also collaborating with the Program branch to award \$100 million to HRTPs from the general fund for between 40 – 60 different potential projects from all types of industries. With new staff, they are looking to leverage opportunities with the other branches – Program and Policy – to work efficiently as a team.

This week, two field team members are attending the California Transit Association Conference, including many of our partners in electric bus manufacturing and transportation industry conferences. On November 12, the Hospitality Training Academy, the LAOC Building Trades Council, and the United Food and Commercial Workers Union are holding an event to announce a \$3 million grant that they received from Dept. of Labor which is focused on dislocated workers. It's a great example of our partnerships working together at a regional level to target displaced workers. The field team is continuing a weekly/monthly peer-to-peer workgroup to support current projects. It's a space for them to ask questions and learn from one another. In addition, they host a quarterly Community of Practice learning session in collaboration with UC Berkeley Labor Center. The last webinar provided information on apprenticeships – how to go about it, their value, and what resources are available. The next event coming up is Apprenticeship Week, November 17. Tim Rainey and Aida will be joining several High Road Construction Careers partners in Fresno to highlight the partnership and a recent project labor agreement.

[question – unidentified woman] Are the events listed for the public somewhere?

Aida replied that we could post them in our events section on the website.

b. Program Implementation Team

Cindy Harrington provided the update on behalf of Joelle Hurst.

The Workforce Accelerator Fund 10 RFA will be released on November 12th. Applications are due through the Salesforce platform on December 20th.

The other grant program they are working on is the Regional Equity and Recovery Partnership RFA, which is estimated to be released in the spring of 2022.

c. Policy, Legislation & Research Team

Marissa Clark provided updates on P2E and CAAL-Skills. The interim report for Prison to Employment and Breaking Barriers to Employment programs is posted on our website and will be submitted to the legislature soon. Those will be followed closely by the CAAL-Skills Metrics report and the complimentary impact report that the California Policy Lab completed.

Those are in the last stages of being finalized and routed for approval before submitting to the legislature.

The CAAL-Skills team has completed the re-engineering of the draft database architecture and is working on re-engineering the reporting database for the web portal development. They are also developing an analytical platform for CAAL-Skills data using Tableau to facilitate the research staff access CAAL-Skills data and allow them to do a deeper dive. In addition, the team is working on establishing new data contracts.

The Statewide Partnerships Team has been getting more involved in economic development projects where the focus is standing up new industries in California and creating more good jobs in construction, manufacturing, operations. Also, maintenance work in environmental terms such as producing lithium for batteries, generating emission-free electricity from offshore wind power, and manufacturing zero-emission vehicles.

As part of the Corrections Workforce Partnership, staff recently participated in an event at the Solano State Prison where they were a part of a team that assisted nearly 40 individuals in completing online tests and applications for state positions. That will be followed up with another event later this month where those same individuals will interview with CalTrans, who is looking to fill 20 positions.

The State Plan modification is well underway. The Department of Labor requires that we submit a mid-plan update to our strategic state plan. Since this is just an update, the vision, goals, and framework will stay the same, but we have to update a lot of the programmatic and policy work that has taken place over the last two years. They are also using this to reconvene and reconnect with WIOA partners who were running in different directions during the pandemic. A draft modification plan has to be completed by the end of this year to be posted for a 30-day public comment period.

The legislation session concluded last month. Of the bills we tracked and analyzed, five Assembly Bills and three Senate Bills were ultimately signed into law. They covered various topics, including grant programs, state task forces, data sharing, and attaching workforce standards to public funds.

Carol Zabin asked if anyone knew the status of the Just Transition Roadmap report?

Abby Snay confirmed that it is at the Governor's Office.

PUBLIC COMMENT

Item 2b

Actions:

Vote to recommend to the CWDB Board that the LA County/Foothill Local Area Modification be approved.

Background

The Workforce Innovation and Opportunity Act requires the Governor to designate Local Workforce Development Areas (Local Areas), and this authority also extends to the modification of previously designated Local Areas. The California Workforce Development Board, with the assistance of the Employment Development Department, must vote to formally approve or deny a modification request submitted by a Local Area.

In October 2021, the Los Angeles County Local Workforce Development Board submitted an official Local Area modification request to transfer the City of Monrovia from the Foothill Local Area to the Los Angeles County Local Area.

Recommendations from the CWDB will be forwarded to the Secretary of the Labor and Workforce Development Agency, to act on behalf of the Governor on the subsequent modification of the designated Local Area.

Supporting documentation attached on the following pages.

Chair, Los Angeles County Board of Supervisors

Ms. Holly Schroeder
Chair, Los Angeles County Workforce Development Board

Dr. Angelov Farooq
Chair, California Workforce Development Board

RE: Support for Local Area Modification (LAM) Application for the City of Monrovia, California

Dear Chair Solis, Chair Schroeder and Chair Farooq,

On behalf of the City of Duarte, please allow this letter to serve as support for the City of Monrovia's Local Area Modification Application ("Application") to withdraw from the Foothill Workforce Development Board (FWDB) Local Area and join the Los Angeles County Workforce Development Board (WDB) Local Area.

Please do not hesitate to contact me if you wish to discuss our support further. Thank you for your consideration.

Sincerely,

Margaret Finlay
Mayor Pro-tem
City of Duarte

cc: City Council, City of Monrovia

Board opposes the Local Area modification, three cities within the Foothill consortium have publically supported the modification request.

WIOA REQUIREMENTS

- The WIOA Section 106(b) requires the Governor to designate Local Areas. This authority extends to Local Area modification, which Local Areas may request between durations of subsequent designation.
- The Governor of the State must consider the following information when designating Local Areas:
 - Consultation with Chief Elected Officials and Local Boards
 - Consultation with the California Workforce Development Board
 - Consideration of comments received through the public comment process
 - Consideration consisting of the extent to which the areas:
 - Are consistent with the labor market area in the State.
 - Are consistent with regional economic development areas in the State.
 - Have available the federal and non-federal resources necessary to effectively administer workforce investment activities under the WIOA.
- In the instance where one or more of the parties are not in agreement regarding the Local Area modification, each step and consideration in the Local Area modification application process will require documentation and public comment. For instance, in performing its objective assessment of the application, the EDD must consider dissenting opinions and opposing information, whether the applicant is able to provide them or not (Reference: Workforce Services Directive WSD20-04).

PROGRAM BACKGROUND

Distance to Foothill and Los Angeles County America's Job Center of CaliforniaSM

The Foothill Local Area is composed of six cities: Arcadia, Duarte, Monrovia, Pasadena, Sierra Madre, and South Pasadena. The Foothill Board provides WIOA services to customers in these six cities at its one America's Job Center of CaliforniaSM (AJCC) located in the City of Pasadena. Residents from Monrovia must travel approximately eight miles to the Pasadena comprehensive AJCC for in person services. In contrast, the Los Angeles County Local Area is composed of 57 cities. Residents from Monrovia must travel approximately 10 miles to the West Covina affiliate AJCC for in-person services from the Los Angeles County Local Area. The closest Los Angeles County comprehensive AJCC for customers from Monrovia is the Pomona AJCC located approximately 20 miles away.

Virtual Services

The COVID-19 pandemic has impacted the delivery of WIOA services to customers. Foothill and Los Angeles County have offered virtual WIOA services to customers where a customer may set up virtual calls with case managers. In addition, customers may call an AJCC and arrange in-person appointments. Any WIOA customers may receive WIOA career basic services from any AJCC regardless if the customer lives in a city located within a Local Area. However, a Local Area may limit funding for training service to residents who live within their Local Area. If the Local Area modification is approved the Foothill Board may choose to refer customers from Monrovia seeking WIOA training services to the Los Angeles County Local Area.

Establishing an AJCC in Monrovia

The Monrovia Community Adult School (MCAS) provides adult education and literacy services to residents in the San Gabriel Valley. Although the MCAS is incorporated in the Foothill Local Plan the MCAS is not an affiliate AJCC. If the Local Area modification request is approved, LA County has discussed placing one WIOA Title I staff at the MCAS location. This step would benefit those residents of Monrovia who desire or need in-person WIOA services.

FISCAL IMPACT

The EDD’s Labor Market Information Division calculates WIOA Adult, Dislocated Worker, and Youth funding to each Local Area based on the number of individuals filing for Unemployment Insurance and the number of individuals receiving public assistance within a Local Area. The Foothill Local Area is composed of six cities: Arcadia, Duarte, Monrovia, Pasadena, Sierra Madre, and South Pasadena. In Program Year 2020-21, the Foothill Local Board received \$1,525,624 in WIOA Adult, Dislocated Worker, and Youth funding to serve WIOA customers.

The following table illustrates WIOA funding awarded to Foothill based on the City of Monrovia being a part of six cities that make up the Foothill Local Area:

	PY 2018 - 2019			PY 2019 - 2020			PY 2020 - 2021		
Foothill Consortium	Youth	Adult	DW	Youth	Adult	DW	Youth	Adult	DW
Arcadia	\$26,525	\$59,495	\$70,124	\$35,795	\$77,409	\$68,799	\$22,716	\$51,211	\$69,294
Duarte	\$42,600	\$32,360	\$41,044	\$57,488	\$42,102	\$38,524	\$36,483	\$27,854	\$37,897
Monrovia	\$37,376	\$42,418	\$70,784	\$50,438	\$55,190	\$70,508	\$32,008	\$36,512	\$68,374
Pasadena	\$407,749	\$384,026	\$265,800	\$302,627	\$270,269	\$259,749	\$396,693	\$376,430	\$261,239
Sierra Madre	\$804	\$7,174	\$18,526	\$1,085	\$9,334	\$18,156	\$688	\$6,175	\$18,699
South Pasadena	\$14,870	\$23,782	\$48,578	\$20,067	\$30,943	\$46,107	\$12,735	\$20,470	\$47,371

*Data provided by LMID

If the Local Area modification is approved, the Foothill Local Board’s funding for WIOA Adult, Dislocated Worker and Youth would be reduced by approximately \$136,894 based on PY 2020-21 calculations. Note the reduced amount is only an approximation as the number of individuals filing for Unemployment Insurance and the number of individuals receiving public assistance within a Local Area change the WIOA funding each Local Area receives from year to year.

Information from the WSB’s Program Reporting and Analysis Unit (PRAU) showed that while Foothill Local Area serves more residents from the City of Monrovia than the County of Los Angeles Local Area, the Los Angeles County Local Area spent more funds on training residents from the City of Monrovia.

The following table shows the total number of Monrovia residents served by each Local Area through WIOA funding:

Program Year	Foothill		Los Angeles County	
	Monrovians Served	Monrovians Trained	Monrovians Served	Monrovians Trained
2017	31	23	21	11
2018	15	7	29	17
2019	32	4	35	15
2020	65	4	38	16
Total	143	38	123	59

*Data provided by PRAU; Training numbers are based on the number of participants with Individual Training Accounts.

Foothill currently receives the least amount of WIOA Title I funds within the Los Angeles Regional Planning Unit. Although the Local Area modification would reduce Foothill’s WIOA funds, it would continue to receive approximately the same amount of WIOA Title I Adult, Dislocated Worker, and Youth funding as the County of San Luis Obispo, which has roughly the same population size.

The following two tables show Foothill’s funding in comparison to Local Areas within the Los Angeles Regional Planning Unit and within the State of California:

Local Area PY 2020 -2021 Funding	Youth	Adult	DW	Total
Foothill	\$501,323.00	\$518,652.00	\$505,649.00	\$1,525,624.00
Los Angeles County	\$11,879,473.00	\$11,327,162.00	\$7,075,599.00	\$30,282,234.00
Los Angeles City	\$13,515,456.00	\$13,184,898.00	\$8,201,204.00	\$34,901,558.00
Pacific Gateway	\$1,877,699.00	\$1,730,537.00	\$977,674.00	\$4,585,910.00
SELACO	\$1,087,167.00	\$1,017,968.00	\$933,049.00	\$3,038,184.00
South Bay	\$1,427,301.00	\$1,464,782.00	\$1,343,760.00	\$4,235,843.00

Verdugo	\$783,399.00	\$842,535.00	\$688,429.00	\$2,314,363.00
---------	--------------	--------------	--------------	----------------

*Data from the WSB Financial Management Unit

Local Areas with Lowest WIOA Funding	Total PY 2020-21 WIOA Adult, DW, Youth Funding	Estimated Population
Foothill (after modification estimate)	\$1,385,955	294,378
San Luis Obispo County	\$1,322,734	282,625
Mother Lode	\$1,075,861	154,443
Richmond City	\$832,450	111,323
Humboldt County	\$818,531	135,558
San Benito County	\$669,644	62,808

*Data from the WSB Financial Management Unit and the United States Census Bureau

ECONOMIC IMPACT

The WSB has determined no economic impact on the City of Monrovia. The City of Monrovia Industry sectors include high-technology and bio-technology firms such as City of Hope’s Beckman Research Institute, ChromoLogic, Xencor, AreoVironment, and Oak Crest Institute of Sciences. These industry sectors align with the industry sectors located throughout the Los Angeles County Local Area.

PROS

- The Los Angeles County Local Area is currently providing more WIOA training services to residents from Monrovia than the Foothill Local Area. Adding the City of Monrovia to the Los Angeles County Local Area would better align WIOA service and funding.
- Los Angeles County and Monrovia have discussed locating WIOA Title I staff at the Monrovia Community Adult School. This change would relieve the transportation burden to residents of Monrovia who need in-person WIOA services.
- The WIOA Section 106(b) requires the Governor to consult with Chief Elected Officials when establishing Local Areas. Although the Foothill Local Board opposes the modification, the majority of cities within the Foothill consortium have publically endorsed the modification.

CONS

- Foothill currently receives the least amount of WIOA Title I funding of the Local Areas within the Los County Regional Planning Unit. The proposed Local Area Modification would further reduce WIOA Title I funding. However, based on an analysis of WIOA

Title I funding across the State of California, other Local Areas with similar population sizes and funding have effectively administered WIOA workforce activities.

PROPONENTS

The following organizations have publicly stated their support of the Local Area Modification request:

- Arcadia, Duarte, and Monrovia Town Council
- Athens Services
- Beacon Media
- City of Duarte
- City of Monrovia
- City of South Pasadena
- DoubleTree by Hilton Monrovia
- Foothills Kitchen
- Monrovia Chamber of Commerce
- Monrovia Teacher's Association
- Monrovia Unified School District

OPPONENTS

The following organization has publically opposed the Local Area Modification request:

- Foothill Workforce Development Board

The Honorable Board of Supervisors
County of Los Angeles
383 Kenneth Hahn Hall of Administration
500 West Temple Street
Los Angeles, CA 90012

Dear Supervisors:

APPROVE THE EXPANSION OF THE LOS ANGELES COUNTY LOCAL WORKFORCE DEVELOPMENT AREA (LWDA) TO ADD THE CITY OF MONROVIA

(ALL SUPERVISORIAL DISTRICTS) (3 VOTES)

SUBJECT

The Department of Workforce Development, Aging and Community Services (WDACS) seeks your Board’s approval of the Los Angeles County (County) Workforce Development Board’s (WDB) Local Area Modification (LAM) application to add the City of Monrovia to the County’s local workforce development area (LWDA). The City of Monrovia has requested to join the County’s service delivery area. Once approved by your Board, the LAM will go to the California Employment Development Department (EDD) and California Workforce Development Board (CWDB) for review, and if approved, Monrovia would become part of the County’s service delivery area effective July 2022.

IT IS RECOMMENDED THAT THE BOARD:

1. Support and approve submission of the LAM application, which adds the City of Monrovia to the County’s LWDA, to the State and provide your Board Chair’s signature indicating your Board’s approval of the LAM application submission.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

Unincorporated Monrovia is currently served by WDACS. The City of Monrovia is currently served by Foothill Workforce Development Board (Foothill), which also services the cities of Arcadia, Duarte, Pasadena, Sierra Madre, and South Pasadena. At the request of the City of Monrovia, the WDB is submitting a LAM application to add Monrovia to the County's service delivery area. The WDB was informed of the LAM application at its April 9, 2021 Quarterly meeting. On August 20, 2021, the WDB voted to support and approve submission of the LAM application and is following the required process to submit the LAM application to the EDD and CWDB for final determination, with your Board's approval to proceed.

The LAM application was developed by the City of Monrovia with input from its local partners and key stakeholders representing education, labor, workforce, economic development, faith-based and community-based organizations, as well as customers, including job seekers, youth, and businesses. The LAM application was posted for public comment from April 23, 2021 to May 28, 2021. Most of the public commentary is favorable and in support of the geographical change, including the City of Monrovia. Foothill is opposed to the move.

If the LAM application is approved by the EDD and CWDB, the County would begin providing workforce services to Monrovia residents and businesses beginning July 2022. The Pomona Valley AJCC would serve the City of Monrovia. WDACS would receive an increase in its WIOA formula funds to cover the costs associated with these additional services.

IMPLEMENTATION OF STRATEGIC PLAN GOALS

The recommended action supports County Strategic Plan Goal II: Foster Vibrant and Resilient Communities, especially Strategy II.1: Drive Economic and Workforce Development in the County.

FISCAL IMPACT

The recommended actions carry no Net County Cost impact; however, there would be an increase in the federal WIOA grant to support Youth, Adults and Dislocated Workers in the City of Monrovia. This amount was about \$137,000 during Fiscal Year 2020-21. If the LAM is granted by the EDD and CWDB, the change would be effective July 1, 2022, and these funds would then be a part of the WDACS Annual Budget.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

On December 24, 2020, the EDD issued Workforce Services Directive 20-04: Local Area Modification Process, which outlines the requirements for modifying the boundaries of a LWDA. Under this Directive, LAM Applications must include 30 days of public comment and be signed by the local WDB Chair and local Chief Elected Official, in this case your Board.

On August 4, 2020, the Monrovia City Council voted to initiate a LAM application to join the County's LWDA. Public comment received during the period of April 23, 2021 to May 28, 2021 was certified by the City Clerk of Monrovia and is included in the LAM application. On August 20, 2021, the WDB voted to support and approve submission of the LAM application. If your Board approves the LAM application, it will be forwarded to EDD and CWDB for final review and approval. The ultimate decision-making authority to approve or disapprove lies with the State.

IMPACT ON CURRENT SERVICES (OR PROJECTS)

Residents and businesses in Monrovia currently receive workforce development services from Foothill. Should your Board and the State approve the LAM application, these services would be provided by WDACS beginning July 2022. Foothill will continue to receive other funds (e.g., Youth@Work, Measure H) from WDACS to provide residents of their remaining cities (Arcadia, Duarte, Pasadena, Sierra Madre, and South Pasadena) with workforce services.

CONCLUSION

Should you have questions, you may contact me directly, or your staff may contact Kevin Anderson, Special Assistant, at (213) 738-2593 or kanderson@wdacs.lacounty.gov.

Respectfully submitted,

OTTO SOLÓRZANO
Acting Director

Local Area Modification Narrative and Documentation Requirements

1. Point of Contact

MARTHA MOLINA-AVILES
 EXECUTIVE DIRECTOR
 LOS ANGELES COUNTY WORKFORCE DEVELOPMENT BOARD (WDB)
 3175 WEST 6TH STREET
 LA, CA 90020
mmolina-aviles@wdacs.lacounty.gov

2. Affected Local Areas and Local Boards

The proposed boundary changes, as a result of the approved modification application, would impact the Local Workforce Development Areas (LWDAs) operated by the Foothill Workforce Development Board (FWDB) and the Los Angeles County Workforce Development Board (WDB). The City of Monrovia (Monrovia) proposes to leave the FWDB and join the WDB service area.

3. Geographic Boundaries

The geographic modification request is to transition the municipality of Monrovia from the FWDB’s service area to the LWDA of the County of Los Angeles (County). This move would create a contiguous region that includes the unincorporated areas of the South Monrovia Islands and Mayflower Village. The unincorporated areas surrounding Monrovia representing 12,292 people are currently part of the County LWDA. The proposed change would reduce the responsibility from the FWDB by 36,715 potential customers (the population of Monrovia) and would increase the population to be served in the WDB by the same amount. This change would consolidate the Monrovia region and the WDB would be responsible for a population over 49,000 residents. Table 1 below demonstrates the demographic and ethnic breakdown of Monrovia’s residents.

Table 1 – Demographic Composition of the Monrovia Region

City	Ethnicity		Race						
	Hispanic	Non-Hispanic	Asian	White*	Black or African American	Haw. or Pac. Isl.	Am. Ind. Alaska	Two or More	Some Other Race
Monrovia	14,043	22,547	4,107	21,932*	2,500	76	279	1,878	5,818**
Mayflower Village	1,905	3,610	1,734	2,931*	83	26	4	246	491**
South Monrovia Isl.	5,013	1,764	418	3,433*	570	9	49	295	2,003**
TOTAL	20,961	27,921	6,259	28,296	3,153	111	332	2,419	8,312

Based on 2010 U.S. Census data

*Since Hispanic is an ethnicity according to the US Census, the White population should be noted in the context of the Hispanic population.

** The large percentage of individuals identifying as “Some Other Race” speaks to the issue around ethnicity and race for many individuals.

Table 2 (pg. 3) summarizes the Monrovia population and the number of individuals with barriers. The data indicates that close to 73% of its population has a barrier to employment as recognized by WIOA. By approving this Local Area boundary change, Monrovia residents will be positively impacted and significantly so. The expectations of the Monrovia City Council in becoming part of a new LWDA are very high: transparency, operational efficiency, and client efficacy must and will dramatically be

Table 2 – Total Population and No. of Residents with Barriers to Employment in Monrovia

City	Total 2018 Population	5 Years & Older Speaks English < "Very Well"	Residents over 25 No HSD or HSE	Residents over 25 < 9 th Grade Education	Veterans	Number Below Poverty Level
Monrovia	36,715	5,197	2,999	1,771	687	3,088
Mayflower Village	5,515	4,801	2,582	1,393	1,218	2,637
South Monrovia Isl.	6,777	5,197	2,999	1,771	687	3,088
TOTAL	49,007	15,915	8,580	4,935	2,592	8,813

Based on 2018 U.S. Census American Community Survey Estimates

improved. Residents in the unincorporated areas of Monrovia currently benefit from WDB services. Having Monrovia aligned with the unincorporated areas would immensely improve access to services for eligible Monrovians under the formation of the new Local Area.

4. Local Area Modification Considerations

The Monrovia City Council maintains the proposed boundary change will provide significant improvement of delivery of WIOA services to its residents. Under each heading below are compelling reasons that address application requirements *a* through *i* and support the Council’s position.

4a. Available Resources and Administration of Workforce Innovation and Opportunity Act (WIOA)

Both the FWDB and WDB have significant available WIOA services. The FWDB oversees a local workforce area comprised of six (6) cities with an aggregate population of nearly 300,000 residents: Arcadia, Duarte, Monrovia, Pasadena, Sierra Madre, and South Pasadena. The FWDB provides services through one (1) center, the Foothill Employment and Training Connection (FETC). The WDB is administered by the County of Los Angeles Workforce Development, Aging and Community Services (WDACS). The WDB through WDACS oversees a network of 21 America’s Job Centers of California (AJCCs) who deliver quality services to about 4 million residents in 57 cities and close to 125 unincorporated areas including unincorporated Monrovia. The WDB talent delivery system consists of 7 Comprehensive AJCCs that include collocation of the State of California Employment Development Department (EDD) for Title III services, for Title II, and additional collocated partners at some AJCCS such as New Opportunities and Five Keys. Also, the Department of Rehabilitation (DOR) for Title IV and 14 additional AJCCs that include a Veteran AJCC, four (4) AJCCs collocated on adult school campuses and two (2) AJCCs collocated on site of community colleges. WDB customers have access to the full complement of WIOA programs and services and additional wraparound partner services at all locations. Further, to realize the spirit of WIOA, and provide for the greater good, the County leverages its available resources and partnership with other County departments and allocates the FWDB with other dollars to braid and augment WIOA (e.g., Youth at Work). These additional funds make available services to youth and adults of priority populations that reside in the FWDB local area including former and current foster youth, justice involved, low income, those on public assistance (Temporary Aide to Needy Families), LGBTQ+, immigrants and people experiencing homelessness. Advancing equity and economic mobility to these vulnerable populations is a top priority of the County and the WDB.

4a. Training and Services Available in the Local Area – The FWDB and WDB have equal access to the same training providers through the State approved Eligible Training Provider List (ETPL). The Monrovia Community Adult School (MCAS) is a well-known and reputable, longstanding educational partner of the FWDB and WDB in providing quality training to San Gabriel Valley and County residents. The MCAS is the locus of a vibrant Career Center that was promoted by the FWDB as an Affiliate One-Stop AJCC in its 2017-20 Local Area Plan, although MCAS never received WIOA funds as such. MCAS offers WIOA-approved training programs in sectors that are key to rebuilding the local economy including Pharmacy Technician, Medical Assistant, Pre-certification Certified Nursing Assistant, Construction, Automotive Technician, Television Production, Security Officer, and Security Officer - Armed. MCAS provides educational services to over 1,000 students annually who need English as a Second Language, Adult Basic Education, and Adult Secondary Education programs. Many of the WDB’s customers have utilized MCAS to help carry out some of these trainings as they lead to middle skilled jobs in accessible career pathways and family sustaining wages with benefits. In addition, MCAS offers quality career development and job search services to augment the WDB Business Services structure. This valuable service has been severely underutilized by the FWDB.

The MCAS is a strong supporter of the L.A. County Task Force to develop and implement elements of the WDB’s WIOA Partnership Memorandum of Understanding (MOU) for 2020-23 and is also a valued thought partner informing development of the WDB’s Local Area Plan by participating in multiple public forums for the 2020-2024 plan. Should Monrovia move to the WDB, the partnership would continue, and local residents served by FETC in surrounding areas and beyond would continue to access education and training as stipulated by the “customer choice” premise upheld in WIOA. The same would apply to other education and career development partnerships and training programs in neighboring schools including Twilight Adult Education (Pasadena), El Monte-Rosemead Adult School, Azusa Adult Education Center, and Baldwin Park Adult and Community Education

The City of Monrovia is also very devoted to advancing its community members and its youth. To that end, Monrovia established the Youth Employment Services (YES) Internship Program to provide young people with 9 weeks of career development through work experience, mentorship by a dedicated City employee and weekly professional development workshops. The YES program is supported by the Monrovia Chamber of Commerce who identifies interested members to share the opportunity with and expand the horizon for youth. For many years, interns have been placed with the Oak Crest Institute of Science, Centre Stage Inc., Boys and Girls Club of the Foothills and the Monrovia Chamber of Commerce to obtain valuable, real life work experience with local businesses and organizations and support the community. Introducing young people to STEAM and leadership opportunities through work experience is a needed rite of passage into adulthood.

4a. Leverage and Wraparound Services Available in the Local Area – Monrovia is home to a significant number of WIOA-eligible residents such as foster youth. A number of community-based organizations in the Local Area can provide significant wrap-around support services to ensure WIOA clients successfully transition to employment. Numerous agencies provide mental health support to Monrovia adults, youth, and foster youth. Pacific Clinics, Foothill Family, and D’Veal Family and Youth Services have current Memoranda of Understanding with the Monrovia Unified School District (MUSD) to leverage resources and better serve Monrovia students and foster youth. Pacific Clinic offers outpatient mental health services to youth. Foothill Family provides comprehensive mental health care, early childhood development programs, and social services. D’Veal provides

youth and foster youth therapeutic behavior services. Five Acres serves regional children as a foster care and adoption agency and delivers comprehensive mental health and therapeutic behavior services. Human Services Association (HSA) is an 80-year-old nonprofit which offers families comprehensive care to promote wellness and build strong communities. HSA partners with CalWorks and CalOES to serve victims of domestic violence, assist with Head Start enrollment, and deliver a variety of programs to seniors. The Monrovia City Council maintains that these critical partners have been underutilized while Monrovia has been part of the FWDB Local Area and more importantly, the vulnerable populations in need have been underserved. Additional partners include the Immigration Resource Center of San Gabriel Valley is another significant partner located in Monrovia that has helped scores of regional immigrants and MUSD English Language Learner (ELL) students by providing them citizenship and other legal services. Monrovia Kiwanis and Rotary are very active in providing scholarships for adult students so they can complete Career Technical Education training programs and in creating service projects and programs to leverage resources and opportunities in other ways. The Boys and Girls Club of the Foothills, the Santa Anita Family YMCA, and the Volunteer Center of the San Gabriel Valley all provide numerous programs to support and recruit potential youth and adult WIOA clients. The Veterans of Foreign Wars (Arcadia and Monrovia Post) provide programs to support regional Veterans. Foothill Unity Center is a large CBO that provides exhaustive services to Local Area residents: family food assistance, transitional services for victims of domestic violence, housing assistance/motel voucher program, food stamps outreach, transportation program, resource referrals, onsite medical outreach clinic, and health screenings, among many other services.

MCAS through its Career Center staff has excellent and deep-rooted relationships with the County of Los Angeles Department of Public Social Services that operates the CalWORKs, GAIN, GROW and CalFresh programs, and the DOR. MCAS Career Center staff are well versed in each program’s administrative requirements and this helps those program clients seamlessly transition to MCAS educational programs. Access to all these programs will continue to be available for FWDB customers if Monrovia is granted the boundary change. Moreover, the Monrovia City Council believes the boundary change would greatly benefit these existing partnerships and leveraged resources. The above-referenced partners have always been eager and able to leverage efforts for their clients who qualify under WIOA, but they have been severely underutilized by FWDB. In the new proposed Local Area, the Monrovia City Council believes these partnerships will be better nurtured and leveraged to help WIOA-eligible partner clients seamlessly access WIOA services, and conversely, assist Local Area WIOA clients receive significant wrap around services to improved and sustainable outcome success.

4a. Boundary Change Influence on Existing Partnerships and Leveraged Resources – The Monrovia City Council believes that moving to the County service area will result in increased access to training opportunities and stronger partnerships with regional businesses. For the last five years, Monrovia residents and businesses have been significantly underserved in benefiting from WIOA services through FWDB. The WDB, however, has filled that gap even though Monrovia is not a member of the Local Area.

Table 3. Foothill WIOA Allocation for PY 2020-21

Foothill	Youth	Adult	Dislocated Worker	Total
LWDA	\$501,323	\$518,652	\$502,874	\$1,522,849

The FWDB represents a consortium of cities under the FETC, a Joint Powers Agreement (JPA). On August 4, 2020, the Monrovia City Council voted, and approved Monrovia to leave the FETC, and thus, the FWDB. The move would mean Monrovia would leave the JPA; however, the FWDB’s existing partnerships and leveraged resources would be negligibly impacted. Once approved, the main effect would be the reduction of WIOA funding allocated to Monrovia to the FWDB. All workforce boards receive WIOA funds following a formula developed by the Department of Labor. In Program Year (PY) 2020-21 the FWDB was allocated about \$1.5 million (Table 3) in combined Title I WIOA dollars to serve their LWDA.

For several years, Monrovia has repeatedly requested clarification as to the amount of WIOA resources dedicated to its residents. The Council has been aware of the funds allocated to unincorporated Monrovia for some time. This essential information is needed for Monrovia to strategically plan to best align, leverage and integrate its resources with WIOA’s to advance the economic prosperity of all its residents and businesses. Despite multiple requests over numerous years by FWDB Policy Board members—inclusive of Monrovia representation—the FWDB has not consistently provided information to explain how these sub-allocations impact its respective cities. Similarly, Monrovia has made constant requests for data over several years to determine how the funds actually benefitted Monrovia residents. The FWDB indicated that it does not have the data and would have to request it from the State. As such, FWDB does not provide its Policy Board members with consistent and accurate data reporting. Only after Monrovia submitted a Public Records Request, on December 22, 2020 to the FWDB, was Monrovia provided with some data as to what WIOA services were provided by FWDB to Monrovia residents. That data was not submitted to the Council until March 3, 2021. Once received, Monrovia analyzed and aggregated the fiscal and services data provided by FWDB.

Table 4 summarizes the WIOA sub-allocation for six (6) program years dedicated for Monrovia residents as per FWDB’s *Sub Allocations PY 2-15-16 to PY 2020-21*. Based on this data and Monrovia

participant training costs from PY 2015-2016 through PY 2020-21, Monrovia residents only benefitted from 17.8% of its sub-allocation over the course of 6

Table 4. Monrovia WIOA Sub-Allocation for PYs 2015-21

Program Year	Youth Sub-Allocation	Youth Actual ITA Expended	Youth Variance	Adult Sub-Allocation	Dislocated Worker Sub-Allocation	Adult / DW Actual ITA Expended	Adult / DW Variance	Total Variance
2015-16	\$81,056	\$0	\$81,056	\$65,575	\$93,073	\$45,831	\$112,817	\$193,873
2016-17	\$98,855	\$3,785	\$95,070	\$83,329	\$85,076	\$39,658	\$128,747	\$223,817
2017-18	\$105,762	\$17,345	\$88,417	\$79,785	\$71,139	\$48,563	\$102,361	\$190,778
2018-19	\$37,376	\$0	\$37,376	\$42,418	\$70,784	\$26,350	\$86,852	\$124,228
2019-20	\$50,438	\$0	\$50,438	\$55,190	\$70,508	\$21,869	\$103,829	\$154,267
2020-21	\$32,008	\$0	\$32,008	\$36,512	\$68,374	\$14,910	\$89,976	\$121,984
Total	\$405,495	\$21,130	\$384,365	\$362,809	\$458,954	\$197,181	\$624,582	\$1,008,947

years. Moreover, only 31% of the Youth sub-allocation was utilized during this period and similarly, about 27% of the combined Adult and Dislocated Worker funds were spent. This indicates that roughly two-thirds of the funds that could have benefitted Monrovia’s residents were unspent or spent elsewhere and the residents were simply overlooked and underserved. This is a pattern that is unacceptable. The demographics of Monrovia’s populace clearly demonstrate the availability and

need of potential individuals who could have benefited WIOA services. It is also not clear to the Monrovia City Council as to whether or not there ever was an outreach plan and a community engagement strategy to identify potential candidates given the dire need in the community and the robust partnerships that exist in the area.

Monrovia also received a breakdown of the PY19-20 and PY20-21 budgets and its PY 2020-21 sub-allocation of about 6% for WIOA Youth services and an additional combined 10% in WIOA Adult and Dislocated Worker funds. The FWDB shared the PY 19-20 LWDA distribution at a Monrovia City Council meeting on March 3, 2020, without a clear explanation as to what services the WIOA funds are intended to provide. Council requests for data and further clarification were ignored. A year later the FWDB Policy Board Vice-Chair, a Monrovia City Council Member, requested an explanation as to what the sub-allocation funds are used for and the reply from the FWDB was to pay for “the provisions of all WIOA services.” While this is likely true, Monrovia was not provided with a clear explanation as to what this actually means. It has never clearly been explained to Monrovia if these funds also pay for FWDB salaries and indirect costs; rather it has been intimated that these funds are available for direct services to Monrovia residents. If this is the case, it is clear to Monrovia that its residents have been and continue to be overlooked and underserved.

The FWDB advised Monrovia that it was sub-allocated WIOA funding in the amount of \$1,227,258 for WIOA services during Program Years 2015-16 to 2020-21 as depicted in Table 5. The table also shows the utilization of training funds by Monrovia residents. It is evident that the amount of actual funds utilized by Monrovia

Table 5. Monrovia WIOA Sub-Allocation and Training Utilization for PYs 2015-21

Program Year	Monrovia Sub-Allocation	Utilized Training Funds	Unutilized Training Funds	Percentage of Sub-Allocation Utilized by Residents
2015-16	\$239,704	\$45,831	\$193,873	19.1%
2016-17	\$267,260	\$43,443	\$223,817	16.3%
2017-18	\$256,686	\$65,908	\$190,778	25.7%
2018-19	\$150,578	\$26,350	\$124,228	17.5%
2019-20	\$176,136	\$21,869	\$154,267	12.4%
2020-21	\$136,894	\$14,910	\$121,984	10.9%
Total	\$1,227,258	\$218,311	\$1,008,947	17.8%

residents is low. Monrovia believes that its area has historically been overlooked and underserved as indicated by the data. WIOA Section 129 introduces significant investments in Out of School Youth (OSY) and Work Experience. Namely, WIOA increased the minimum OSY expenditure rate from 30 percent under the Workforce Investment Act (WIA) to 75 percent under WIOA and established a 20 percent work experience expenditure requirement. This means that each LWDA is responsible to ensure an equitable distribution of resources and that the actualization of these mandates would be carried out through its respective areas to ensure fairness and full compliance with the law. The FWDB provided data that three (3) youth were served in PY19-20. Monrovia is aware of multiple complaints by youth constituents that services are impossible to access and that they are stuck in a proverbial waitlist. Table 5 also demonstrates that the FCET provided \$218,311 in training services over six (6) program years although over one million dollars was allocated to the region during this time. The result was that only a fraction of Monrovia residents actually benefitted from training services, and it is not evident as to whether or not these Monrovia residents received supportive services. Eligibility criteria for WIOA maintains that individuals must have at least one (1) documented barrier that prevents them from obtaining or retaining employment. In fact, most WIOA customers

experience multiple barriers some of which are generational in nature. As noted, about 73% of Monrovia's residents have at least one barrier to employment. For this reason, access to wrap around services is part of the inherent program design in order to help individuals achieve positive outcomes. Furthermore, WIOA maintains that customers must be made aware of the availability and access to supportive services. Local WDBs, in consultation with its system partners and other community service providers, must develop a policy on supportive services that ensures resource and service coordination in the local area. The policy should address procedures for referral to such services, including how such services will be funded when they are not otherwise available from other sources. The provision of accurate information about the availability of supportive services in the local area, as well as referral to such activities, is one of the Career Services that must be available to adults and dislocated workers through the workforce delivery system. The FWDB Policy Board has not been provided with this information.

Supportive services are resources that are necessary to enable an individual to participate in activities authorized under WIOA Section 134(c)(2) and (3). The FWDB provided data that one (1) individual received a supportive service in FY19-20. It is not evident if supportive services were offered to the remaining participants nor if any supportive services have been offered or rendered during the five (5) program years. Moreover, what is most troubling to Monrovia is a pattern of a total lack of regard for the economic well-being of Monrovia residents as evidenced by the large discrepancy between the amount of WIOA sub-allocation funds dedicated to the area and the comparison of the number of individuals who actually benefitted from the services. Monrovia is still unclear as to what happened to the \$1,008,947 that was allocated and not utilized for its constituents over the six (6) year period. Monrovia Council members believe the WDB will be more concerned with the economic well-being of its residents, more transparent with WIOA data and funding allocations, and that Monrovia residents will receive significantly more services and access to opportunity in the new Local Area under WDB. Monrovia's addition to the WDB, would greatly enhance the WDB network, strengthen the area's existing partnerships and maximize leveraged resources to benefit this underserved community. Below is a summary of some value-added resources that Monrovia delivers.

4a. Boundary Change Influence Will Improve Business Engagement – The Monrovia Chamber of Commerce has developed relationships with multiple companies located in Monrovia. These robust partnerships are with firms in priority growth sectors that are committed to lead the way to rebuild a sustainable local economy by investing in their community beginning with the youth talent pipeline. In the Advanced Manufacturing sector, Peraton and Ducommum are large Defense contractors and in Biotech, the Oakcrest Institute of Science (a nonprofit firm) are both situated in Monrovia and have expressed a great desire to provide career pathway opportunities for local students to move into eventual full-time permanent employment. In the Healthcare sector, the City of Hope Research Center, the nearby City of Hope Medical Center, Arcadia Methodist Hospital, and Chap Care Monrovia have also expressed a similar interest in establishing accessible career pathways leading to full-time employment. In the Service industry Trader Joe's has its corporate headquarters in Monrovia, Air Tro, a Heating & Air company, and Home Instead have also sought partnership with the Chamber of Commerce and have expressed interest in creating pathways to full-time employment. FWDB never allocated funds to follow through on these opportunities. The Monrovia City Council believes that the WDB will be a much better collaborator with the Monrovia Chamber of Commerce and these local employers to meet their employment needs and support

creation of life-sustaining jobs for Monrovia residents than the existing efforts from FWDB. The FWDB has turned away service to business partners who offer entry level wages. The Monrovia City Council does not support this disservice to its businesses and recognizes this as a missed opportunity for individuals with little or no work experience such as a youth.

4a. Impact to AJCC locations – The FWDB operates one center, the FETC, and it would be impacted by Monrovia moving to the WDB Local Area. On the WDB side, the Pomona Valley AJCC currently provides services to residents of unincorporated Monrovia and would expand to serve the full gamut of City of Monrovia residents. In response to the drastic effects of COVID-19 and under the current Safer at Home order, the WDB’s centers remain open for business. The WDB’s network of AJCCs offers a full complement of virtual services and offers in-person appointments as needed and as safety permits. The Monrovia City Council has requested that WDACS explore the possibility of establishing an Affiliate AJCC in the City of Monrovia. WDACS has been amenable to this request as it has several AJCCs co-located with educational partners and supports the idea of finding a more convenient location. Until that option is fully explored, Monrovia residents would be served virtually, or at any of the WDB’s sites with West Covina being the closest.

4a. Local Area Change Will Increase WIOA Training and Services to an Underserved Community – This Local Area boundary change will significantly improve access to training and other WIOA services for the underserved Monrovia residents. The Monrovia City Council believes that FWDB has unacceptably underserved Monrovia residents in accessing and providing WIOA program services and training since the inception of the 2017-2020 Local Area Plan. Conversely, the WDB has provided more services and training opportunities to a larger number of Monrovia residents than FWDB over the years despite utilizing less funds. Tables 6 and 7 below depict the number of Monrovia residents who received WIOA services, including Individualized Training Accounts (ITAs), from both FWDB and WDB. Each Local Board provided the data below for its respective area.

Table 6 – Monrovia Residents Receiving WIOA Services & Training by FWDB

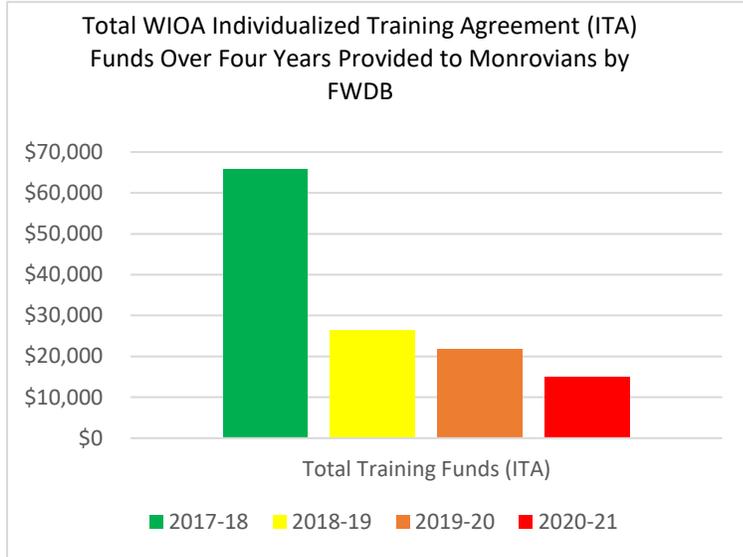

Program Year	Total WIOA Clients Served	Total Trained (ITAs)	Total ITA Funds
2017-18	36	21	\$65,908
2018-19	19	7	\$26,350
2019-20	21	3	\$21,869
2020-21	45	4	\$14,910
Total	121	35	\$129,037

Table 7 – Monrovia Residents Receiving WIOA Services & Training by WDB

Program Year	Total WIOA Clients Served	Total Trained (ITAs)	Total ITA Funds
2017-18	42	10	\$21,150
2018-19	61	15	\$51,505
2019-20	78	11	\$29,891
2020-21	41	9	\$22,450
Total	222	45	\$124,996

As noted, prior in Table 5 and in Chart 1 below, the Monrovia City Council is disconcerted that over the last four (4) Program Years, Monrovia residents have seen an alarming 77.4% decline in WIOA services including ITAs and an 81% decline in the number of residents receiving those funds. Chart 1 below depicts the steady decline of resources provided to Monrovia residents through its allocation. This action is in direct opposition to the State’s directive through its Unified Strategic Plan of 2016-19 for the Locals to drive skills attainment and upward mobility. This notion led to the shared aspirational goal for the workforce system to skill-up 1,000,000 Californians into middle-skilled training beginning 2017 and by 2027.

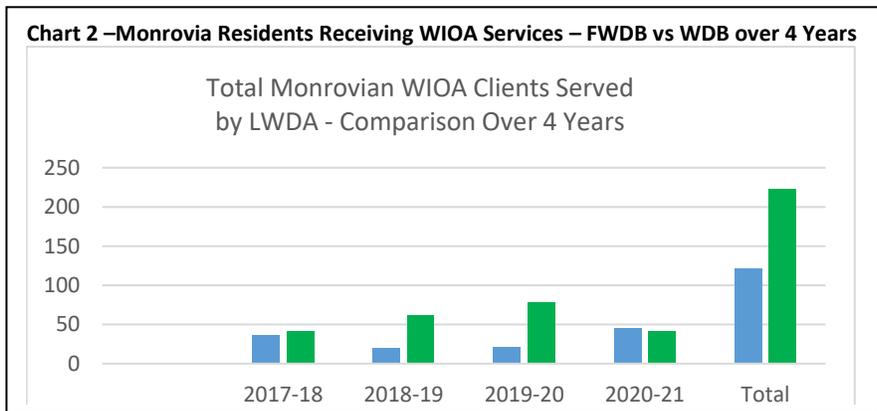

Chart 1 – Four Year Decline of WIOA ITA funds for Monrovia Residents from FWDB

The Monrovia City Council upholds that there is no excuse for disadvantaging its residents considering funding has not been fully expended by Monrovia over the years. Conversely, during the same period, the WDB has provided WIOA services to 222 Monrovia residents versus 121 provided by FWDB, which means 83.5% more residents were served by the WDB. During the current pandemic, at time when services are needed most, only 4 Monrovia residents received training services. Monrovia is gravely concerned that the level of attention and resources

afforded its residents during times of economic prosperity has been minimal and is unacceptable during current times with the profound need to rebuild the local economy in a recovering and post-pandemic era.

The Monrovia City Council further sustains that the WDB is more vested in the development and growth of its community despite not having the formal responsibility to serve these residents. Chart 2 below depicts how over the last (3) three PYs (2018-19 to 2020-21), the WDB has more than doubled its support of Monrovia’s residents and provided funding for 35 Monrovia residents for ITAs in the amount of \$103,846 while FWDB has funded 14 Monrovia residents for ITAs in the amount of \$63,129. Thus, the WDB supported more than double the number of residents served by FWDB and exceeded the training funds that FWDB provided by 165%, even though Monrovia is not part of the WDB’s Local Area.

The County also provides FWDB additional dollars to augment and fortify WIOA efforts across the L.A. Basin. Many Monrovia residents have complained over the years that they have rarely, if ever, accessed any of these resources from FWDB.

4b. A More Comprehensive and Integrated Workforce Development System- This boundary change will result in more cohesive partnerships between government and members of an integrated workforce system. Under the sections of Consideration 4.a above, this application lists existing partnerships with the City of Monrovia and local businesses, educational partners, community-based organizations, and faith-based organizations that will be utilized to improve

economic development efforts when Monrovia moves into the proposed new Local Area. Monrovia's Chamber of Commerce has a long record of fostering excellent and deep-rooted relationships with several local businesses. Many of these businesses have expressed their commitment and interest to provide career pathways to permanent, family-sustaining employment. This opportunity was never appreciated through the FWDB. Government, industry, and education in the new Local Area are highly cooperative in a number of forums. The San Gabriel Valley Economic Partnership has been an important workforce development partner for the Monrovia City Council and the MUSD. As previously noted in 4.a, Monrovia is home to several high-profile businesses representing a variety of high growth and in-demand sectors. These businesses are eager and ready to support local economic development efforts. Furthermore, as unincorporated Monrovia receives services from the WDB, there are developed partnerships with the City of Monrovia and its noted partners. Several of these collaborators such as MCAS have been a strong partner in the L.A. County Task Force to help create the L.A. County WDB MOU for 2020-23 and the Local Area Plan for 2020-2024. The combination of commitment and aligned resources will yield a more comprehensive and integrated workforce development system. This level of active partnership has also allowed the City of Monrovia to strategically plan and leverage its resources to benefit the local community and advance its struggling economy.

The Monrovia City Council believes these partnerships will be much stronger under the WDB and that the WDB will be a much better collaborator with the Monrovia Chamber of Commerce and these local employers to meet their employment needs and support the creation of family-sustaining jobs for Monrovia residents than the existing efforts from FWDB.

4b. Boundary Change Improve Local Economic Development and Coordination- Monrovia's Local Area move will improve coordination between local business and WDB to foster job growth and economic development. The WDB is a fully comprehensive and capable LWDA that leverages County assets to advance equity and prosperity in the region. The County will continue to provide the FWDB with non-WIOA funds to augment WIOA and improve outcomes for customers. This is accomplished by collaboration with other LWDA's, County departments, business partners, education partners, CBOs, and workforce and economic partners to facilitate and grow economic development. The willingness of Local Area stakeholders connected to the WDB to coordinate economic development efforts exists and will continue. Furthermore, the Monrovia Chamber of Commerce has a significant listing of local business partners that are interested in receiving services during this precarious time. The County has established a robust menu of services from permitting, grants, loans and leveraging WIOA resources to support and grow small businesses and social enterprise organizations. Of particular interest are those businesses that are minority owned, veteran owned, and female owned. The County has also adopted a set of strategies from the *Pathways to Economic Resiliency* report recently released by the Los Angeles Economic Development Corporation (LAEDC). The WDB's expertise will also improve coordination efforts for the new Local Area beyond what currently exists and the WDB will continue to support and partner with the Los Angeles Regional Planning Unit execute its goals and strategies.

4b. Excellent Collaboration Opportunities for WDB to Meet Workforce Development Needs –WDB has excellent collaboration opportunities because of its strong relationships with Monrovia City Council members, the Monrovia Unified School District through MUSD's adult school, MCAS, the San Gabriel Valley Economic Partnership, and some of the larger employers in and around Monrovia.

The WDB also has a very willing and able partner with Monrovia Chamber of Commerce. The WDB is knowledgeable and capable of leveraging these relationships to create strong collaborations to meet workforce development needs when Monrovia enters the new Local Area. In addition, the WDB also partners with the LAEDC for Rapid Response and Lay Off Aversion services, the County Department of Consumer and Business Affairs (DCBA), and the Los Angeles County Development Authority (LACDA). Lastly, in July 2021, the County will have established a new Economic and Workforce Development Department which will merge with the Office of Small Business of DCBA, LACDA and the Economic Development division of the County Chief Executive Office.

4c. New Geographic Area Does not Affect Linkages to Local Educational Agencies (LEA) – Currently there are two (2) WIOA Title II LEAs in the current and proposed new Local Area: Pasadena USD and Monrovia USD. Pasadena USD’s Twilight Adult School has a signed MOU with FWDB that is valid until June 2022. Monrovia USD’s MCAS does not have a current MOU with FWDB as its previous MOU expired in June 2020 and FWDB has made no efforts to renew the MOU. MUSD has signed an MOU with the WDB that is valid until June of 2023. Thus, no change would occur in the current number of LEAs who have a signed MOU with each Board.

The WDB upholds WIOA’s “customer choice” mandate and residents from surrounding communities would continue to access training from any provider on the Eligible Training Provider List. MCAS would still be available as a training provider for the remaining 5 cities of the FETC and will continue to coordinate with FWDB in providing vocational education and career services to its clients. No change in services available would occur.

4d. Boundary Change Does Not Impact Local Labor Market – The service area for the new Local Area does not significantly shift an existing labor market area.

4d. Boundary Change Would Improve Commute Patterns – Once local job creation and workforce development improves under WDB efforts, local residents will connect with local businesses for employment. Thus, residents who work at these businesses will not engage in a significant commute. Strengthened partnerships would improve commuting patterns.

4d. Boundary Change Has No Impact on Unemployment Rates – Based on March 2021, the unemployment rates the five (5) cities remaining in FWDB’s LWDA have a combined unemployment rate of 9.0% (approximately 14,000 unemployed out of an available regional workforce of 159,000) The unemployment rate in Monrovia is 9.0% and in Los Angeles County is 10.9%. Thus, this change in either Local Area has no significant impact at all in unemployment rates for the modified areas.

4e. Maximum Distances for Individuals to Access Services – The WDB has implemented a complete virtual presence throughout its network of AJCCs. Individuals do not need to leave their homes. Should an individual need in-person services, the customer may travel to any AJCC location. The closest one is about 9 miles from Downtown Monrovia to West Covina. There is ample access via public transportation. As mentioned, the Monrovia City Council would like to see an Affiliate AJCC located in the city limits of Monrovia and believes this Affiliate AJCC would greatly benefit residents of Monrovia and surrounding unincorporated areas. If this Affiliate AJCC comes to fruition the most any individuals from Monrovia or from County unincorporated areas would need to travel would be approximately 3 miles.

4e. Boundary Change Will Improve Accessibility for Customers – As noted in the previous section, an Affiliate AJCC located in Monrovia would vastly improve accessibility to WIOA services for not

only Monrovia residents, but also for existing County residents who must now travel to Hacienda La Puente or Pomona. Currently WIOA customers in the unincorporated areas near Monrovia may access services virtually. If an in-person appointment is needed, customers must travel over 9 miles to get to the East San Gabriel Valley AJCC in West Covina or over 18 miles to the Pomona Valley AJCC.

4e. Transportation for People with Disabilities – Monrovia has widespread local transport for disabled and non-disabled individuals through local Monrovia Transit, Foothill Transit, and the Metro Gold Line.

4e. Commute Patterns and Public Transportation – As noted, Monrovia has extensive local transport that will help those who need to use public options. During peak commute hours the Metro Gold Line and Foothill Transit increase train and multiple bus options to meet peak commute demand.

4e. Public Internet Access – Monrovia has over 90 public Wi-Fi hotspots, as well as significant computer and internet access at the Monrovia Public Library, the Monrovia Community Center and Monrovia Community Adult School. Public access to the internet and devices will be exemplary. The County AJCCs all have Wi-Fi and the WDB also has partnerships with County libraries, parks, and senior and community centers to access the internet and Wi-Fi as well.

4e. Impact on Local Demand Occupations, Eligible Training Providers List (ETPL) Requirements and Individual Training Accounts (ITAs) – As the region moves forward to rebuild the economy certain key industries will drive recovery including Healthcare and Advanced Manufacturing. The demand for skilled talent in these areas is very high and will continue for some time. The requested modification has no impact on the ETPL training provider requirements or in ITAs. One notable change will be increased innovation and collaboration between the WDB, education, and industry. For example, Pomona Valley AJCC, Home Instead Monrovia, and the MCAS have partnered to execute a WDB Innovation Grant project that calls for the screening, hiring, and training of 70 individuals to start employment as Home Care Aides. Home Care Aides are in dire shortage across Los Angeles County and this dynamic, business-led partnership addresses that labor shortage, providing a career path and offer family-sustaining wages and benefits. Home Instead's compensation package includes wages higher than minimum wage, and benefits that include paid sick leave, paid COVID leave, accrued time off, health, dental, and vision benefits, a 4% match in 401K, and performance bonuses.

4f. Impact on Previously Negotiated Shared Costs in MOU – The current WDB MOU would have a null effect as services would initially be offered through existing sites. The MUSD, the city's LEA, has offered substantial cost-sharing to the Monrovia City Council to help establish an Affiliate AJCC located in Monrovia at its adult school MCAS. This partnership would provide tremendous, shared leverage resulting in better quality services and results for Monrovia's residents and business partners.

4f. Infrastructure Funding Agreements – Once Monrovia is granted the opportunity to change LWDAs, the Infrastructure Funding Agreement (IFA) would be updated and executed. The MUSD is offering significant leverage of in-kind funds of over \$500,000 so that WIOA funds can be dedicated to training services including but not limited to ITAs, apprenticeships, On the Job Training, and the needed supportive services to succeed.

4f. Referral Process Will Expand – No negative impact will occur for client referral between the AJCCs and its partners. The MCAS has been a proactive partner in referring clients to the WDB. If the modification were approved, its existing referral process would be significantly expanded to capture new customers.

4g. Modification Will Not Change the WIOA Administrator for New Local Area – There is no impact to the WIOA administrator (WDACS), or the One Stop Operator (OSO), should Monrovia join the WDB service delivery area.

4g. Modification Will Not Change Responsibilities of the AJCC – The role of the AJCC responsible for serving the new area will not change as the current provider presently services unincorporated Monrovia.

4g. No Need for New Firewalls or Conflict of Interest – There is no need to establish new conflict of interest or new firewalls.

4g. New Area Does Not Require or Seek Approval to Be an AJCC Operator- As indicated in 4f, there will be no change to the current OSO for the County’s LWDA. A new AJCC Operator will be procured when the entire system is procured. Current contracts will sunset June 2023.

4g. No Approval Required to be the Adult and Dislocated Worker Career Services Provider – As indicated above, the proposed modification will not require the WDB to request the approval of a new Adult and Dislocated Worker, or Youth services provider.

4h. Impact of Local Area Plans: Vision, Goals, and Strategy – The vision, goals, and strategy for the WDB will be enhanced with the addition of the City of Monrovia. The addition would fortify the region through more equitable resources to an underserved community. The MCAS has been a vital contributor to the County Local Plan and is also a WIOA MOU Partner. Many Monrovia currently benefit from the WDB’s services and many more would benefit from services once consolidated with the County LWDA.

4h. Impact of Local Area Plans: Alignment to the State Plan – Implementation of the State Plan would also be strengthened. The WDB will continue to be a committed partner of the FWDB who is the LABRPU lead.

4h. Impact on Service Delivery Strategies – With the new proposed area, the Monrovia City Council believes that residents will have access to much needed services and it will be able to better leverage the County’s non-WIOA dollars to spur economic and workforce development for reasons extensively noted in the application.

4h. Impact on Specific Populations – Specific populations such as Migrant and Seasonal Farmworkers would not be impacted by the proposed are change. The WDB would leverage its partnership with the Los Angeles City/County Native American Commission, also administered by WDACS, to ensure this population has access to workforce services in the new proposed area.

4h. No Change in Local Board Bylaws – Neither the WDB Bylaws nor FWDB Bylaws would change.

4i. Other Narrative Information – The expectations of the Monrovia City Council in becoming part of a new Local Area are very high. The Council desires increased involvement from Monrovia businesses, improved client efficacy, WIOA operational efficiency, and better data transparency. Fulfillment of these expectations will be achieved with a move to the new Local Area. As part of the

public commentary process, 27 public comments were received with most comments being favorable. The FWDB, however, is in opposition of the move. For a detailed account, please see Summary of Comments (Attachment I) and composite of public comments and letters of support (Attachments II, IVa and IVb). The WDB voted to support and approve submission of the LAM application on August 20, 2021.

4i. Improved Coordination and Responsiveness Between the Workforce Board and Industry – The Monrovia City Council believes its Chamber of Commerce will be better utilized as part of the new Local Area resulting in significantly improved coordination between local industries and the WDB to support the creation of jobs and foster economic development. The Monrovia Chamber has numerous relationships with local businesses where WIOA training funds could be leveraged to for significant job creation. While FWDB has engaged in conversations with the Monrovia Chamber of Commerce, these discussions have not resulted in any long-term outcomes of note. The Monrovia City Council believes the WDB will facilitate improved service delivery for its residents and business partners and the portion of non-WIOA dollars that is to augment WIOA services would reach needy individuals to dramatically improve the support of job creation and economic prosperity in the Monrovia area.

4i. Facilitated Access for Improved and Much Needed Service Delivery Access – The Monrovia City Council has requested that WDB explore creating an Affiliate AJCC in the city of Monrovia and WDB has been amenable to this request. An Affiliate AJCC in Monrovia would mean Monrovia and County residents who need WIOA services will be able to access them more easily as transportation would no longer be a significant barrier.

4i. Significant Leverage to Sustain an Integrated Service Delivery (ISD) Model – The Monrovia City Council is a strong proponent of an ISD model for workforce services and believes, as a partner of the WDB, that it can help sustain an ISD model that will increase the number of services and training opportunities available for Monrovia residents and business. The MUSD is committed to leveraging substantial cost-sharing assets to the Monrovia City Council to create and sustain a robust ISD model for an Affiliate AJCC located in Monrovia. This leverage would dramatically increase available resources including training funds for residents of Monrovia without impacting utilization of the school for surrounding areas.

Local Workforce Development Area Modification Request Signature Page

The Local Workforce Development Board (Local Board) Chair, as well as the designated local Chief Elected Official (CEO) for the Local Workforce Development Area (Local Area) submitting or supporting the modification request should sign and date this form. Include the original signature page(s) in the modification request package. This form can be reproduced as needed.

SUMMARY OF COMMENTS

Local Area Modification Application: City of Monrovia

The opportunity for Public Commentary was made available at multiple public access points for well over the 30-day period. The chronology of public notice is as follows. On August 04, 2020, the City of Monrovia held a public meeting to consider withdrawing from the Foothill Workforce Development. No public comments were received on the item. On February 25, 2021, a public notice was generated by Los Angeles County announcing the next Quarterly Board meeting of April 09, 2021 with the proposed expansion of the area to include the City of Monrovia. The public was informed that the agenda would be posted at least 72 hours prior along with an explanation of how to provide public commentary.

On April 5, 2021, a public notice was sent out reminding the public of the April 09, 2021 meeting, the agenda, and how to provide public commentary. On April 09, 2021, public commentary was received at the Quarterly WDB meeting regarding this application and an announcement was made that the 30-day public commentary period began on April 09, 2021 and would continue through May 09, 2021. On April 15, 2021, the public was informed by a Notice of Intent that the City of Monrovia had filed an application to join the Los Angeles County Workforce Development Board Area. Any public commentary was to be sent to wdb@wdacs.lacounty.gov. This notice was in error as the application was *in the process of being* filed.

On April 21, 2021, a Correction to Public Notice of Intent was issued announcing the City of Monrovia's intent to join the WDB. The public was instructed to send public commentary to wdb@wdacs.lacounty.gov. At the suggestion of the State of California Employment Development Department, the WDB started a new public commentary period from April 27, 2021 to May 28, 2021 and released an updated Notice of Intent on April 27, 2021 with public commentary to be sent to wdb@wdacs.lacounty.gov. The City of Monrovia also posted the Notice of Intent on its website, posted the application, announced the same public commentary period, and collected comments. On August 20, 2021, the WDB held a Special Meeting for the WDB to discuss the item. The majority of members voted to support and submit the Local Area Modification (LAM) application.

So far, a total of 27 public comments have been received in response to this LAM. The majority are favorable. The City Clerk of the City of Monrovia certified all public commentary received by the City of Monrovia between April 23, 2021, and May 28, 2021 (Attachment II). The WDB also included all public comments it received on this matter (Attachment III). Only those public comments directly related to the City of Monrovia LAM application have been included to substantiate the application. A summary of this information is also outlined in this document.

Sacramento, CA 95814

Dear Dr. Farooq:

Please allow this letter to serve as our company's unqualified support of the City of Monrovia as it seeks to move into the Local Area of the Los Angeles County Workforce Development Board (WDB). For years, our company has been a proud member of the Monrovia Chamber of Commerce and an active participant in Monrovia civic affairs. Our company recognizes that a robust partnership between business, local government, quality educational institutions, and a strong Workforce Development Board is critical for business growth.

We believe that WDB will more actively engage local business partners, the Monrovia Chamber of Commerce and the community in developing the local workforce talent pipeline. WDB training and other resources will better provide Monrovia residents with opportunities to develop transferable skills and sustain employment. We welcome enhanced prospects to partner with WDB as it offers work based learning opportunities to Monrovia residents to help meet our employment needs and grow the local economy.

Please do not hesitate to contact me if you wish to discuss our support further. Thank you for your consideration.

Sincerely,

Elizabeth Ramirez

Subject: Regarding the City of Monrovia Switching to LA County Workforce Development Board
Date: Monday, April 26, 2021 6:39:44 PM

Dear Ms. Molina-Aviles,

I am in support of the City of Monrovia switching from the Foothill Workforce Development Board to the Los Angeles County Workforce Development Board. This switch will provide enhanced workforce development, better outcomes, and closer equitable allocation of funds to train the future workforces of Monrovia. This proposed switch will allow for better transparency, greater communication than the current level of service received, leading to better outcomes for the participants.

Respectfully submitted,

Melissa Taylor

Dr. Angelov Farooq
Chair, California Workforce Development Board
800 Capitol Mall
Suite 1022
Sacramento, CA 95814

Dear Dr. Farooq:

Please allow this letter to serve as The Monrovia Chamber of Commerce's unqualified support of the City of Monrovia as it seeks to move into the Local Area of the Los Angeles County Workforce Development Board (WDB). For years, the Monrovia Chamber of Commerce has been an active participant in Monrovia civic affairs. The Monrovia Chamber of Commerce recognizes that a robust partnership between business, local government, quality educational institutions, and a strong Workforce Development Board is critical for business growth.

We believe that WDB will more actively engage local business partners, the Monrovia Chamber of Commerce and the community in developing the local workforce talent pipeline. WDB training and other resources will better provide Monrovians with opportunities to develop transferable skills and sustain employment. We welcome enhanced prospects to partner with WDB as it offers work based learning opportunities to Monrovians to help meet our employment needs and grow the local economy.

Please do not hesitate to contact me if you wish to discuss our support further. Thank you for your consideration.

Sincerely,

Sari Canales

LETTERHEAD WITH CONTACT INFORMATION

May 18, 2021

Dr. Angelov Farooq
Chair, California Workforce Development Board
800 Capitol Mall
Suite 1022
Sacramento, CA 95814

Dear Dr. Farooq:

Please allow this letter to serve as Monrovia Teacher's Association's support for the City of Monrovia as it seeks to move into the Local Area of the Los Angeles County Workforce Development Board (LACWDB).

We believe that LACWDB will better provide work based learning opportunities for Monrovia's homeless, foster, probationary and drop-out youth and better help them become productive members of the workforce. We also believe LACWDB will continue to provide substantial training funds to MUSD and serve Monrovia residents with classroom training and employment opportunities.

Please do not hesitate to contact Randy Medina, MTA Vice President, if you wish to discuss our support further.

Thank you for your time and consideration on the behalf of the Executive Board of the MTA.

Sincerely,

Anne Battle
President

Martha Molina-Aviles
Executive Director
Los Angeles County Workforce Development Board (WDB)
3175 West 6th Street
Los Angeles, CA 90020

RE: Regarding the City of Monrovia Switching to LA County Workforce Development Board

Dear Ms. Molina-Aviles,

I am in support of the City of Monrovia switching from the Foothill Workforce Development Board to the Los Angeles County Workforce Development Board. I am now fortunate to be supported by my husband, who has a well-paying job. However, in 2016-19 while struggling with a movement limitation disability, I was a client of that agency.

I was in need of a new career path. The whole experience was not user-friendly. I participated and cooperated to the best of my ability. Unfortunately, my outcome was negative. I was unable to get re-employed, even after I was successfully medically treated and no longer had the movement limitation. The re-training available to me was awful.

I am an older worker. Because social security does not give us enough to live on, we need older worker retraining and employers who will hire us.

I hope this switch will provide better outcomes. Please see that it happens.

Respectfully submitted,

Linda Elyad

Re: LA County Workforce Development Board Public Comment

May 26, 2021

To Whom It May Concern:

Foothills Kitchen will go on record of supporting 100% **to move from Foothill Workforce Development Board to the Los Angeles County Workforce Development Board**. At our Kitchen we serve people that are looking for jobs. When they come to us, we are readily armed with many resources, but we haven't seen anywhere where these job opportunities or training are offered, nor do we know of anyone benefiting from the program we presently have with FWDB. We would think that if you are offering job training opportunities, people should hear about it or there should be advertisements of the job opportunities being offered.

I attend monthly SPA 3 Provider's Meetings in which I am able to obtain many resources for our guests. At nearly every meeting, there is a woman working with AJCC in the City of Industry area. She always mentions various job training opportunities. But they are always in the City of Industry and sometimes, Baldwin Park area. I never knew about our very own Foothill Workforce Development Board serving our very own city. That's a shame for them, because we heartily support the change of 'Boards'. Also, we did not like the lack of transparency when our City asked for 'records' from FWDB.

When we switch, please put us on the email list that will receive listings of job opportunities. It will be a valuable resource to be able to offer to our guests. Thank you and we look forward to the change!

In Solidarity,

Carol Daley, Janie Duncan, Pam Werner

Foothill Workforce Development Board director transferred \$1.5 million without board approval

Hire Path Funds sent to South Bay Workforce Investment Board

By Terry Miller. Monrovia Weekly

Last week we published a front-page story on Monrovia leaving Foothill Workforce Development Board (FWDB) to opt for a county program due to what the city perceives as ineffective operation. Beacon Media had filed a public records request and finally received some answers after we published the story.

However, there remain unanswered questions concerning the number of people the program has helped in relation to the grant and other monies that the FWDB received. One concern is over a situation where money was transferred to an agency called South Bay Workforce Investment Board (SB WIB), outside of the jurisdiction of the Joint Powers Agreement.

On May 18, 2020, the executive director of the FWDB, Dianne Russell Carter, sought approval for the Pasadena City Council to transfer \$1.5 million of federal Hire Path funds earmarked for residents of the six cities served by the FWDB to the SB WIB without getting the FWDB Policy Board approval for the transfer.

Paul Little, president of the Pasadena Chamber of Commerce, provided a public comment and stinging rebuke of the transfer that was read at the time of the vote. "These contracts have driven me crazy for 17 years. The Foothill WIB [the previous name for the FWDB] contracts with South Bay for training services for large amounts of money with not a lot training received. ... It would make more sense to spend the money locally."

The Pasadena City Council approved the transfer in a vote of 7-1.

This transfer of Hire Path funds has become another important factor as to why the City of Monrovia is submitting a Local Area Modification application to leave the FWDB Local Area and move to the Los Angeles County Workforce Development Board (WDB) Local Area, according to Monrovia City Councilmember Larry Spicer.

"That money could have helped my constituents and residents in the six cities. Instead, the money was sent to a Workforce Development Board in Hawthorne. The people who could use this money can't get to Hawthorne, or don't even know where it is," said Spicer.

In spring 2020, the FWDB received \$2 million in funds from Additional Assistance Hire Path, a grant from the U.S. Department of Labor that was to run from April 1, 2020 to March 31, 2021. According to Russell Carter's May 18, 2020 presentation to the Pasadena City Council, these funds "Were intended to provide training and support services to individuals dislocated by the COVID-19 virus with special efforts to serve hospitality workers from Unite Here Local 11."

The six cities served by the FWDB are Arcadia, Duarte, Monrovia, Pasadena, Sierra Madre, and South Pasadena. Instead of serving residents of these six cities, \$1.5 million of Hire

Path funds, or 75% of the total grant, was transferred to the SB WIB because, according to Russell Carter, the SB WIB “Operates the Intra-State Training Resource (and Information) Network (ITRAIN).”

However, the I-TRAIN system has existed for over a decade and is a system all Los Angeles County Workforce Development Boards and their clients have used during that time.

“Saying that you are sending South Bay WIB \$1.5 million because they operate I-TRAIN is like saying you should pay me a million dollars to drive across the Colorado Bridge in Pasadena every day. The system already exists and is used. Why does the Foothill Workforce Development Board need to pay South Bay WIB \$1.5 million from this Hire Path grant for a system that is already operational?” said a source who wished to remain anonymous and who frequently uses I-TRAIN in working with the County Workforce Development system.

Also, Russell Carter did not get approval from the FWDB’s governing Policy Board to transfer the \$1.5 million to the SB WIB, according to a review of 2020 Policy Board agendas and minutes on the FWDB website.

The FWDB is an advisory board “Comprised of business owners, corporate executives, local educational organizations, labor unions, economic development agencies, government entities and community-based organizations,” according to its website. The FWDB is governed by the Foothill Employment and Training Consortium (FETC) Policy Board comprised of elected officials from the six cities that are part of the Joint Powers Agreement that created the FETC and the FWDB, according to Spicer.

“In August of 2020, we (the FETC Policy Board) approved the Foothill budget for Program Year 2020-21,” said Spicer, who is also the vice chair of the FETC Policy Board. “But there was nothing on the agenda that said that \$1.5 million of Hire Path funds was being transferred to another Board. And we were never told that three months earlier the Executive Director advocated for that transfer and received it from the Pasadena City Council.”

In her July 22, 2020 agenda report to the FWDB, Russell Carter in her professional capacity not only did not mention the transfer to SB WIB, but said the \$2 million in Hire Path funds would be used to serve individuals in the region.

“The state approved Foothill Workforce Development Board request to modify the Additional Assistance grant to provide training and supportive services to 800 additional individuals dislocated by the COVID-19 virus. We modified the budget to increase the funding by \$2 million to meet these objectives,” she stated in her agenda report.

Spicer made it clear he did not blame the Pasadena City Council for approving the transfer of \$1.5 million to SB WIB. “The workforce development system is very complex and confusing. The Pasadena City Council was relying on Ms. Russell Carter’s explanations when they approved the transfer. They would not have done this without Dianne telling them to do so,” said Spicer.

It was during the May 18, 2020 meeting that Russell Carter convinced the Pasadena City Council to transfer the \$1.5 million to SB WIB. The meeting can be seen at: pasadena.granicus.com/MediaPlayer.php?view_id=25&clip_id=4878.

This meeting also exposes a glaring contradiction in governance over FWDB expenditures. In the meeting, Council Member John Kennedy attempts to procure funds for a nonprofit in his district from the Prison to Employment Initiative Grant Program (P2E), a different state grant in the amount of \$258,222 that was awarded to the FWDB and six other regional

Workforce Development Boards. The P2E grant was intended to provide paid work experience, training and support services to formerly incarcerated individuals and their families. Accepting these \$258,222 of P2E funds was on the same Pasadena City Council agenda item as the Hire Path funds transfer to SB WIB.

Kennedy attempted to procure some amount of the P2E grant funds for the Flintridge Center, which works with reentry individuals, because as he noted, "This council has made the decision this particular nonprofit does extraordinary work." Kennedy said the organization was doing a good job with services and compliance so, "...it seems like we need to help them do a better job by allocating additional resources."

Kennedy's efforts to obtain a commitment of one-sixth of the P2E funds for Flintridge were ultimately unsuccessful and he ultimately was the lone vote who did not approve the transfer to SB WIB.

Vice Mayor Tyrone Hampton told Kennedy, "It would take all six cities (of the FWDB) to agree upon that."

Council Member Victor Gordo (now mayor) during the meeting then said, "We can't just change the funding allocations in a way that usurps the WIB Board's (FETC Policy Board) decision making."

However, the vote to transfer \$1.5 million of the Hire Path funds did just that.

"Why can the Pasadena City Council not control the Prison to Employment allocation, but they can bypass the FETC Policy Board and send \$1.5 million to the South Bay WIB? You cannot have it both ways, but that was how Ms. Russell Carter advised the council to act," argues Spicer.

Losing access to those funds and the lack of transparency about the decision is "Just another reason why Monrovia would be better served by the Los Angeles County Workforce Development Board," said Spicer.

The executive director of Pasadena Chamber of Commerce told Beacon Media News last week:

"I used to sit on Boards for the WFDB and constantly objected to the deal with South Bay. I really think the money should stay here and training should be contracted with Pasadena City College. It is millions of dollars each year and very few people seem to actually get trained.

"It is not that the system is corrupt as much as it is inefficient and produces few results for the investment. I expect Monrovia just got tired of the status quo and wants to see if they get better results from the L WDB. I do not know that they will.

"There have been efforts in Congress to kill the SBDC [Small Business Development Centers] program because across the nation the results are abysmal. Few people anywhere actually get a job after working with the WDB."

In that fiery May 18 meeting, Kennedy questioned the use of South Bay and the allocation to Flintridge Center's Prison to Employment program which is a path forward for previously incarcerated people.

During the meeting, Councilman Steve Madison grew weary of the time spent on the issue and repeatedly interrupted Kennedy's time on the matter.

Beacon Media has repeatedly requested comment from Councilman Kennedy and Russel Carter. Specific questions have gone unanswered, and a second Public Records Request has been filed by this newspaper.

Monrovia seeks to leave Foothill Workforce Development Board
Public comment period open until May 28

By Terry Miller

The Los Angeles County Workforce Development Board (WDB), at the request of the Monrovia City Council, has drafted a Local Area Modification (LAM) application to request of the California Workforce Development Board and the governor that Monrovia be allowed to move from its current Foothill Workforce Development Board (FWDB) Local Area to the WDB Local Area. A draft of the LAM application can be found on the City of Monrovia website and the council is asking for public comment on the application.

The Monrovia City Council requested the move out of the FWDB Local Area and into the WDB Local Area because it believed its constituents have been underserved by the FWDB for years. The LAM application online has WIOA program documents in its Appendix that the council says support its belief that residents have been underserved.

According to its website, the California Workforce Development system is “responsible for assisting the Governor in performing the duties and responsibilities required by the federal Workforce Innovation and Opportunity Act of 2014 (WIOA).” According to an April 29, 2020 posting on the Federal Register by the Employment and Training Administration, California received approximately \$406 million dollars of federal WIOA funds in 2020. These funds are to help train employees and connect them to jobs with businesses. WIOA funds pay for employee job skills assessment, basic education, job training, job placement, and community workforce development.

In 2015 after WIOA became federal law, the City of Monrovia entered into a Joint Powers Authority along with the cities of Arcadia, Duarte, Pasadena, Sierra Madre, South Pasadena and the FWDB. The FWDB is the Local Area board responsible for spending these WIOA funds and meeting the employment outcomes required in the legislation

Council Member Larry Spicer, who is also of the FWDB Policy Board, explained that the City Council’s decision to request the move has been years in the making. “The City Council voted to leave in August 2020 because of years of frustration. We have been asking for years to get easy-to-understand data that showed how our constituents have benefitted from WIOA funds. We only received this data after filing a public records request on Dec. 22, 2020.”

The LAM Appendix, for example, contains a slide from a March 2, 2020 presentation to the Monrovia City Council by Foothill Workforce Development Board Executive Director Dianne Russell Carter. The City Council at this meeting requested clarification due to Russell Carter’s presentation slide inconsistencies. The slide, on page 26 of the Appendix, is titled “FWDB PY 2019 – 2020 WIOA Allocations.” However, the table below it states the 2018-19 “Suballotments Per City.”

Other information about number of Monrovia residents served were on the slide. The City Council requested clarifying data from the presentation. According to Spicer, Russell Carter never provided that clarification.

More than nine months later, Spicer followed-up on the council’s request.

In a Dec. 14, 2020 email to Russell Carter and Rachelle Arizmendi, mayor of Sierra Madre, and the policy board chair of the FWDB, Spicer requested “simple, easy to understand data that shows how Foothill (FWDB) has served my constituents.”

In her Dec 14, 2020 response Russell Carter wrote, "I am not sure of the purpose of such specific information or data. The specifics of your request will require a great deal of staff work hours."

Arizmendi agreed with Russell Carter, writing in a Dec. 16, 2020 email that, "researching past program's year's data would be extremely labor intensive."

However, according to a source familiar with WIOA program data, FWDB staff would not even be responsible for gathering the data Spicer requested. According to the source, who wished to remain anonymous, Los Angeles County data analysts could fulfill the request and could have provided this data in a short time, perhaps even one day.

"That email exchange is what my time on the Foothill Policy Board has been like for years," said Spicer. "It was unfortunate that we had to file a legal public records request to get data that should be available for our council to make decisions."

The Dec. 22, 2020 public records request resulted in almost all of the requested data being released to the city on March 3, 2021.

Upon seeing the date, there was concern about motives for FWDB not readily providing the data the City Council requested in March of 2020.

The WIOA program data that was finally provided to the city is included in the application. The data raised significant concerns for Monrovia officials.

From WIOA Program Year 2017-18 to 2020-21, Monrovia residents have seen a 77.4% drop in access to WIOA classroom training funds from \$65,908 to \$14,910. In the last three years, the WDB has provided classroom training to 35 Monrovia residents while the FWDB has only provided classroom training for 14 Monrovia residents, a 250% difference. During that time, the WDB spent \$103,896 on those trainings versus \$63,129 spent by the FWDB, that's 165% more in funding.

The WDB has provided Monrovia residents with these services even though Monrovia is not in the WDB Local Area.

"The City Council believes, and the data supports this belief, that the Los Angeles County Workforce Development Board would better serve our constituents," said Spicer.

Beacon Media, the owner of Monrovia Weekly, has filed a public records request from FWDB to receive WIOA program documents for the residents of all six cities served by the FWDB and, thus far, the request has proved fruitless. Return correspondence to our repeated requests for comments or information cite the coronavirus for lack of response. As of May 6, 2021, this newspaper has received none of the WIOA program documents requested.

We would like to hear from anyone in the community who has had personal experience with FWDB and how they may have helped your career goals. Please email tmiller@beaconmedianews.com with your thoughts.

The Local Area Modification application can be found at:

Good morning Julie,

I would like to take this time to express my gratitude for the tireless effort exhibited in order to assist me in securing employment that is congruent with my military experience, as well as my education and entrepreneurial skills. My current position at the Salvation Army is a perfect match for my skill set that allows me to serve the veteran community, of which I am also a member. I am looking forward to a career with the Salvation Army, which will allow me to provide the level of service that I received from you, with the goal of securing meaningful employment for my fellow veterans.

Warm Regards,

Lawrence Williams

Julie McElrath
Business Liaison/Management Analyst II
Foothill Workforce Development Board
City of Pasadena, Office of City Manager Department

Ms. McElrath,

Good day. I hope this letter finds you well. I wanted to take a moment to send you a sincere and heartfelt "Thank You" for all that you and FWDB have done for me. The past year has been very challenging. The pandemic and job market made it difficult to gain traction in the employment search. However, the services and educational support that your organization has provided are outstanding.

With FWDB and your help, I attend Integrated Digital Technologies (IDT), where my study included preparing for my Security+ and Network+ certification. Based on my enrollment in the IDT's program, Allied Universal Private Security offered me a security operation center position.

Once again, Ms. McElrath, thank you and FWDB for the great work, you do to help our veterans; we greatly appreciate it and hope that you continue your mission.

Thank you,
Barry A. Johnson
Major, Infantry
US Army (Retired)

Subject: Re: Participant Thank You Letters

Good late evening Ma'am,
My apologies for late response. Hopefully, I made the cut.

What should I start with? For the past 5-6years, my life had many ups and downs; I lost my career due to a medical condition, and once I got out of service had nowhere to turn, and no light seemed to be visible in the future. This was so until I was referred to the Foothill Workforce Development Board in the City of Pasadena, where I was given a chance to make a living. They have helped me to get free training and receive my Security Guard Licensing with all its minor and major needs, which was a stepping stone in my future developments until I had to look for employment again in 2019. At this time, the same development center had helped me in my Certifications, which I am continuing to pursue and load up on my resume. Moreover, the Foothill Workforce Development board representatives send weekly ads on jobs which helps the job hunt much simpler. They also offer themselves as references and help in resume development. No matter how perfect my resume seems to me, I could always ask for a second opinion on what is missing or what's extra. Another great help is the employees calling to check on our job status, or even needs. I was surprised when they offered rent assistance, and I qualified for a refund in the amount of a 1000\$. They have referred me to several contacts that offered financial support in even the simplest interview cloths shopping (Salvation Army). This office and its workers have been my guardian angels, since no matter where I end up or even when I don't expect it, they always help.

I hope this helps,
Sincerely yours,
Lilit Malentsyan

I would like to share my deepest gratitude with the City of Pasadena's Veterans Program, especially Julie McElrath. I would have to say went above and beyond her duties, made it easy for me to transition from being out of work to letting me know there is hope and opportunities for me. If i had a question she had the answer, or at least made an effort to find the solution. As a Veteran i sometimes feel we don't get a fair shake when it comes to benefits. That is not the case here, i never knew what it was to have a sense of rejoice until Ms. McElrath informed me i would receive benefits from the City of Pasadena. I absolutely have nothing but great things to say about this program. To be honest, im extremely sad to hear it might be coming to an end. It would be a real loss to a program that made such a huge difference in my life. Again, thank you Ms. McElrath for everything as well as going above and beyond, and for making me feel you cared about me.

Hi Julie,

sorry I missed the deadline to send out an email.

I truly am thankful for the services I received through your program. The financial support helped a lot when covid hit in March last year. All of my work came to a halt. It took 6 months to finally get through to EDD to apply for unemployment. The program's financial support helped carry me over during a tight squeeze paying everyday expenses.

I am working for Revolution Pest Control as Admin/Instructor
Start Date: Feb 27, 2021. I am working part-time for the first 60 days. Pay for first 30 days is 15.85 after 60 days \$18 per hour. I took this position so I could get more experience in adult teaching. It is my goal to find a secure position teaching adults.

Thank you for all your help.

Sincerely,

Marsha Gibson

Subject: Thank You FWDB

To Foothill Workforce Development Board,

I would like to thank the FWDB staff for all their assistance throughout my time in the VEAP program. The VEAP program gives a much needed boost to veterans that may be somewhat down on their luck. I appreciate the rental assistance that I received, COVID assistance that I also received and finally the part-time job offered through the VEAP program in which I obtained hands on experience of working within the office and assisting the FWDB with any help that I was able to provide. The VEAP program allowed me to add more tools into my personal tool kit.

Finally, I would like to thank Julie McElrath and Sarah Mendoza since they took a couple of veterans and allowed them to gain some personal experience with the team.

Thanks Again,
Gerardo Perez

Subject: Course Appreciation Letter

Good morning Julie,

Below is my attached email for the thank you service letter.

During the time that I had come back from UDP in Japan 2019, I received the amazing opportunity to meet Mrs. Julie McElrath. Julie assisted me in the process to attend UCLA in order to obtain my certification in Digital Marketing. I have since been on the path to achieve that goal with just three more classes to complete as of March 2021. Through this process I have started my own digital marketing company with the skills I have acquired both at UCLA and through self education. It was one of the most simplest forms of process to go through with amazing support every step of the way. Both Julie and the staff at UCLA (Eric Hubert) were great in assisting me get all the materials and classes in a timely manner and with ease. I could have not asked for better aid in my journey and could not imagine this process happening without the amazing and tender care Julie demonstrated. Praise God for all the blessings and for putting Julie in my path.

Sincerely,

Albert Gaytan

Subject: Comments on Monrovia's departure from FWDB
Date: Friday, May 28, 2021 12:43:57 PM

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

I support the City's choice to separate from the FWDB. The FWDB has not operated in compliance with its bylaws or federal and state mandates for many years, and efforts to achieve compliance are met with derision, threats, and bureaucratic excuses. The federal mandates to have community involvement with representation from the community Board members has been thwarted by calculated efforts of the administrator to secure resources for select jurisdictions and programs that are inconsistent with regional needs but that provide exclusive benefits for select cities and individuals. Staff is motivated to preserve its own place in their bureaucracy and to protect select individuals without regard to satisfy job mandates and community engagement that should be defined by the Board, not staff.

Board leadership ignores and thwarts executive and standing committee activity and acts independently of the Board as a whole and provides little or no information necessary to encourage engagement, involvement or informed decision-making. Record keeping of actions and authorizations is poor and often inconsistent with requirements. These are calculated efforts to assure resource allocations benefit a chosen few, without accountability, and do not serve to assess or determine legitimate workforce, employer, and community needs throughout the designated population.

The FWDB should be dissolved, with Pasadena and S. Pasadena aligning with the Verdugo WDB, and remaining jurisdictions to the east becoming affiliated to a new board that also involves cities east of Duarte and served by the Citrus Community College District (along the metro L Line corridor) and the K-12 Foothill Consortium school districts (MUSD, DUSD, AUSD and Charter Oak SD) to focus energy towards more consistent training, employer, and workforce needs and to achieve measurable and accountable results.

The WDB system should do more than preserve jobs and retirement plans of entrenched bureaucrats more interested in protecting themselves than in serving and being accountable to the entire community they are supposed to serve.

Dr. Angelov Farooq
Chair, California Workforce Development Board
800 Capitol Mall
Suite 1022
Sacramento, CA 95814

Dear Dr. Farooq:

Please allow this letter to serve as our company's unqualified support of the City of Monrovia as it seeks to move into the Local Area of the Los Angeles County Workforce Development Board (LACWDB). For over 20 years, our company has been a proud member of the Monrovia Chamber of Commerce and an active participant in Monrovia civic affairs. Our company recognizes that a robust partnership between business, local government, quality educational institutions, and a strong Workforce Development Board is critical for business growth.

We believe that LACWDB will more actively engage the Monrovia Chamber of Commerce in developing the local workforce with training opportunities for adults and work based learning options for Monrovia youth. We welcome enhanced prospects to partner with LACWDB as it offers training and work based learning to Monroviaans to help meet our employment needs.

Please do not hesitate to contact me if you wish to discuss our support further. Thank you for your consideration.

Sincerely,

A handwritten signature in black ink, appearing to read "Matthew Goo".

Subject: [BULK] LA County Workforce Development Board
Date: Friday, April 23, 2021 10:29:43 AM
Importance: Low

Good morning -

This is John Wilson. I'm a Monrovia resident and the Executive Director of Boys & Girls Club of the Foothills, here in Monrovia.

I'm writing to request more information about this change. Boys & Girls Club of the Foothills has had a very fruitful relationship with the Foothill Workforce Development Board, having used their services to place many "workers" at BGCF, many of whom stayed on with us after their workforce term ended.

The Foothill Workforce team is very accessible and seems specialized to our geographical area.

My concern is if we join the LA County Workforce the quality experience we've had will get lost in the large bureaucracy that is experienced in so many things associated with LA Co. departments.

Can you assure us that we will have the same level of service and attention as we've had with Foothill?

Thanks
John Wilson

I want to thank those who responded to the questions/comments in my previous email.

On behalf of Boys & Girls Club of the Foothills, and as a Monrovia resident, I want to express my support for the City of Monrovia's partnership with the LA County Workforce Development Board. I look forward to a robust and fruitful partnership with the LA Co WDB and for the new opportunities it will bring to our community.

Please let me know if you have any additional questions.

Thanks
John Wilson

**RE: In Support of the City of Monrovia's Local Area Modification
Application to Join Los Angeles County**

Dear Mr. Crouch,

Pursuant to Workforce Services Directive WSD20-04: *Local Area Modification (LAM) Process*, please accept this letter to denote the City of Monrovia's Notice of Intent to join the Los Angeles County Workforce Development Board's (WDB) Local Workforce Development Area (LWDA).

Furthermore, this letter also demonstrates the WDB's solid support for the proposed modification request. The County of Los Angeles' current LWDA includes unincorporated Monrovia. For this reason, the County and WDB have had a longstanding partnership in order to better leverage resources and provide Monrovia with quality workforce services.

The WDB held a special meeting on August 20, 2021, where this item was discussed. The WDB voted by a majority to approve and submit the LAM application on behalf of the City of Monrovia. The majority of public comments are also in favor of the modification. A summary of public commentary is included as part of the package.

The WDB welcomes the addition of the City of Monrovia. Inquiries regarding this application should be directed to Martha Molina-Aviles, Executive Director at mmolina-aviles@wdacs.lacounty.gov.

Sincerely,

Holly Schroeder, Chair

Los Angeles County Workforce Development Board

Completion time	Please provide your Name	Please provide the name of your organization	Please use this section to state your comment
4/8/21 19:50:21	Dianne Russell Carter	Foothill Workforce Development Board	Good Morning - My name is Dianne Russell-Carter. I am the Executive Director for the Foothill Workforce Development Board. Foothill provides workforce development services to the cities of Monrovia, Pasadena, Arcadia, Duarte, South Pasadena, and Sierra Madre, all of which fall into a geographical contiguous pattern within the San Gabriel Valley. FWDB is a high-performing workforce board that has provided workforce development services for the residents and businesses in the City of Monrovia for over 35 years. The City of Monrovia has been presented with information and data that does not support Monrovia's reasons for leaving the FWDB local area. FWDB would be please to share the same information with the Los Angeles County Workforce Development Board and LAC Board of Supervisors. Thank you.
4/9/21 8:47:02	Council Member / FWDB Vice Chair Policy Board Larry Spicer	City of Monrovia	I would like to speak in support of the Local Area Modification Application
4/9/21 9:00:40	Rachelle Arizmendi	Foothill Employment Training Consortium	As the Chair of the Policy Board that is comprised of representatives of the 6 cities in the Joint Powers Authority, I strongly believe that the residents and job seekers in Foothill Workforce Development Board are best served by keeping the six cities together.
4/9/21 12:09:07	Dan Lien - Executive Director, FWDB	Foothill Workforce Development Board	My comments regarding this application include I am concerned with the possible interruption of workforce development services to individuals within our local area during this time. FWDB continues to provide services to the City of Monrovia area and has data to document the success of services provided to the area. Monrovia feels our reporting of data regarding our work and services is inadequate and feels that the reporting of data will be different from another WDB. That reason does not support the submission of an application to the CA Governor to leave our consortium.
8/18/21 11:08:37	Dylan Feik	City of Monrovia	I wish to offer public comment in support of this LAM application for the City of Monrovia
8/18/21 14:25:12	Robert Hammond	Governing Boardmember Monrovia Unified School District. Former mayor City of Monrovia	I am in support of transitioning to the County WDB from Foothill WDB.

8/19/21 11:32:42 Sari Canales	Monrovia Chamber of Commerce	<p>The Monrovia Chamber of Commerce recognizes that a robust partnership between business, local government, quality educational institutions, and a strong Workforce Development Board is critical for business growth.</p> <p>We believe that WDB will actively engage local business partners, the Monrovia Chamber of Commerce and the community in developing the local workforce talent pipeline. WDB training and other resources will better provide Monrovians with opportunities to develop transferable skills and sustain employment. We welcome enhanced prospects to partner with WDB as it offers work based learning opportunities to Monrovians to help meet our employment needs and grow the local</p>
8/19/21 13:22:46 Dylan Feik	City of Monrovia	<p>In addition to my public comments, I have two letters of support for the LAM application for the City of Monrovia. Both the cities of South Pasadena and Arcadia have offered letters of support.</p>
8/19/21 15:02:08 Council Member Larry Spicer	City of Monrovia	<p>Moving to the County Local Area will increase Monrovia's access to transparency. Monrovia's requests for WIOA performance data from the County Workforce Development Board have always been met quickly and completely. That data has allowed our council to see how many of our constituents have received funds from the County for classroom training and for Work Based Learning opportunities. We can also see how many of our constituents have received WIOA services from the County. The transparency of this data has helped in Council deliberations around city workforce development. As a member of the current Local Area, Monrovia was forced to file a Public Records request and then wait nearly 3 months to receive the same data that was quickly and entirely provided by the County in a matter of days.</p> <p>As part of the County Local Area, the Monrovia City Council knows meaningful collaboration with Monrovia's businesses will improve substantially. This County Board has approved an Innovation Grant fostering a partnership with Home Instead Monrovia, Managed Career Solutions (a County AJCC), and Monrovia Community Adult School. This grant was approved to address the dire employment needs of Home Instead. The grant provides classroom training funds for WIOA clients who have been hired as Home Care Aides by Home Instead and then gives On-the-Job training funds to Home Instead to ensure smooth transition to employment for all hired employees. The City and the Adult School have been making large outreach efforts to regional unemployed adults to encourage them to get this training and earn these jobs. This is a meaningful example of what WIOA is meant to do. While Monrovia has been in its current Local Area, these opportunities may have been discussed, but no programs resulted with Monrovia businesses and with tangible outcomes. Our Council and our Chamber of Commerce believes there will be more opportunities like the current Innovation Grant when we are in the County's Local Area because we know many Monrovia businesses are willing to participate in such programs.</p> <p>And most importantly, the move to the County Local Area will result in a significant increase in WIOA training funds and services for our constituents. The LAM application clearly shows the data to support this. Over the last three years, even though Monrovia is not a part of the County Local Area, the County Board provided classroom training funds for 35 Monrovia residents for a total of \$103,846. During the same time, in Monrovia's current Local Area Board, only 14 Monrovia residents received classroom training funds for a total of \$63,129. During the 2020-21 program year, at the height of the pandemic, only 4 Monrovia residents received classroom training funds for a total of \$14,910. Over the last three years, the County has provided WIOA services to 180 Monrovia residents, while Monrovia's current Board has provided WIOA services to 85 Monrovia residents. Though not a part of the County Local Area, the County has provided WIOA services to 212% more residents, has classroom trained 250% more residents, and paid 165% more in training dollars to Monrovia residents.</p> <p>The City Council of Monrovia has already voted to leave the Foothill Employment and Training Consortium and move to the County Local Area. The Monrovia Chamber of Commerce and many Monrovia businesses support the Monrovia City Council's decision. In a recent FWDB Policy Board meeting, Pasadena Mayor Pro Tem Councilmember and FWDB Policy Board Member Tyrone Hampton voiced his support of the Monrovia City Council's decision. Arcadia Mayor and FWDB Policy Board member Sho Tay has written a letter supporting the Monrovia Council's decision. On August 18, 2021, the South Pasadena City Council voted 5-0 to support the Monrovia Council's decision and we ask that for the record all letters be admitted and attached as part of my public comment form. We ask this body to follow the will of the people and their elected representatives</p>

8/20/21 9:20:32 Dianne Russell Carter FWDB
Executive Director

Foothill Workforce Development Board

This comment is on behalf of the Foothill Workforce Development Board. The Board is in opposition of this move. The Board feels that the City of Monrovia's reasons for wanting to withdraw from the Foothill Consortium is not in the best interest of the Monrovia residents and is being pushed forward to support a specific agenda. Foothill has provided information to the City of Monrovia as per requested through the public information act. Within that information is enough data to conclude that FWDB is providing a good amount of services to Monrovia residents. The City of Monrovia stated that they are not interested in the data that verifies all the services provided to Monrovia residents but only those who were enrolled in training. Finally, I would like to remind everyone that as per the federal law (WIOA) all services provided are driven by customer's choice and customers should feel comfortable with their choices. '

RE: SUPPORT: Monrovia Local Workforce Development Area Modification Application

Dear Director Saenz and Mr. Rainey,

Earlier this year one of my cities, Monrovia, submitted a Local Workforce Development Area Modification Application to leave the Foothill Workforce Development Board and to be added to the Los County Workforce and Development Board's Local Workforce Development Area.

I submit this letter in strong support of the application. Please keep me informed of upcoming California Workforce Development Board meetings where this issue will appear on agendas for public discussion, as well as, the ongoing status of this application.

Please contact my staff, Kristi Lopez, via email at Kristi.Lopez@sen.ca.gov should you wish to get in contact with me to further discuss this matter

Respectfully,
